SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q15-Q20):

NEW QUESTION # 15

You want to plan transports with driver assignment. Where can you assign a driver? Note: There are 2 correct answers to this question.

- A. Vehicle resource
- B. Freight order
- C. Transportation lane
- D. Freight booking

Answer: A,B

Explanation:

In SAP S/4HANA Transportation Management, driver assignment is part of the transportation planning process to ensure that specific drivers are allocated to transports. According to the SAP documentation, drivers can be assigned in:

* Freight order (C): Drivers can be assigned directly to a freight order during planning or execution, specifying who will operate the vehicle for the transport.

* Vehicle resource (D): Drivers can be assigned to a vehicle resource in the master data, linking a driver to a specific vehicle for planning purposes.

The other options are incorrect:

* Transportation lane (A) defines routes and costs but does not include driver assignments.

* Freight booking (B) is used for ocean or air transport and typically does not involve driver assignments, which are more relevant to road transport (freight orders).

NEW QUESTION # 16

Messages that have been forwarded to the Postprocessing Desktop can also be restarted from the monitor for processed XML messages. Determine whether this statement is true or false.

- A. false
- B. true

Answer: A

NEW QUESTION # 17

A carrier has responded to your request for quotation but was NOT automatically assigned to the freight order. What could be the reason for this?

There are 2 correct answers to this question.

- A. The tendering process was set to 'Direct Tendering - Send Freight Order Directly'
- B. The program to evaluate freight quotations was NOT executed
- C. The tendering profile contains a subsequent step
- D. The carrier responded after the response time had expired

Answer: B,D

NEW QUESTION # 18

Which of the following configuration settings can be used to automatically assign business partners? Note:

There are 2 correct answers to this question.

- A. Freight unit type
- B. Business function
- C. Partner function
- D. Freight order type

Answer: C,D

Explanation:

In SAP S/4HANA Transportation Management, business partners (e.g., carriers, shippers) can be automatically assigned to documents using specific configuration settings. According to the SAP documentation:

* Partner function (A): Partner functions define roles (e.g., carrier, ordering party) and can be configured with determination rules to automatically assign business partners based on criteria like location or agreement.

* Freight order type (B): The freight order type can include a partner determination profile that specifies rules for automatically assigning business partners, such as carriers, to the freight order.

The other options are incorrect:

* Freight unit type (C) controls freight unit creation but does not directly handle business partner assignment.

* Business function (D) is a system-level setting for enabling features, not for partner assignment.

Reference:

SAP S/4HANA Cloud Private Edition, Transportation Management Study Guide: Unit 7 - Master Data, Section on Business Partner Determination.

SAP Help Portal: Transportation Management - Partner Determination Configuration ().

NEW QUESTION # 19

Which of the following are features of the transportation cockpit? Note: There are 3 correct answers to this question.

- A. Cost determination
- B. Multiple screens
- C. Command line
- D. Distance calculation
- E. Gantt chart

Answer: B,C,E

Explanation:

Transportation Management Overview and Fundamentals
