### **CIMA F3 Financial Strategy Sample Questions (Q242-Q247):**

#### **NEW QUESTION # 242**

Which of the following statements are true with regard to interest rate swaps?  
Select ALL that apply.

- A. When interest rates are falling the risk of default by the fixed interest rate payer is low.
- B. An interest rate swap is an external hedging technique.
- C. Some companies interest rate swap to deliberately increase their risks because they believe that they are better at predicting future interest rates than the market.
- D. Risk of default is high from the floating interest rate payer if interest rates rise.
- E. A nice rate swap is an internal hedging technique.

**Answer: A,B,D**

#### **NEW QUESTION # 243**

The value of a call option will increase because of:

- A. An increase in the time to expiry.
- B. A decrease in the volatility of the share.
- C. An increase in the strike price.
- D. A decrease in the market value of the share

**Answer: A**

Explanation:

The value of a call option increases when:

The underlying share price increases

The strike price decreases

The time to expiry increases

Volatility increases

Risk-free rate increases

Looking at the options:

- A). Increase in strike price # reduces call value
- B). Decrease in volatility # reduces call value
- C). Increase in time to expiry # increases call value #
- D). Decrease in share price # reduces call value

#### NEW QUESTION # 244

PTT has a number of subsidiary companies around the world, including FTT based in Europe and CTT based in Indonesia CTT purchases all of its raw materials from FTT CTT processes these materials and the resulting products are exported to several different countries CTT pays FTT in the Indonesian currency.

Indonesia's inflation is higher than that of FTT's home country

Which of the following statements are correct?

Select ALL that apply

- A. FTT could investigate whether it could import anything from Indonesia in order to create a natural hedge.
- B. FTT will be exposed to transaction risks as the Indonesian currency will appreciate over time because of the expected inflation rates
- C. FTT could ask for all payments to K to be made in its home currency, which would reduce exposure to currency risk
- D. FTT will be exposed to transaction risk The Indonesian currency that it receives is likely to decline over time because of anticipated inflation
- E. CTT will be exposed to translation risk because FTT will almost certainly have to reflect the changing prices in its selling price and it will be difficult for CTT to make a profit

**Answer: B,C,D**

#### NEW QUESTION # 245

A company based in Country D, whose currency is the D\$, has an objective of maintaining an operating profit margin of at least 10% each year.
