最新的 PRINCE2 Certification P3O-Foundation 免費考試真題 (Q47-Q52):

問題 #47

What technique provides the benefit of checking the quality of the decision-support information being provided to the P3O?

- A. Capacity planning for resource management
- B. Business process swimlanes
- C. Management dashboards
- D. Gated reviews

答案：D

解題說明：

Gated reviews provide the benefit of checking the quality of decision-support information, according to the P3O Foundation (2013) manual. Section 7.3.2 states, "Gated reviews offer an independent assessment to verify the quality and reliability of information used for P3O decision-making, ensuring governance standards are met." This contrasts with business process swimlanes (B), which map processes, capacity planning (C), which manages resources, and management dashboards (D), which visualize data. The 2013 edition highlights gated reviews as a key assurance technique, supporting P3O's role in maintaining high-quality decision support. This process enhances strategic alignment and risk management.

問題 #48

What resource commitments should be taken into account as part of portfolio management?

- A. Programme and business as usual only
- B. Business as usual only
- **C. Programme, project, and business as usual**
- D. Programme and project only

答案: C

解題說明:

Portfolio management, as per the P3O Foundation (2013) manual, requires consideration of resource commitments across programme, project, and business as usual (BAU) activities to ensure effective resource allocation and optimization. Section 2.2.3 states, "Portfolio management involves balancing resource commitments across programmes, projects, and BAU to deliver strategic objectives." This holistic approach ensures that resources are not siloed but are managed to support the entire organizational change agenda.

Excluding any one of these elements (A, B, C) would undermine the integrated nature of portfolio management, which aims to align all change initiatives with BAU operations. The 2013 guidance emphasizes this integrated resource view to avoid conflicts and maximize value, as detailed in the portfolio support office functions. This comprehensive resource management is a cornerstone of the P3O model, ensuring strategic alignment and operational efficiency.

問題 #49

What technique enables people to share experiences by connecting people to information or to other people?

- **A. Knowledge management**
- B. Skills development and maintenance
- C. Management dashboards
- D. Complexity modelling

答案: A

解題說明:

Knowledge management is the technique that enables experience sharing by connecting people to information or others, as per the P3O Foundation (2013) manual. Section 6.3.2 states, "Knowledge management techniques facilitate the sharing of experiences by linking individuals to relevant information and fostering networks for collaboration within the PPM community." This differs from complexity modelling (A), which analyzes systems, management dashboards (C), which visualize data, and skills development (D), which focuses on training. The 2013 edition highlights knowledge management's role in enhancing organizational learning and efficiency, supporting P3O's operational effectiveness. This technique ensures best practices are shared, strengthening change initiatives.

問題 #50

Which occurs when the P3O implementation programme is closed?

- A. Vision Statement is to reflect delivery
- **B. P3O capability becomes business as usual**
- C. Blueprint is produced to document processes
- D. Risks to the implementation are captured

答案: B

解題說明:

The P3O Foundation (2013) manual states that when the P3O implementation programme closes, the P3O capability becomes business as usual. Section 4.4.5 notes, "Upon closure of the implementation programme, the P3O capability is fully integrated into business as usual, marking the end of the transition phase." This differs from updating the Vision (A), producing the Blueprint (B), or capturing risks (C), which occur earlier.

The 2013 edition emphasizes this transition to ensure operational sustainability, aligning with the P3O's long-term role. This finalizes the implementation lifecycle.

問題 #51

Which of the following statements about how a P3O should integrate with the wider organization are true?

1. Operates independently of other functions within the organization
 2. Typically relies on dedicated full-time resources to provide financial functions needed
- A. Both 1 and 2 are true
 - B. Only 2 is true
 - C. Neither 1 or 2 is true
 - D. Only 1 is true

答案：C

解題說明：

The P3O Foundation (2013) manual indicates that a P3O should not operate independently nor rely solely on dedicated full-time resources for financial functions, making both statements false. Section 5.1.2 states,

"The P3O model should integrate seamlessly with existing organizational functions, leveraging shared resources and aligning with corporate governance." Independence (1) is impractical as P3O relies on collaboration, while financial functions (2) are typically supported by existing organizational structures rather than dedicated P3O resources (Section 7.2). The 2013 edition emphasizes integration and resource sharing to enhance efficiency, contradicting both options. Thus, D is correct, ensuring the P3O complements rather than duplicates organizational capabilities, supporting a cohesive change management framework.
