SAP C-S4PM-2504 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Project Management• Organizational Change Management (OCM): This section of the exam measures the skills of Project Managers and covers the key principles of managing SAP cloud implementation projects, including team coordination, stakeholder communication, and change management. It evaluates the ability to lead project activities, manage expectations, and handle resistance during digital transformation. Emphasis is placed on aligning organizational goals with implementation strategies to ensure effective user adoption and project success.

Topic 2	<ul style="list-style-type: none"> • SAP S • 4HANA Cloud Public Edition Implementation: This section of the exam measures the skills of Implementation Consultants and covers the foundational aspects of deploying SAP S • 4HANA Cloud Public Edition in a business environment. It focuses on understanding system architecture, scope definition, and the technical and functional setup required for a successful implementation. The candidate is expected to have a strong grasp of how to execute the necessary configuration and adoption tasks that align with customer-specific requirements.
Topic 3	<ul style="list-style-type: none"> • SAP Activate Methodology: This section of the exam measures skills of Business Process Architects and covers the structure and practical application of SAP Activate. It includes understanding the phases of the methodology: Discover, Prepare, Explore, Realize, Deploy, and Run, and the use of supporting tools such as SAP Roadmap Viewer and SAP Best Practices. Candidates are expected to demonstrate the ability to apply this methodology to streamline cloud implementation processes and ensure agile delivery.

If you use the PDF version you can print our C-S4PM-2504 Guide Torrent on the papers and it is convenient for you to take notes. You learn our C-S4PM-2504 test torrent at any time and place. The PC version can stimulate the real exam's environment, is stalled on the Windows operating system and runs on the Java environment. You can use it at any time to test your own exam stimulation tests scores and whether you have mastered our C-S4PM-2504 guide torrent or not.

SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q78-Q83):

NEW QUESTION # 78

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a day off, it turns out that the app doesn't show up on the user's launchpad. What can the user do?

- A. Assign a different business role that provides access.
- B. Use the search function to find the app.
- C. Create a page and assign it to the launchpad space.
- D. Assign a launchpad space to the business role.

Answer: B

Explanation:

The SAP Fiori Launchpad is the primary interface for end users in SAP S/4HANA Cloud Public Edition, providing access to applications based on assigned business roles. If an application does not appear on the user's launchpad, the issue is often related to visibility or navigation rather than role assignment, especially since the user has already been granted access to the specific application.

* Option A: Use the search function to find the app. Correct. The SAP Fiori Launchpad includes a search function that allows users to locate applications, even if they are not immediately visible on their launchpad. According to the SAP S/4HANA Cloud Public Edition User Guide (SAP Help Portal), "The search bar in the SAP Fiori Launchpad enables users to quickly find applications, tiles, or content by entering keywords, even if the application is not pinned to the user's homepage." This is a practical solution for end users to access their assigned applications without requiring administrative intervention.

* Option B: Assign a launchpad space to the business role. Incorrect. Assigning a launchpad space to a business role is an administrative task typically performed by a system administrator, not an end user.

The SAP Fiori Launchpad Configuration Guide states, "Launchpad spaces are configured by administrators to organize applications for business roles." End users lack the permissions to perform this action.

* Option C: Create a page and assign it to the launchpad space. Incorrect. Creating a page and assigning it to a launchpad space is also an administrative task. The SAP Fiori Launchpad Administration Guide notes, "Pages within launchpad spaces are created and

managed by administrators to customize the user experience." This is not something an end user can do.

* Option D: Assign a different business role that provides access. Incorrect. Assigning a different business role requires administrative privileges, as outlined in the SAP S/4HANA Cloud Security Guide:

"Business role assignments are managed by administrators through the Maintain Business Roles app." The end user cannot perform this action, and it's unnecessary since the question confirms the user already has access to the application.

Extract from Official Documentation:

* SAP Help Portal - SAP Fiori Launchpad User Guide(<https://help.sap.com>): "Users can utilize the search functionality in the SAP Fiori Launchpad to locate applications or content that may not be immediately visible on their personalized launchpad. This feature enhances user productivity by providing quick access to authorized applications."

* SAP S/4HANA Cloud Implementation Guide: "The SAP Fiori Launchpad is designed to provide intuitive navigation, with a search bar that allows users to find applications assigned to their business roles without requiring additional configuration." Additional Context:

The issue described in the question likely stems from the application tile not being pinned to the user's launchpad or being part of a less visible launchpad space. The search function is the most accessible and user-friendly solution, aligning with SAP's focus on user empowerment in the Fiori Launchpad.

:

SAP Help Portal: SAP Fiori Launchpad User Guide (<https://help.sap.com>).

SAP S/4HANA Cloud Public Edition Security Guide: Details business role management.

SAP Activate Methodology: Emphasizes user enablement and intuitive navigation in the Fiori Launchpad.

NEW QUESTION # 79
