In recent years, the market has been plagued by the proliferation of learning products on qualifying examinations, so it is extremely difficult to find and select our AP-213 test questions in many similar products. However, we believe that with the excellent quality and good reputation of our study materials, we will be able to let users select us in many products. Our study materials allow users to use the AP-213 Certification guide for free to help users better understand our products better. Even if you find that part of it is not for you, you can still choose other types of learning materials in our study materials. We can meet all your requirements and solve all your problems by our AP-213 certification guide.

Are you worried about where to find reliable and valid AP-213 practice exam cram? Please stop hunting with aimless, Salesforce AP-213 free study dumps will help you and solve your problems. If you still have doubts, you can download AP-213 free demo to have a try. If you have any questions about AP-213 Study Tool, please contact us by email or chat with our online customer service, we will always here to answers your questions. Our AP-213 test practice will enhance your professional skills and expand your knowledge, which will ensure you a define success in our AP-213 actual test.

AP-213 Learning Materials, New Study AP-213 Questions

Our AP-213 learning guide boosts many advantages and it is your best choice to prepare for the test. Firstly, our AP-213 training prep is compiled by our first-rate expert team and linked closely with the real exam. So that if you practice with our AP-213 Exam Questions, then you will pass for sure. Secondly, our AP-213 study materials provide 3 versions and multiple functions to make the learners have no learning obstacles. They are the PDF, Software and APP online.

Salesforce Manufacturing Cloud Accredited Professional Sample Questions (Q123-Q128):

NEW QUESTION # 123

Which two methods can be used to recalculate payouts after the payout period is closed?

- A. Receive payouts with charged benefits
- B. Recalculate payouts due to changed benefits
- C. Recalculate payouts with no charge in benefits
- D. Recalculate account benefit charge
- E. Renew payouts with benefit charges

Answer: B,C

Explanation:

You can recalculate payouts for closed periods in two situations: when the member benefits change due to changed requirements, or

when the member submits transactions after the payout period is closed, or there is an error in the payout calculation. In both cases, you need to modify the payout records and run the rebate flow again to recalculate the payouts. The first method is to recalculate payouts due to changed benefits, which means that the benefit structure and terms have changed after the payout was calculated for a period.

The second method is to recalculate payouts with no change in benefits, which means that the benefit structure and terms have not changed, but the transactions or the payout calculation have changed. References: Recalculate Payouts for Closed Periods, Rebate Management

NEW QUESTION # 124

What is the purpose of defining the renewal days for sales agreement

- A. Determines the beginning of the renewal period
- B. Determines the end of the sales agreement
- C. Determines the end of the sales agreement
- D. Determines the beginning of the sales agreement

Answer: A

Explanation:

The renewal days for sales agreement is a setting that defines the number of days before the end date of a sales agreement to mark the beginning of the renewal period. Users can renew a sales agreement only when the renewal period starts. This helps to plan ahead and negotiate better terms for the next sales agreement1. References: 1: Define Renewal Period for Sales Agreements | Salesforce Help2

NEW QUESTION # 125

The admin at badger power is trying to setup a Rebate type that is valid for transactions completed in January. Which option reflects by the admin?

- A. Use the effective date on Rebate Type
- B. Set up an eligibility criteria for this rebate type with activity Date >= Jan1 and <= Jan31
- C. Set Rebate type to active on Jan1 and inactive on Jan31
- D. Setup a new rebate program with that volume rebate type and a single payout period for Jan

Answer: B

Explanation:

The admin at badger power can set up an eligibility criteria for this rebate type with activity Date >= Jan1 and <= Jan31. This option allows the admin to specify the date range for which the rebate type applies to the transactions. The other options are either not possible or not sufficient to achieve the desired result. For example, setting up a new rebate program with a single payout period for Jan does not ensure that the rebate type is valid only for transactions completed in January. Setting the rebate type to active on Jan1 and inactive on Jan31 does not prevent the rebate type from being applied to transactions that occurred before or after January. Using the effective date on rebate type does not specify the end date for the rebate type validity. References: Eligible and Applied Rebate Types on a Transactional Object, Common Rebate Types

NEW QUESTION # 126

If the team member hierarchy type is changed in account manager targets, which statement is accurate?

- A. All the existing targets have to be reapproved based on the new hierarchy
- B. All the existing targets turn to draft status
- C. No change to existing targets
- D. All the existing targets become read only

Answer: D

Explanation:

Account manager targets are long-term goals that account managers set for themselves and their team members. They can be based on revenue, volume, margin, or any other metric that is relevant for the business.

The team member hierarchy type determines the users that account managers can assign targets to. It can be either the manager

hierarchy or the forecasts hierarchy, which are defined in the Roles and Forecasts Hierarchy pages in Setup, respectively. If the team member hierarchy type is changed in account manager targets, all the existing targets are made read-only, as a warning message indicates. This is to prevent any inconsistency or confusion in the target assignments and approvals. To edit the existing targets, account managers have to clone them and make the necessary changes. References: Choose Team Member Hierarchy for Account Manager Targets, Set Up and Configure Account Manager Targets, Set Up Targets for Account Managers Unit | Salesforce Trailhead, Assign an Account Manager Target

NEW QUESTION # 127

Which three permission set are available with Manufacturing Cloud?

- A. Manufacturing Account Manager Target
- B. Manufacturing Account Forecast
- C. Manufacturing Price Book
- D. Manufacturing Sales Orders
- E. Manufacturing Sales Agreements

Answer: A,B,E

Explanation:

Manufacturing Cloud provides three permission sets related to Sales Agreements, Account Forecasting, and Account Manager Targets. These permission sets give users access to the features and data models that are specific to the manufacturing industry. The permission sets are:

Manufacturing Account Forecast: This permission set lets users track account forecasts for quantity and revenue metrics of products. Users can view and edit the Account Product Forecast and Account Product Period Forecast objects, as well as the related objects such as Account, Product, and Sales Agreement.

Manufacturing Sales Agreements: This permission set gives users access to sales agreements that work with orders, contracts, and more. Users can view and edit the Sales Agreement and Sales Agreement Line Item objects, as well as the related objects such as Account, Product, and Order.

Manufacturing Account Manager Target: This permission set gives users access to Account Manager Target features that include creating, assigning, and distributing targets. Users can view and edit the Account Manager Target and Account Manager Target Line Item objects, as well as the related objects such as Account, Product, and Sales Agreement.

Assign the Manufacturing Permission Sets to Users, Set Up Users and Permissions for Manufacturing Cloud
