Of course, it is necessary to qualify for a qualifying I27001F exam, but more importantly, you will have more opportunities to get promoted in the workplace.

CertiProf Certified ISO/IEC 27001:2022 Foundation Sample Questions (Q20-Q25):

NEW QUESTION # 20

What does ISO/IEC 27001:2022 require in order for top management to demonstrate leadership and commitment with respect to the Information Security Management System?

- A. Nothing is required
- B. Hiring a consultancy to determine the best way to do it
- C. Appointing a volunteer to be responsible for the Information Security Management System
- **D. Ensuring that the information security policy and information security objectives are established and are compatible with the strategic direction of the organization**

Answer: D

NEW QUESTION # 21

What relevant factor must be considered in internal audit programmes?

- A. Ensuring that audits are carried out at least twice during the first year of ISMS implementation
- **B. The importance of the processes concerned and the results of previous audits**
- C. Availability of the certification body auditors
- D. The number of third-party suppliers involved in the area to be audited

Answer: B

Explanation:

ISO/IEC 27001:2022 requires the organization to plan, establish, implement, and maintain an audit programme that takes into consideration the importance of the processes concerned and the results of previous audits. This ensures that audit effort is focused appropriately and that past issues are followed up effectively.

The standard does not prescribe a minimum of two audits in the first year, nor does it make certification body availability or supplier count the defining factors. Therefore, option C is correct.

NEW QUESTION # 22

What details must be included in a Statement of Applicability?

- **A. The necessary controls with justification for inclusion and exclusion**
- B. A list of the risks applicable to the organization
- C. Evidence of top management authorization of the controls
- D. The information security policy

Answer: A

Explanation:

The Statement of Applicability is a documented result of the risk treatment process. It must include the necessary controls and justification for their inclusion, whether the controls are implemented, and justification for excluding controls from Annex A when they are not applicable. It does not need to be a list of risks, proof of management authorization, or the policy itself. Therefore, option C is correct.

NEW QUESTION # 23

Which of the following options should be included in the ISMS policy?

- A. The results of previous audits
- B. The name of the intrusion detection system
- C. The company history and the motivation for implementing the ISMS
- **D. The information security objectives**

Answer: D

Explanation:

Under ISO/IEC 27001:2022, the information security policy must be appropriate to the purpose of the organization, include information security objectives or provide the framework for setting them, and include a commitment to satisfy applicable requirements and to continual improvement of the ISMS. The standard does not require technical product names, company history, or prior audit results to appear in the policy. Therefore, option C is the best and correct answer.

NEW QUESTION # 24

Annex A of ISO/IEC 27001:2022 consists of:

- **A. A comprehensive list of controls grouped by themes**
- B. Elements necessary for a good design and implementation of the ISMS
- C. None of the above
- D. Guidelines for risk management

Answer: A

Explanation:

Annex A of ISO/IEC 27001:2022 contains the reference set of information security controls used to support risk treatment decisions. In the 2022 edition, these controls are organized into four themes: organizational, people, physical, and technological controls. Annex A is not a set of ISMS implementation steps and it is not a risk management guideline. Its role is to provide a structured set of control objectives and controls that may be selected as part of risk treatment. Therefore, option B is the correct answer.

NEW QUESTION # 25

.....

Obtaining a I27001F certificate can prove your ability so that you can enhance your market value. However, it is well known that obtaining such a I27001F certificate is very difficult for most people, especially for those who always think that their time is not enough to learn efficiently. However, our I27001F test prep take full account of your problems and provide you with reliable services and help you learn and improve your ability and solve your problems effectively. Once you choose our I27001F Quiz guide, you have chosen the path to success. We are confident and able to help you realize your dream. A higher social status and higher wages will not be illusory.
