To save resources of our customers, we offer Real Advanced-Administrator Exam Questions that are enough to master for Advanced-Administrator certification exam. Our Salesforce Advanced-Administrator Exam Dumps are designed by experienced industry professionals and are regularly updated to reflect the latest changes in the Salesforce Certified Advanced Administrator exam content.

Salesforce Certified Advanced Administrator Sample Questions (Q36-Q41):

NEW QUESTION # 36

Universal Containers uses Salesforce Knowledge and has defined its category groups based on the regions of Europe, of Americas, Africa, and Asia. The administrator needs to restrict visibility of each category to the sales representatives within each region. How should the administrator control access to these category groups?

- A. Add custom category groups to the roles assigned to the sales users.
- B. Add or remove sales users from a public group with access to the category groups.
- C. Add custom category groups to the profiles assigned to the sales users.
- D. Modify object settings for the category groups on the sales users profiles.

Answer: A

NEW QUESTION # 37

AW Computing wants to embed a report chart on the Account record page that shows the value of closed sales for that account. The chart should be limited to users in the Sales Manager role on the Account record pages. How should this be accomplished?

- A. Filter component visibility for the Account ID.
- B. Create a new page layout for the Sales Manager role.
- C. Create a new report and assign it to the component.
- D. Filter component visibility for the Sales Manager role.

Answer: A

Explanation:

Explanation

To embed a report chart on a record page, you need to use a lightning component that displays report charts.

You can filter the component visibility by setting conditions based on record fields, user attributes, or device type. In this case, you can filter the component visibility by matching the Account ID field on the report chart with the Account ID field on the record page.

This will ensure that only the relevant data for that account is shown on the chart. References:

https://help.salesforce.com/s/articleView?id=sf.app_builder_set_component_visibility.htm&type=5

NEW QUESTION # 38

What are three options available to the administrator to help with this issue? Choose 3 answers

- A. Deactivate unnecessary validation rules.
- B. Move some page components behind a tab.
- C. Reduce the number of related lists displayed.
- D. Convert all Process builders to flows.
- E. Remove some of the fields displayed.

Answer: B,C,E

Explanation:

Move some page components behind a tab, remove some of the fields displayed, and reduce the number of related lists displayed are three options available to the administrator to help with this issue. Moving some page components behind a tab can help reduce the loading time of a record page by hiding some components until they are needed by the user.

NEW QUESTION # 39

A user at Urso Major Solar is experiencing a flow error while trying to process a record to the next status. The users with the same access can process records without any errors.

What should the administrator do to troubleshoot the issue?

- A. Grant the user more data access by moving them higher in the role hierarchy.
- B. Grant the user the Modify All permission to ensure they have full system access.
- C. Use the flow debug option and set the selection to Run as another user.
- D. Change the flow to run as System Context Without Sharing - Access All Data.

Answer: C

Explanation:

The flow debug option is a tool that allows you to test and troubleshoot your flow by running it in debug mode and inspecting the values of variables and resources at each step. You can also set the debug mode to run as another user and see how the flow behaves for different users with different permissions and settings.

In this case, using the flow debug option and setting the selection to run as another user can help identify why one user is experiencing a flow error while others are not. References: https://help.salesforce.com/s/articleView?id=sf.flow_debug.htm&type=5

NEW QUESTION # 40

The sales manager at Cloud Kicks (CK) wants to make sure the accounts that CK serves are happy. One way they track this is by how many open cases an account has with CK. The sales manager asks CK's administrator to build a report to show Accounts with Open Cases.

What report type would this be?

- A. Joined Report
- B. Matrix Report
- C. Bucket Report
- **D. Summary Report**

Answer: D

NEW QUESTION # 41

.....
