

Excellent Nutanix Premium NCP-EUC Files Are Leading Materials & High-quality NCP-EUC: Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam

DOWNLOAD the newest PrepAwayETE NCP-EUC PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1VkFwGh83Za8j7twSjLg9lIn9J2Vv3DU2>

Our NCP-EUC study guide is convenient for the clients to learn and they save a lot of time and energy for the clients. After the clients pay successfully for the NCP-EUC exam preparation materials they can immediately receive our products in the form of mails in 5-10 minutes and then click on the links to use our software to learn. The clients only need 20-30 hours to learn and then they can attend the NCP-EUC test. For those in-service office staff and the students who have to focus on their learning this is a good new because they have to commit themselves to the jobs and the learning and don't have enough time to prepare for the NCP-EUC test

As we all know, looking at things on a computer for a long time can make your eyes wear out and even lead to the decline of vision. We are always thinking about the purpose for our customers. To help customers solve problems, we support printing of our NCP-EUC exam torrent. We will provide you with three different versions. The PDF version allows you to download our NCP-EUC quiz prep. After you download the PDF version of our learning material, you can print it out. In this way, even if you do not have a computer, you can learn our NCP-EUC Quiz prep. We believe that it will be more convenient for you to take notes. Our website is a very safe and regular platform. You can download our NCP-EUC exam guide with assurance. You can take full advantage of the fragmented time to learn, and eventually pass the authorization of NCP-EUC exam.

NCP-EUC Reliable Exam Blueprint | Reliable NCP-EUC Exam Question

This will help them polish their skills and clear all their doubts. Also, you must note down your Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) practice test score every time you try the Nutanix Exam Questions. It will help you keep a record of your study and how well you are doing in them. PrepAwayETE hires the top industry experts to draft the Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) exam dumps and help the candidates to clear their Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) exam easily.

PrepAwayETE plays a vital role in their journey to get the NCP-EUC certification.

Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q124-Q129):

NEW QUESTION # 124

An administrator is deploying a new virtual desktop environment onto an existing Nutanix solution.

The virtual desktop environment will consist of these elements:

1000 instant clone call center virtual desktops (supporting 5 business units)

500 full clone developer virtual desktops (supporting 2 business units)

150 applications delivered via AppStacks (supporting 7 business units)

How many storage containers should be created to support these workloads?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

Based on the given information, the administrator is deploying 1000 instant clone virtual desktops, 500 full clone virtual desktops, and 150 applications. To support these workloads, the Nutanix solution will need multiple storage containers.

According to the Nutanix Certified Professional - End User Computing (NCP-EUC) v6 guide, for VDI workloads, it is recommended to create a separate storage container for each type of desktop (e.g. instant clone, full clone) and another container for AppStacks. It is also recommended to have at least one container for metadata and one container for replicas.

Therefore, for this scenario, a total of 3 storage containers should be created:

One container for 1000 instant clone virtual desktops

One container for 500 full clone virtual desktops

One container for 150 applications delivered via AppStacks

So the answer is C. 3.

NEW QUESTION # 125

What are the two types Of Launchpads that exist in Frame? (Choose two.)

- A. Application Launchpad
- B. Desktop Launchpad
- C. user Launchpad
- D. VDI Launchpad

Answer: A,B

Explanation:

There are two types of Launchpads that exist in Frame: Application Launchpad and Desktop Launchpad2.

An Application Launchpad is a representation of the applications that are available for streaming. Users can launch any application they have access to from this Launchpad. An example of an Application Launchpad is shown below:

A Desktop Launchpad is a representation of the desktops that are available for streaming. Users can launch any desktop they have access to from this Launchpad. An example of a Desktop Launchpad is shown below:

NEW QUESTION # 126

A company is planning to implement Citrix Virtual Apps and Desktops on Nutanix clusters running AHV.

The initial implementation will be sized for 1000 virtual desktops with Windows 11, Microsoft Office 2021 and Adobe Creative Cloud All Apps installed.

What is the correct prerequisite to implement a successful installation of the Nutanix AHV MCS Plug-in?

- A. The user running Nutanix AHV MCS installer must have administrator privileges on the Citrix Storefront.
- B. Nutanix data services IP address is reachable.

- C. The user running Nutanix AHV MCS installer must have administrator privileges on the Citrix Broker.
- D. Nutanix cluster virtual IP address is reachable.

Answer: C

Explanation:

The Nutanix AHV MCS Plug-in is a tool that enables Citrix Virtual Apps and Desktops Delivery Controllers (also called Brokers) to create and manage Citrix-provisioned VMs in a Nutanix AHV infrastructure environment. The plug-in is based on the Citrix-defined plug-in framework².

To install the Nutanix AHV MCS Plug-in, you need to meet some prerequisites, such as:

- * The Delivery Controller version must be 7.15 LTSR CU3 or later.
- * The Delivery Controller must be able to communicate with Prism Element (PE) using HTTPS port 9440.
- * The Delivery Controller must have PowerShell 5.1 or later installed.
- * The user running the installer must have administrator privileges on the Delivery Controller².

<https://portal.nutanix.com/page/documents/solutions/details?targetId=RA-2020-Citrix-Virtual-Apps-and-Desktops-AMD-MCS-Windows-10>:RA-2020-Citrix-Virtual-Apps-and-Desktops-AMD-MCS-Windows-10

NEW QUESTION # 127

A company has deployed Horizon on a Nutanix cluster running the ESXi hypervisor. They are starting the configuration for the deployment of 1000 virtual desktops running Windows 10 in a Linked Clone Desktop Pool.

The company has these requirements:

- * Reduced time for initial virtual desktop deployment
- * Fast recompose time when updating the pool with patches and new application installs
- * Provide a high level of availability to the pool

What should the company enable, that will allow this Nutanix VDI implementation to meet the stated requirements?

- A. View Storage Accelerator
- B. VM disk space reclamation
- C. View Composer API for Array Integration
- D. Separate datastores for replicas and clones

Answer: C

Explanation:

View Composer API for Array Integration (VCAI) is a feature of VMware Horizon that leverages the native cloning abilities in the storage array to offload storage operations within a VMware View environment¹². This feature allows customers to offload the creation of linked clones to the storage array³.

NEW QUESTION # 128

An administrator would like to provide seamless access to FSLogix user profiles hosted on Nutanix Files in a secondary data center for DR purposes, and has configured VDI Sync to replicate the data. No other changes have been made. After analyzing the environment, the administrator notices much higher than expected CPU and RAM utilization on both the source and target AHV Clusters, and wants to reduce overall resource usage.

What is the least disruptive method to accomplish this goal?

- A. Increase resources on FSVMs.
- B. Allow one-way synchronization only.
- C. Increase resources on CVMs.
- D. Reduce synchronization intervals.

Answer: B

Explanation:

Nutanix Files VDI Sync is a feature originally designed for active-active use cases where users might access data from either site, requiring bidirectional metadata scanning and locking. This process is resource-intensive.

For a Disaster Recovery (DR) purpose where the secondary site is passive (users only access it if the primary fails), full active-active bidirectional synchronization is unnecessary and wasteful. To reduce the high CPU and RAM utilization caused by the constant metadata comparison between sites, the administrator should configure one-way synchronization (or leverage standard Async DR

protection). This ensures data replicates to the DR site without the overhead of checking the DR site for changes to replicate back to the source.

NEW QUESTION # 129

.....

We strongly recommend the NCP-EUC exam questions compiled by our company. On one hand, our NCP-EUC test material owns the best quality. When it comes to the NCP-EUC study materials selling in the market, qualities are patchy. But our NCP-EUC test material has been recognized by multitude of customers, which possess of the top-class quality, can help you pass exam successfully. On the other hand, our NCP-EUC Latest Dumps are designed by the most experienced experts, thus it can not only teach you knowledge, but also show you the method of learning in the most brief and efficient ways.
