If you want to pass your exam and get the certification in a short time, choosing the suitable FCSS_SASE_AD-25 exam questions are very important for you. You must pay more attention to the FCSS_SASE_AD-25 study materials. In order to provide all customers with the suitable study materials, a lot of experts from our company designed the FCSS_SASE_AD-25 Training Materials. We can promise that if you buy our FCSS_SASE_AD-25 exam questions, it will be very easy for you to pass your FCSS_SASE_AD-25 exam and get the certification.

Fortinet FCSS_SASE_AD-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Analytics and Monitoring: This section of the exam measures the skills of Security Analysts and emphasizes the monitoring and reporting aspects of FortiSASE. Candidates are expected to configure dashboards, logging settings, and analyze reports for user traffic and security issues. Additionally, they must use FortiSASE logs to identify potential threats and provide insights into incidents or abnormal behavior. The focus is on leveraging analytics for operational visibility and strengthening the organization's security posture.

Topic 2	<ul style="list-style-type: none"> • SASE Deployment: This section of the exam measures the knowledge of Implementation Consultants and focuses on the practical aspects of deploying FortiSASE. Candidates will explore user onboarding methods, configuration of administration settings, and the application of security posture checks with compliance rules. The exam also includes key functions such as SIA, SSA, and SPA, alongside the design of security profiles that perform effective content inspection. By combining these tasks, learners demonstrate readiness to roll out secure and scalable deployments.
Topic 3	<ul style="list-style-type: none"> • Advanced FortiSASE Solutions: This section of the exam measures the expertise of Solution Architects and validates the ability to work with advanced FortiSASE features. It covers deployment of SD-WAN using FortiSASE, implementation of Zero Trust Network Access (ZTNA), and the overall role of FortiSASE in optimizing enterprise connectivity. The section highlights how these advanced solutions improve flexibility, enforce zero-trust principles, and extend security controls across distributed networks and cloud systems.
Topic 4	<ul style="list-style-type: none"> • SASE Architecture and Components: This section of the exam measures the skills of Network Engineers and introduces the fundamentals of SASE within enterprise environments. Candidates are expected to understand the SASE architecture, identify FortiSASE components, and build deployment cases for real-world scenarios. The content emphasizes how SASE can be integrated into a hybrid network, showcasing secure design principles and the use of FortiSASE capabilities to support business and security objectives.

FCSS_SASE_AD-25 Exam Reviews & FCSS_SASE_AD-25 VCE Exam Simulator

FCSS - FortiSASE 25 Administrator Questions are Very Beneficial for Strong Preparation. The top objective of Prep4away is to offer real Fortinet Exam FCSS_SASE_AD-25 exam questions so that you can get success in the FCSS_SASE_AD-25 actual test easily. The Fortinet Exam FCSS - FortiSASE 25 Administrator valid dumps by the Prep4away are compiled by a team of experts. We have hired these FCSS_SASE_AD-25 Exam professionals to ensure the top quality of our product. This team works together and compiles the most probable FCSS - FortiSASE 25 Administrator exam questions. So you can trust Fortinet Exams Practice questions without any doubt.

Fortinet FCSS - FortiSASE 25 Administrator Sample Questions (Q15-Q20):

NEW QUESTION # 15

During FortiSASE provisioning, how many security points of presence (POPs) need to be configured by the FortiSASE administrator?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

NEW QUESTION # 16

What can be configured on FortiSASE as an additional layer of security for FortiClient registration?

- A. security posture tags
- B. user verification
- C. application inventory
- D. device identification

Answer: B

NEW QUESTION # 17

A customer wants to upgrade their legacy on-premises proxy to a cloud-based proxy for a hybrid network. Which FortiSASE features would help the customer to achieve this outcome?

- A. secure web gateway (SWG) and inline-CASB
- B. zero trust network access (ZTNA) and next generation firewall (NGFW)
- C. SD-WAN and inline-CASB
- D. SD-WAN and NGFW

Answer: A

Explanation:

For a customer looking to upgrade their legacy on-premises proxy to a cloud-based proxy for a hybrid network, the combination of Secure Web Gateway (SWG) and Inline Cloud Access Security Broker (CASB) features in FortiSASE will provide the necessary capabilities.

Secure Web Gateway (SWG):

SWG provides comprehensive web security by inspecting and filtering web traffic to protect against web-based threats.

It ensures that all web traffic, whether originating from on-premises or remote locations, is inspected and secured by the cloud-based proxy.

Inline Cloud Access Security Broker (CASB):

CASB enhances security by providing visibility and control over cloud applications and services.

Inline CASB integrates with SWG to enforce security policies for cloud application usage, preventing unauthorized access and data leakage.

FortiOS 7.2 Administration Guide: Details on SWG and CASB features.

FortiSASE 23.2 Documentation: Explains how SWG and inline-CASB are used in cloud-based proxy solutions.

NEW QUESTION # 18

Refer to the exhibits.

☐

A FortiSASE administrator is trying to configure FortiSASE as a spoke to a FortiGate hub.

The VPN tunnel does not establish.

Which configuration needs to be modified to bring the tunnel up?

- A. The network overlay ID must match on FortiSASE and the hub.
- B. Auto-discovery-sender must be disabled on IPsec phase1 settings.
- C. The BGP router ID must match on the hub and FortiSASE.
- D. FortiSASE spoke devices do not support mode config.

Answer: A

Explanation:

Fortinet documentation makes clear that overlay IDs must be identical on hub and spoke for ADVPN to establish correctly:

* "When configuring the root and downstream FortiGates the Fabric Overlay Orchestrator configures...

IPsec overlay configuration (hub and spoke ADVPN tunnels)."

* "The Fabric root will be the hub and any first-level downstream devices from the Fabric root will be spokes." In the scenario:

* FortiSASE overlay ID = 100

* FortiGate hub overlay ID = 101

Mismatch prevents tunnel establishment. Therefore, the fix is: B. The network overlay ID must match on FortiSASE and the hub.

NEW QUESTION # 19

Which two are required to enable central management on FortiSASE? (Choose two.)

- A. FortiSASE connector configured on FortiManager.
- B. FortiSASE central management entitlement applied to FortiManager.
- C. FortiManager and FortiSASE registered under the same FortiCloud account.
- D. The FortiManager IP address in the FortiSASE central management configuration.

Answer: B,C

Explanation:

According to the FortiOS Administration Guide, when configuring central management, a FortiManager Cloud entitlement must be present and the devices must share the same FortiCloud account for registration.

Specifically:

* "The FortiManager Cloud button can only be selected if you have a FortiManager Cloud product entitlement."

* "The FortiGate and FortiCloud license are registered to the same account." Thus, the two verified requirements are: B (entitlement) and D (same FortiCloud account).

NEW QUESTION # 20

.....

It is known to us that the knowledge workers have been playing an increasingly important role all over the world, since we have to admit the fact that the FCSS_SASE_AD-25 certification means a great deal to a lot of the people, especially these who want to change the present situation and get a better opportunity for development. If you also want to work your way up the ladder, preparing for the FCSS_SASE_AD-25 Exam will be the best and most suitable choice for you. If you are still hesitating whether you need to take the FCSS_SASE_AD-25 exam or not, you will lag behind other people.
