This allows VCE4Plus to always have the materials of highest quality.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q143-Q148):

NEW QUESTION # 143
Universal Containers' (UC) Salesforce org uses SAML 550 with a third-party identity provider for internal user authentication. UC now wants to extend this capability for Experience Cloud site users as well.

What should the UC administrator ensure in order to successfully implement SAML 550 for the Experience Cloud site?

- A. Create a Visualforce page that receives and validates the SAML assertion.
- B. Use thesite login URL as an endpoint where SAML assertion is made.
- C. Create a Connected App with custom attributes before configuring SAML settings.
- D. Register the Experience Cloud site as an Identity Provider in SAML settings.

Answer: B

Explanation:
To implement SAML 550 for the Experience Cloud site, the UC administrator should use thesite login URL as an endpoint where SAML assertion is made. SAML 550 is a protocol that allows users to authenticate with a third-party identity provider and access Salesforce resources without entering their Salesforce credentials.
The site login URL is the URL that users use to access the Experience Cloud site. By using the site login URL as an endpoint, the UC administrator can configure SAML settings to redirect users to the identity provider for authentication and then back to the Experience Cloud site.

NEW QUESTION # 144
Dreamscape Flowers recently launched three Experience Cloud sites for North America, Europe, and Asia Pacific regions. The Community managers have installed the Salesforce Communities Management package and are getting useful insights on adoption and engagement.
During the Community managers' weekly meeting, the Community manager for Europe mentioned that the preconfigured Insights reports cannot be used for their Experience Cloud site.
What is the reason for this issue?

- A. The Experience Cloud site for Europe has more than a million users.
- B. The Experience Cloud site for Europe is not using Chatter which is needed to use the preconfigured Insights reports.
- C. The preconfigured Insights reports need to be modified to meet GDPR requirements.
- D. The Community manager for Europe does not have System Administrator privileges.

Answer: C

Explanation:
The reason for this issue is that the preconfigured Insights reports need to be modified to meet GDPR requirements. Insights is a feature that allowsyou to measure and analyze the adoption and engagement of your Experience Cloud sites using preconfigured reports and dashboards. However, some of these reports may not comply with GDPR, which is a regulation that protects the privacy and data rights of individuals in the European Union. To use Insights for the Experience Cloud site for Europe, the Community manager needs to modify the preconfigured reports to meet GDPR requirements, such as anonymizing user data, obtaining user consent, and deleting user data upon request.

NEW QUESTION # 145
Ursa Major Solar wants to give customers the ability to add authorized users to view usage, billing, and payment history.
Which permission should be granted to customersto add authorized users?

- A. Modify All for Usage, Billing, and Payment History
- B. Delegated External User Administrator
- C. View and Manage Users
- D. View Content in Portals

Answer: B

Explanation:
To give customers the ability to add authorized users toview usage, billing, and payment history, UMS should grant Delegated External User Administrator permission to customers. Delegated External User Administrator is a permission that allows customers to create new users or reset passwords for other customersin their own account. UMS can use Delegated External User Administration, which isa feature that allows UMS to assign specific users as delegated administrators who can manage external users in their own accounts.

NEW QUESTION # 146

Partners at Universal Containers (UC) have given feedback that it takes too long for administrators to create new users or reset passwords for partner employees.

What should be done to help UC with user management?

- A. Delegate external user administration.
- B. Implement a limit on new users and password resets.
- C. Recommend partners share user credentials.
- D. Create a new user form that automatically triggers a process to create a user.

Answer: D

Explanation:

To help UC with user management, UC should delegate external user administration to its partners. This will allow UC to grant permission to its partners to create new users or reset passwords for partner employees without involving UC's administrators. UC can use Delegated External User Administration, which is a feature that allows UC to assign specific users as delegated administrators who can manage external users in their own accounts.

NEW QUESTION # 147

AW Computing is using the Build Your Own (LWR) template to create a site for its customers. The site will showcase blog posts written by AW Computing thought leaders.

Which component should the site creator use to dynamically populate the site with blog posts as new ones are added?

- A. Grid component with list.views
- B. CMS - Single
- C. CMS Connect (JSON)
- D. Grid component with CMS Collections

Answer: D

Explanation:

To dynamically populate the site with blog posts as new ones are added, CK should use a Grid component with CMS Collections. A Grid component is a component that displays content in a grid layout with rows and columns. A CMS Collection is a collection of content items that are created and managed in Salesforce CMS.

CK can use a Grid component and select a CMS Collection as the content source. This will allow CK to showcase blog posts written by AW Computing thought leaders on its site and automatically update them as new ones are added.

NEW QUESTION # 148

......
