

Analyze Your Progress With Desktop 3V0-21.23 Practice Exam Software

As what have been demonstrated in the records concerning the pass rate of our 3V0-21.23 free demo, our pass rate has kept the historical record of 98% to 99% from the very beginning of their foundation. During these years, our PDF version of our 3V0-21.23 study engine stays true to its original purpose to pursue a higher pass rate that has never been attained in the past. And you will be content about our considerate service on our 3V0-21.23 training guide. If you have any question, you can just contact us!

VMware 3V0-21.23 Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none">VMware Products and Solutions: Targeting VMware Engineers, this section describes VMware Cloud Foundation architecture, its components like vSphere and NSX, benefits such as automation and scalability, and use cases like hybrid cloud environments. It assesses understanding of VMware Validated Solutions. |
| Topic 2 | <ul style="list-style-type: none">Plan and Design the VMware Solution: This part targets Solution Designers, evaluating their ability to gather business objectives, create conceptual models based on these objectives, develop logical designs, and translate them into physical designs that meet specific requirements like manageability or security. |
| Topic 3 | <ul style="list-style-type: none">IT Architectures, Technologies, Standards: This section of the exam measures the skills of IT Architects and covers differentiating between business and technical requirements, as well as conceptual, logical, and physical design. A key skill measured is "Designing System Availability." |

Quiz 2026 Valid VMware 3V0-21.23 Reliable Exam Book

When new changes or knowledge are updated, our experts add additive content into our 3V0-21.23 latest material. They have always been in a trend of advancement. Admittedly, our 3V0-21.23 real questions are your best choice. We also estimate the following trend of exam questions may appear in the next exam according to syllabus. So they are the newest and also the most trustworthy 3V0-21.23 Exam Prep to obtain.

VMware vSphere 8.x Advanced Design Sample Questions (Q34-Q39):

NEW QUESTION # 34

An architect is preparing a design for a company planning digital transformation.

During the requirements gathering workshop, the following requirements (REQ) and constraints (CON) are identified:

- REQ01 The platform must host different types of workloads including applications that must be compliant with internal security standard.
- REQ02 The infrastructure must initially run 100 virtual machines.
- REQ03 Ten of the virtual machines must be compliant with internal security standard.
- REQ04 The internal security standard specifies logical network separation for in-scope applications.
- CON01 The customer has already purchased the licenses as part of another project.
- CON02 The customer has five physical servers that must be reused.

Additionally, based on resource requirements, four physical servers will be enough to run all workloads.

Which recommendation should the architect make to meet requirements while minimizing project costs?

- A. Use Network I/O Control to ensure the internal security zone has higher share value
- **B. Use a single cluster and ensure that different security zones are separated at least with dedicated VLANs and firewall**
- C. Use a single cluster and configure DRS anti-affinity rules to ensure internal security compliant virtual machines cannot migrate between ESXi hosts.
- D. Purchase additional servers and plan separate, isolated clusters for workloads that must be compliant with internal security

Answer: B

NEW QUESTION # 35

Which aspect of a vSphere design focuses on the availability, integrity, and confidentiality of sensitive data?

- A. Business continuity requirements
- **B. Security requirements**
- C. Disaster recovery requirements
- D. Data protection requirements

Answer: B

NEW QUESTION # 36

As part of a new hybrid cloud initiative for a large financial company, the customer technical team is presenting an overview of the current state of the infrastructure and their vision for a new solution.

The project team captures notes during the presentation and adds them to the discovery documentation.

Which of the listed statements is a design constraint?

- A. The applications are created in-house with in-guest recovery protection
- B. The existing storage is out of maintenance
- **C. The two data center locations have a network latency of 8 ms round-trip time (RTT)**
- D. The maximum tolerable data loss is 10 minutes

Answer: C

Explanation:

Customer talks about a new Hybrid cloud solution. Therefore, vSAN comes to my mind as a great solution regarding storage and Hybrid cloud.

Based on the following information, network latency of 8 ms RTT will be considered a design constraint.

Data Site to Data Site Network Latency :

Data site to data site network refers to the communication between non-witness sites, in other words, sites that run virtual machines and hold virtual machine data. Latency or RTT (Round Trip Time) between sites hosting virtual machine objects should not be greater than 5msec (<

2.5msec one-way).

<https://core.vmware.com/resource/vsan-stretched-cluster-guide#sec7310-sub3>

NEW QUESTION # 37

Which type of requirement focuses on the processing power and resources needed by the system?

- A. Storage requirements
- B. Network requirements
- C. Performance requirements

- **D. Compute requirements**

Answer: D

NEW QUESTION # 38

An architect is considering placement of virtual machines within an existing VMware software-defined data center (SDDC). During the discovery phase, the following information is documented:

Cluster One

- Six ESXi hosts
- vSphere HA with host failures cluster tolerates = 1
- Proactive HA is enabled and set to automated |
- Fully Automated vSphere DRS
- Transparent Page Sharing (TPS) is enabled

Cluster Two

- Eight ESXi hosts
- vSphere HA with host failures cluster tolerates = 1
- Proactive HA is disabled
- Partially Automated vSphere DRS
- Transparent Page Sharing (TPS) is disabled

Cluster Three

- Three ESXi hosts
- vSphere HA with admission control is disabled
- Proactive HA is not supported
- Transparent Page Sharing (TPS) is disabled

Virtual Machine Resource Profile 1

- Memory sharing techniques should not be used
- Virtual machines should be automatically restarted in the event of host failure if resources are available Automated initial virtual machine placement Virtual Machine Resource Profile 2

- Memory sharing techniques should not be used
- Virtual machines should be automatically restarted in the event of host failure regardless of available resources
- Automated initial virtual machine placement.

Which two recommendations should the architect make for placement of the virtual machines to meet resource profile requirements? (Choose two.)

- **A. All virtual machines matching Virtual Machine Resource Profile 1 should be placed on Cluster Two.**
- B. All virtual machines matching Virtual Machine Resource Profile 2 should be placed on Cluster One.
- **C. All virtual machines matching Virtual Machine Resource Profile 2 should be placed on Cluster Three.**
- D. All virtual machines matching Virtual Machine Resource Profile 1 should be placed on Cluster One.
- E. All virtual machines matching Virtual Machine Resource Profile 2 should be placed on Cluster Two.

Answer: A,C

NEW QUESTION # 39

.....

In the process of using the VMware vSphere 8.x Advanced Design study question, if the user has some problems, the IT professor will 24 hours online to help users solve, the user can send email or contact us on the online platform. Of course, a lot of problems such as soft test engine appeared some faults or abnormal stating run phenomenon of our 3V0-21.23 exam question, these problems cannot be addressed by simple language, we will service a secure remote assistance for users and help users immediate effectively solve the existing problems of our 3V0-21.23 Torrent prep, thus greatly enhance the user experience, beneficial to protect the user's learning resources and use digital tools, let users in a safe and healthy environment to study 3V0-21.23 exam question.
