Our top priority is to help you pass the Professional Scrum Master I (PSM-I) exam on the first try.

Scrum Professional Scrum Master I Sample Questions (Q334-Q339):

NEW QUESTION # 334

Which does a self-organizing Development Team choose?

- A. Sprint length.
- B. Product Backlog ordering.
- C. How to best accomplish its work.
- D. When to release, based on its progress.
- E. Stakeholders for the Sprint Review.

Answer: C

Explanation:

According to the Scrum Guide, a self-organizing Development Team chooses how to best accomplish its work, rather than being directed by others outside the team. The other options are not choices that a self-organizing Development Team makes, as they are either determined by the Scrum framework (such as Sprint length and Product Backlog ordering) or by collaboration with other roles (such as stakeholders for the Sprint Review and when to release).

NEW QUESTION # 335

Which are appropriate topics for discussion in a Sprint Retrospective? (Choose the best three answers.)

- A. Definition of Done.
- B. Arranging the Sprint Backlog for the next Sprint.
- C. How the Scrum Team does its work.
- D. The value of work currently represented in the Product Backlog.
- E. Team relations

Answer: C,D,E

NEW QUESTION # 336

Which of the following might the Scrum Team discuss during a Sprint Retrospective?

- A. All of the above.
- B. The way the Scrum Team does Sprint Planning.
- C. Skills needed to improve the Development Team's ability to deliver.
- D. Its Definition of "Done".
- E. Methods of communication.

Answer: A

NEW QUESTION # 337

When many Scrum Teams are working on a single product, what best describes the Definition of Done?
(Choose the best answer.)

- A. Each Scrum Team defines and uses its own. The differences are discussed and reconciled during a hardening Sprint.
- **B. All Scrum Teams must have a Definition of Done that makes their combined work potentially releasable.**
- C. Each Scrum Team uses its own, but must make their definition clear to all other teams so the differences are known.
- D. The Scrum Masters from each Scrum Team define a common Definition of Done.

Answer: B

Explanation:

According to the Scrum Guide, when many Scrum Teams are working on a single product, they must have a Definition of Done that makes their combined work potentially releasable. This ensures that there is a clear and consistent understanding of what "Done" means for the product and that there is no technical debt or unfinished work at the end of each Sprint. The other options are not valid descriptions of the Definition of Done for multiple Scrum Teams, as they either create inconsistency, confusion, or waste (such as having different definitions, discussing and reconciling differences during a hardening Sprint, or having the Scrum Masters define a common Definition of Done).

NEW QUESTION # 338

What is the role of management in Scrum? (Choose the best answer.)

- A. To identify and remove people that aren't working hard enough.
- **B. To present the Scrum Teams with insights and resources that help them improve.**
- C. To monitor the Development Team's productivity.
- D. To continually monitor staffing levels of the Scrum Team.

Answer: B

NEW QUESTION # 339

.....

For candidates who are going to prepare for the exam, they may need the training materials. The quality may be their first concern.
