

# Quiz CWDP-305 - Authoritative Certified Wireless Design Professional Reliable Braindumps Files

DOWNLOAD the newest Braindumpsqa CWDP-305 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=1iuRShFsZNSoLJ0Y2CSIBT3G\\_tFTE3KbZ](https://drive.google.com/open?id=1iuRShFsZNSoLJ0Y2CSIBT3G_tFTE3KbZ)

Constantly updated multiple mock exams with a great number of questions that will help you in better self-assessment. Memorize all your previous Certified Wireless Design Professional (CWDP-305) exam questions attempts and display all the changes in your results at the end of each CWNP CWDP-305 Practice Exam attempt. Users will be able to customize the CWDP-305 practice test software by time or question types. Supported on all Windows-based PCs.

The Braindumpsqa is a leading platform that is committed to offering make the CWNP Exam Questions preparation simple, smart, and successful. To achieve this objective Braindumpsqa has got the services of experienced and qualified Certified Wireless Design Professional (CWDP-305) exam trainers. They work together and put all their efforts and ensure the top standard of Braindumpsqa Certified Wireless Design Professional (CWDP-305) exam dumps all the time.

## 2026 Realistic CWDP-305 Reliable Braindumps Files - Braindump Certified Wireless Design Professional Free Pass Guaranteed

You can write down your doubts or any other question of our Certified Wireless Design Professional test questions. We warmly welcome all your questions. Our online workers are responsible for solving all your problems with twenty four hours service. You still can enjoy our considerate service after you have purchased our CWDP-305 test guide. If you don't know how to install the study materials, our professional experts can offer you remote installation guidance. Also, we will offer you help in the process of using our CWDP-305 Exam Questions. Also, if you have better suggestions to utilize our study materials, we will be glad to take it seriously. All of our assistance is free of charge. We are happy that our small assistance can change you a lot. You don't need to feel burdened. Remember to contact us!

### **CWNP CWDP-305 Exam Syllabus Topics:**

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Validate and Optimize the WLAN: This section of the exam measures the skills of a WLAN Optimization Specialist and assesses the ability to test, validate, and fine-tune wireless networks post-deployment. Key tasks include RF validation surveys, performance testing, troubleshooting connectivity and security issues, and applying appropriate physical or RF adjustments. It also involves client testing and final project handover, including documentation, knowledge transfer, and meetings to ensure long-term WLAN success.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Design the WLAN: This section of the exam measures the skills of a WLAN Design Engineer and covers the process of selecting configurations, architecture types, and wireless components to meet business and technical requirements. It includes using design software, selecting access points and antennas, and applying methodologies such as predictive or measured design. Candidates must demonstrate the ability to produce effective documentation and configure features like QoS, roaming security, and network services for different types of client devices and applications.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Deploy the WLAN: This section of the exam measures the skills of a WLAN Implementation Specialist and involves overseeing the deployment phase of wireless networks. It focuses on understanding deployment procedures for various WLAN architectures, configuring supporting infrastructure, and verifying proper installation. The section also addresses physical installation checks, documentation handover, and quality assurance practices during ongoing installations.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Define Specifications for the WLAN: This section of the exam measures the skills of a Wireless Network Planner and focuses on gathering business and technical requirements needed for designing wireless LANs. It includes understanding user needs, regulatory and safety constraints, and environmental factors. Candidates are expected to identify critical elements such as coverage, capacity, security, and device compatibility, and to analyse existing infrastructure and documentation to ensure a successful design strategy.</li> </ul>

## CWNP Certified Wireless Design Professional Sample Questions (Q244-Q249):

### NEW QUESTION # 244

What is the minimum PoE budget needed on a switch to support 6 (six) APs that can only be powered using IEEE 802.3at if no other details are provided?

Response:

- A. 320 W
- B. 180 W**
- C. 60 W
- D. 240 W

**Answer: B**

### NEW QUESTION # 245

What statement is true of a WLAN design that supports Real-Time Location Services (RTLS) with 802.11 RFID asset tags?

- A. With passive tags, AP transmit gain should be increased to supply extra power for near-field coupling or backscatter modulation from the tag to the AP since the passive tag lacks an internal power source.
- B. When passive tags are implemented, the AP density should be increased by 25% to make up for the shorter transmit range of passive tags as compared to active tags.
- C. Active RFID tags periodically transmit 802.11 beacon management frames that must be synchronized with the AP for proper location of the tagged asset.
- D. Passive tags do not communicate directly with the WLAN infrastructure, but instead they rely on the tag reader to communicate tag information to the**

**Answer: D**

#### NEW QUESTION # 246

Given: As the wireless network administrator for XYZ Company, you are planning to upgrade your aging wireless network infrastructure, as well as some clients, to support 802.11ac.

In your research, you have discovered that your new wireless client devices and infrastructure are 802.11ac, WMM, and WMM-PS certified by the Wi-Fi Alliance. Some of your existing client devices are 802.11a/b/g devices that do not support WMM.

Given this information, what scenario is possible when your company's employees begin using both types of client devices on the new WLAN?

Response:

- A. WMM-PS enabled APs will allow both WMM-PS and non-WMM-PS stations to use the trigger-and-delivery mechanism, but WMM-PS stations will get priority.
- B. All WMM-PS certified client devices will be prevented from utilizing WMM-PS features until all stations in use on the wireless medium are WMM-PS certified.
- C. The WLAN infrastructure will set the dozing times of the WMM-PS certified client devices based upon their WMM access category, while the non-WMM-PS client devices will continue to use PSSpoll frames.
- D. Performance and battery life will be inconsistent between WMM-PS and non-WMM-PS client devices when used with applications that support WMM-PS.

Answer: D

#### NEW QUESTION # 247

When designing for a PTP outdoor link, what important consideration should be made about local vegetation?(Choose all that apply.) Response:

- A. Leaves
- B. Water density
- C. Reflection factor
- D. Tree height growth

Answer: A,D

#### NEW QUESTION # 248

When selecting a centralized WLAN architecture, what new problem may arise when you change the data forwarding model from centralized to distributed?

- A. The router between the APs and the controller must be made aware of the APs as forwarding client STAs.
- B. APs that were designed for a centralized forwarding model may not support all features in distributed forwarding mode.
- C. Centralized control functions, such as key management and distribution, RRM, and load balancing will no longer be supported.
- D. All RRM controls will also need to be distributed to a master AP that acts as a channel and transmit power arbiter for other APs in the ESS.

Answer: B

#### NEW QUESTION # 249

.....

Getting tired of humdrum life, you may want to get some successful feeling or try something different instead. We all know that is of important to pass the CWDP-305 exam and get the CWDP-305 certification for someone who wants to find a good job in internet area, and it is not a simple thing to prepare for exam. So you are in the right place now. The CWDP-305 practice materials are a great beginning to prepare your exam. Actually, just think of our CWDP-305 practice materials as the best way to pass the exam is myopic. They can not only achieve this, but ingeniously help you remember more content at the same time.
