New Release Fortinet FCSS_NST_SE-7.4 Dumps For Brilliant Exam Study 2026

The secret of success is constancy to purpose. If your purpose is passing exams and getting a certification. FCSS_NST_SE-7.4 exam cram PDF will be the right shortcut for your exam. You shouldn't miss any possible chance or method to achieve your goal,

especially our FCSS_NST_SE-7.4 Exam Cram Pdf always has 100% passing rate. Mostly choice is greater than effort. Well-pointed preparation for your test will help you save a lot of time. Fortinet FCSS_NST_SE-7.4 exam cram PDF will be great helper for your coming exam definitely.

Fortinet FCSS - Network Security 7.4 Support Engineer Sample Questions (Q77-Q82):

NEW QUESTION # 77

In which two slates is a given session categorized as ephemeral? (Choose two.)

- A. A TCP session waiting for FIN ACK
- B. A UDP session with only one packet received
- C. A UOP session with packets sent and received
- D. A TCP session waiting for the SYN ACK

Answer: B,D

NEW QUESTION # 78

Refer to the exhibit, which shows the port1 interface configuration on FortiGate and partial session information for ICMP traffic.

```
config system interface
  edit "port1"
    set preserve-session-route enable
  next
end

# diagnose sys session list
session info: proto=1 proto_state=00 duration=4 expire=55 timeout=0 refresh_dir=both flags=00000000 socktype=0 sockport=0 av_idx=0 use=3
state=log may_dirty npu f00 route_preserve
origin->sink: org pre->post, reply pre->post dev=7->19/19->7 gw=100.64.1.1/10.0.1.101

# diagnose netlink interface list | grep index=19
if=port1 family=00 type=768 index=19 mtu=1420 link=0 master=0
```

What happens to the session information if a routing change occurs that affects this session?

- A. Sessions involving port7 or port19 will not have their routing information flushed.
- B. The session information will not change unless the current route has been removed from the routing table.
- C. The session will be flagged as dirty but no route lookups will be performed.
- D. Only the interface and gateway information for dev=7 will be removed.

Answer: B

Explanation:

With preserve-session-route enabled, FortiGate pins the session's egress interface and gateway to the original values and does not re-evaluate its routing when you tweak or add alternate routes. Only if the specific route it's using is completely removed from the routing table will the session be flushed or relooked up.

NEW QUESTION # 79

Refer to the exhibit, which shows a partial output of the real-time LDAP debug.

```
# fnbamd_fsm.c[1274] handle_req-Rcvd auth req 6750221 for jsmith in Lab opt=27 prot=0
fnbamd_ldap.c[637] resolve_ldap_FQDN-Resolved address 10.10.181.10, result 10.10.181.10
fnbamd_ldap.c[232] start_search_dn-base:'DC=fortinet,DC=com' filter:sAMAccountName=jsmith
fnbamd_ldap.c[1351] fnbamd_ldap_get_result-Going to SEARCH state
fnbamd_fsm.c[1833] poll_ldap_servers-Continue pending for req 6750221
fnbamd_ldap.c[275] get_all_dn-Found no DN
fnbamd_ldap.c[298] start_next_dn bind-No more DN left
fnbamd_ldap.c[1603] fnbamd_ldap_get_result-Auth denied
fnbamd_auth.c[2074] fnbamd_auth_poll_ldap-Result for ldap svr 10.10.181.10 is denied
fnbamd_comm.c[116] fnbamd_comm_send_result-Sending result 1 for req 6750221
```

What two actions can the administrator take to resolve this issue? (Choose two.)

- A. Ensure the user is providing the correct user credentials.
- B. Ensure the account is active.
- C. Ensure the user is a member of at least one AD group to ensure step 4 of the LDAP authentication process is successful.
- D. Ensure the user logs in using 'John Smith' not 'jsmith'.

Answer: B,C

Explanation:

When FortiGate's LDAP authentication can't find any matching DN it reports "get all dn - found no DN," which usually means the user either isn't in the group(s) you've told FortiGate to check or the account isn't currently active.

Ensure the user is a member of at least one AD group.

If you've configured FortiGate to restrict logins to specific groups, any user not in one of those groups will simply never be found by the LDAP search.

Ensure the account is active.

FortiGate's default search filter excludes disabled or locked accounts, so a disabled user object will likewise never show up in the DN search.

NEW QUESTION # 80

Exhibit.

```
# diagnose hardware sysinfo memory
MemTotal: 2055916 kB
MemFree: 708880 kB
Buffers: 22140 kB
Cached: 641364 kB
SwapCached: 0 kB
Active: 726352 kB
Inactive: 98908 kB
```

Refer to the exhibit, which shows a partial output of diagnose hardware sysinfo memory.

Which two statements about the output are true? (Choose two.)

- A. The I/O cache, which has 641364 kB of memory allocated to it.
- B. The user space has 708880 kB of physical memory that is not used by the system.
- C. The value indicated next to the inactive heading represents the currently unused cache page.
- D. There are 98908 kB of memory that will never be used.

Answer: C,D

NEW QUESTION # 81

Which statement best describes the full state when forming an OSPF adjacency between two peers?

- A. A primary and secondary relationship is negotiated.
- B. All LSA types have been received from the peer.
- C. The LSDBs on both routers are identical.
- D. Communication is bi-directional between the two peers.

Answer: C

NEW QUESTION # 82

.....

Fortinet FCSS_NST_SE-7.4 practice test software can be used on devices that range from mobile devices to desktop computers. We provide the Fortinet FCSS_NST_SE-7.4 exam questions in a variety of formats, including a web-based practice test, desktop practice exam software, and downloadable PDF files. BraindumpsPrep provides proprietary preparation guides for the certification exam offered by the Fortinet FCSS_NST_SE-7.4 Exam Dumps. In addition to containing numerous questions similar to the Fortinet FCSS_NST_SE-7.4 exam, the Fortinet FCSS_NST_SE-7.4 exam questions are a great way to prepare for the Fortinet FCSS_NST_SE-7.4 exam dumps.
