100% Pass 2026 Oracle 1z0-1066-25: Oracle Planning and Collaboration

Cloud 2025 Implementation Professional –High-quality Test Simulator

Like the Web-based Oracle Planning and Collaboration Cloud 2025 Implementation Professional practice exam, the Desktop 1z0-1066-25 practice test software of Pass4training provides its valuable customers with 1z0-1066-25 test questions which are very similar to the actual Oracle Planning and Collaboration Cloud 2025 Implementation Professional exam questions. There is no hustle. The Oracle Planning and Collaboration Cloud 2025 Implementation Professional 1z0-1066-25 Practice Test material is updated and created after feedback from more than 90,000 professionals around the globe. A free demo of any Oracle Planning and Collaboration Cloud 2025 Implementation Professional exam dumps format will be provided by Pass4training to the one who wants to assess before purchasing.

Oracle Planning and Collaboration Cloud 2025 Implementation Professional Sample Questions (Q18-Q23):

NEW QUESTION # 18

A planner needs to adjust the schedule for a particular planned order.

- A. Open the Supplies and Demands table, select the row of the required planned order, drill to the Build Plan, and edit the firm date.
- B. Open the Supplies and Demands table, select the row of the required planned order, and edit its firm date.
- C. Open the Supplies and Demands table, select the row of the required planned order, launch View Calendar Details from the actions menu, and drag the planned order to the new date.
- D. Open the Supplies and Demands table, select the row of the required planned order, and edit its suggested due date.

Answer: A,D

NEW QUESTION # 19

Which three statements are true about a drop ship validation organization? (Choose three.)

- A. It cannot be an item organization.
- B. It is not required in order to use drop shipments.
- C. It can be a Cost Organization.
- D. It is a proxy for the organization during the collections of drop ship sales orders and drop ship history.
- E. It is the source for organization-item attributes when creating drop ship planned orders.
- F. It can be an item organization.

Answer: D,E,F

Explanation:

Use the drop ship validation organization for the following purposes:

- As the source for organization-item attributes when creating drop ship planned orders
- As a proxy for the organization for drop ship forecasts and manual demands
- As a proxy for the organization during the collections of drop ship sales orders and drop ship history

Specify the drop ship validation organization when you generate a forecast or create a manual demand. Drop ship sales order bookings and shipments history are collected with the drop ship validation organization when items are shipped from the warehouse. Demand forecasting can create forecasts for the drop ship validation organization and release the forecasts for planning supplies.

The drop ship validation organization can be the item master for a source system, but it is not required.

 **Note:** The drop ship validation organization must be an item organization. When you set up the drop ship validation organization, if the item master holds any transactions, create a new drop ship validation organization.

NEW QUESTION # 20

Segmentation was last run many months ago and the replenishment planner is concerned about losing track of items whose policies get changed due to the upcoming resegmentation. There are also a lot of manually assigned segments that must be preserved. Which two approaches for Execute Segmentation should you use in this planner?

- A. Auto-approve segmentation changes should not be selected.
- **B. Save the last segmentation result should be selected.**
- C. No other setting is needed.
- **D. Retain segment overrides should be selected.**

Answer: B,D

Explanation:

Selecting "Save the last segmentation result" archives the current state, preserving historical data for tracking, while "Retain segment overrides" ensures that manually assigned segments are maintained, even after resegmentation. These options help mitigate disruption to existing manual segmentations during updates

NEW QUESTION # 21

Which statement is true about the Production Scheduling Gantt chart?

- A. Metrics displayed above the Gantt chart include Late Demands, Late Work Order, Early Work Orders, and Changeover Time.
- B. You can view a Gantt chart or the Dispatch List, but not both at the same time.
- **C. The Gantt chart identifies idle time, changeovers, and downtime.**
- D. The Gantt chart is read only, but you can change colors, sizing, and perform filtering.

Answer: C

NEW QUESTION # 22

Which option outlines changes you can make a simulation plan when evaluating demand and supply?

- **A. Add demands, cancel demands, reschedule demands, and supply, cancel supply, reschedule supplies**
- B. Add demands, cancel demands, reschedule demands, add new planned orders, reschedule supplies
- C. Change item specification values, change item lead times, create mass changes for items all at once, change item-organization specification values
- D. Change item specification values, change item lead times, create mass changes for items
- E. Change item specification values, change item lead times, change item-organization specification values

Answer: A

NEW QUESTION # 23

.....
