

Valid Salesforce-Data-Cloud Exam Dumps - Latest Salesforce-Data-Cloud Exam Experience

BTW, DOWNLOAD part of ActualVCE Salesforce-Data-Cloud dumps from Cloud Storage: https://drive.google.com/open?id=1pgAETaNYAH4_xpgi6XVH6gnf3xjqw9E5

The high quality and high efficiency of our Salesforce-Data-Cloud exam materials has helped many people pass exams quickly. After they get a Salesforce-Data-Cloud certificate, they now have more job opportunities. And you can just look at the feedbacks from our worthy customers on the website thanking for our Salesforce-Data-Cloud learning guide. The current situation is very serious. Selecting our Salesforce-Data-Cloud training guide is your best decision.

Free demo for Salesforce-Data-Cloud learning materials is available, you can try before buying, so that you can have a deeper understanding of what you are going to buy. We also recommend you to have a try before buying. In addition, Salesforce-Data-Cloud training materials contain both questions and answers, and it's convenient for you to check answers after practicing. Salesforce-Data-Cloud Exam Dumps cover most of the knowledge points for the exam, and you can have a good command of the knowledge points by using Salesforce-Data-Cloud exam dumps. We have online and offline chat service, if you have any questions, you can consult us.

Latest Salesforce-Data-Cloud Exam Experience, Salesforce-Data-Cloud Pdf Dumps

Reliable Salesforce Data Cloud Accredited Professional Exam Salesforce-Data-Cloud Dumps Questions and dumps ebook make your career more successful. Salesforce provides updated, free reliable Salesforce Data Cloud Accredited Professional Exam dumps free download. And the Salesforce Data Cloud Accredited Professional Exam Salesforce Data Cloud Accredited Professional Exam price is affordable. With 365 days updates. It works with all operating systems like Linux, Windows, Android, Mac, and IOS, etc.

Salesforce Data Cloud Accredited Professional Exam Sample Questions (Q135-Q140):

NEW QUESTION # 135

What can be customized in the Data Cloud canonical model?

- **A. Objects, Fields, and Relationships**
- B. Objects
- C. Objects and Fields
- D. Fields

Answer: A

Explanation:

Explanation

You can customize the Data Cloud canonical model by adding, editing, or deleting objects, fields, and relationships. You can also modify the properties, labels, and descriptions of these components.

NEW QUESTION # 136

How does an administrator increase the consolidation rate for Identity Resolution?

- A. Change all reconciliation rules to Source Sequence
- **B. Reduce the number of matching rules**
- C. Add more matching rules to broaden the search for matches
- D. Change the Ignore Empty Value option

Answer: B

Explanation:

Reducing the number of matching rules can increase the consolidation rate for Identity Resolution, because it reduces the chances of finding multiple matches for the same individual. Matching rules tell Data Cloud which profiles to unify during the identity resolution process. If there are too many matching rules, Data Cloud might find more than one match for a given profile, resulting in a lower consolidation rate.

References: Identity Resolution Match Rules

NEW QUESTION # 137

What is a DMO called if it inherits the name, shape, and semantics of the reference object?

- A. Data Source Object (DSO)
- **B. Standard DMO**
- C. Data Lake Object (DLO)
- D. Custom DMO

Answer: B

Explanation:

A Data Model Object (DMO) that inherits the name, shape, and semantics of the reference object is called a Standard DMO. A reference object is a predefined object in the Data Cloud data model that represents a common entity or concept, such as Individual, Order, or Product. A Standard DMO is a copy of a reference object that you can use to ingest data from a specific source without modifying the original reference object. A Standard DMO has the same fields and relationships as the reference object, but you can add custom fields or relationships to it if needed. References: Data Model Objects

NEW QUESTION # 138

What component of Calculated Insights can be included as attribute data in an activation?

- A. Metrics
- B. Filters
- C. Metrics and Dimensions
- **D. Dimensions**

Answer: D

Explanation:

Explanation

Dimensions are attributes that can be used to group or filter data in calculated insights. You can include dimensions as attribute data in an activation by selecting them from the available attributes list.

NEW QUESTION # 139

Northern Trail Outfitters wants to create a segment with customers that have purchased in the last 24 hours. The segment data must be as up to date as possible. What should the consultant Implement when creating the segment?

- A. Use standard segment with a publish interval of 30 minutes.
- **B. Use streaming insights for near real-time segmentation results.**
- C. Use Einstein segmentation optimization to collect data from the last 24 hours.
- D. Use rapid segments with a publish interval of 1 hour.

Answer: B

Explanation:

To address Northern Trail Outfitters' requirement of creating a segment with customers who have purchased in the last 24 hours, while ensuring the data is as up to date as possible, streaming insights is the most appropriate solution. Here's why:

Understanding Streaming Insights :Salesforce Data Cloud provides Streaming Insights , which enables near real-time data processing and segmentation. This feature allows businesses to capture and act on customer interactions or transactions almost instantly, making it ideal for time-sensitive use cases like identifying recent purchasers.

Why Not Other Options?

Option B (Einstein Segmentation Optimization) : Einstein Segmentation Optimization focuses on improving segment performance using AI but does not inherently provide near real-time data updates. It is more about refining existing segments rather than ensuring low-latency data availability.

Option C (Rapid Segments with a Publish Interval of 1 Hour) : Rapid Segments are faster than standard segments but still involve a delay due to the publish interval. A 1-hour interval would not meet the "as up to date as possible" requirement.

Option D (Standard Segment with a Publish Interval of 30 Minutes) : Standard segments are processed less frequently and typically involve longer delays. Even with a 30-minute interval, this option cannot match the near real-time capabilities of streaming insights.

How Streaming Insights Works :

Streaming Insights processes data from connected sources (e.g., CRM, external systems) in near real-time.

When a customer makes a purchase, the transaction data is ingested into Data Cloud and immediately available for segmentation.

The consultant can configure a segment rule to include only customers whose purchase timestamp falls within the last 24 hours.

Salesforce Documentation Reference :According to Salesforce's official Data Cloud documentation, Streaming Insights is designed for scenarios where timely data is critical. It ensures that segments reflect the latest customer behavior without significant delays, aligning perfectly with Northern Trail Outfitters' needs.

NEW QUESTION # 140

.....

Everyone is not willing to fall behind, but very few people take the initiative to change their situation. Take time to make a change and you will surely do it. Our Salesforce-Data-Cloud actual test guide can give you some help. Our company aims to help ease the pressure on you to prepare for the Salesforce-Data-Cloud exam and eventually get a certificate. Obtaining a certificate is equivalent to having a promising future and good professional development. Our Salesforce-Data-Cloud Study Materials have a good reputation in the international community and the quality of our Salesforce-Data-Cloud study guide is guaranteed.
