Juniper Security, Associate (JNCIA-SEC) Sample Questions (Q61-Q66):

NEW QUESTION # 61

Which two addresses are valid address book entries? (Choose two.)

- A. 203.150.108.10/24
- B. 191.168.203.0/24
- C. 173.145.5.21/255.255.255.0
- D. 153.146.0.145/255.255.0.255

Answer: A,C

Explanation:

The correct address book entries are:

173.145.5.21/255.255.255.0

203.150.108.10/24

Both of these entries represent a valid IP address and subnet mask combination, which can be used as an address book entry in a Juniper device.

NEW QUESTION # 62

Which two statements are correct about NAT and security policy processing? (Choose two.)

- A. The security policy is evaluated before destination NAT.
- B. The security policy is evaluated after source NAT.
- C. The security policy is evaluated before source NAT.
- D. The security policy is evaluated after destination NAT.

Answer: C,D

Explanation:

Security policies are evaluated after destination NAT so that policy matching uses the translated destination address.

Security policies are evaluated before source NAT so that policy decisions are based on the original source address before translation occurs.

NEW QUESTION # 63

Which two statements about security zones are correct? (Choose two.)

- A. Security zones control the type of exception traffic accepted by a network interface.
- B. You add a network interface to a security zone before it can send or receive traffic.
- C. Interfaces in the same security zone can use different routing instances.
- D. A security zone includes interfaces assigned to different routing instances.

Answer: A,B

Explanation:

A network interface must be assigned to a security zone before it is allowed to send or receive traffic through the SRX Series Firewall.

Security zones define and control exception traffic (such as host-inbound system services and protocols) that is permitted to or from interfaces within the zone.

NEW QUESTION # 64

Which solution will add antivirus features to your SRX Series device?

- A. IDP
- B. NAT
- **C. Content Security**
- D. firewall filters

Answer: C

Explanation:

Content Security on SRX devices provides antivirus functionality by integrating malware scanning and file inspection services to protect traffic passing through the firewall.

NEW QUESTION # 65

Which two statements are correct about security zones? (Choose two.)

- **A. Interfaces in the same security zone must share the same routing instance.**
- B. Interfaces in the same security zone must use separate routing instances.
- C. An interface can exist in multiple security zones.
- **D. A security zone can contain multiple interfaces.**

Answer: A,D

Explanation:

A security zone can include multiple interfaces, allowing them to share the same security policy context.

Interfaces within the same security zone must belong to the same routing instance to ensure consistent routing and security policy enforcement.

NEW QUESTION # 66

.....

The Lead2PassExam JN0-232 PDF questions file, desktop practice test software, and web-based practice test software, all these three JN0-232 practice test questions formats are ready for instant download. Just download any Juniper JN0-232 Exam Questions format and start this journey with confidence.
