NEW QUESTION # 88

Which of the following password policies is considered a best practice?

- A. Storing passwords in plain text format
- B. Requiring passwords to be changed every 5 years
- C. Enforcing a minimum password length and complexity requirements
- D. Allowing users to set easily guessable passwords

Answer: C

Explanation:

Enforcing a minimum password length and complexity requirements is considered a best practice for password policies. This helps to ensure that passwords are not easily guessable and increases the security of user accounts.

NEW QUESTION # 89

What is meant by the term "collective intelligence" in the context of cybersecurity?

- A. Intelligence collected through collaboration and information sharing among individuals or organizations.
- B. Intelligence gathered by individuals or organizations without sharing it with others.
- C. Intelligence gathered from publicly available sources.
- D. Intelligence collected through automated threat intelligence platforms.

Answer: A

Explanation:

Collective intelligence refers to the practice of pooling knowledge, insights, and resources from multiple individuals or organizations to enhance cybersecurity. It involves collaboration, information sharing, and coordinated efforts to identify and mitigate threats collectively. By leveraging the collective intelligence, cybersecurity practitioners can gain a broader view of the threat landscape, share threat intelligence, and develop effective strategies to combat cyber threats.

NEW QUESTION # 90

Which of the following must be documented throughout the chain of custody process?

- A. Timeline of events that led to the acquisition of the evidence.
- B. Names of all individuals who handled the evidence.
- C. Analysis methods used on the evidence.
- D. Encryption protocols applied to protect the evidence.

Answer: B

Explanation:

The chain of custody refers to a documented record of all individuals who have had access to the digital evidence from the time of its discovery until its presentation in court. It is essential to know who has handled the evidence to establish accountability and to ensure that the integrity of the evidence is maintained. The names of all individuals involved in handling the evidence should be recorded, along with their respective roles and timestamps to establish a clear chain of custody.
