**Cyber AB CMMC-CCP Exam Material - New CMMC-CCP Study Guide**

The CMMC-CCP examination certification, as other world-renowned certification, will get international recognition and acceptance. People around the world prefer CMMC-CCP exam certification to make their careers more strengthened and successful. In VCEPrep, you can choose the products which are suitable for your learning ability to learn.

## Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q132-Q137):

### NEW QUESTION # 132

What type of criteria is used to answer the question "Does the Assessment Team have the right evidence?"

- A. Adequacy criteria
- B. Objectivity criteria
- C. Sufficiency criteria
- D. Subjectivity criteria

**Answer: C**

### NEW QUESTION # 133

Companies that knowingly defraud the government by not being in compliance with cybersecurity regulations are at risk of being held liable for:

- A. Three times the contract value plus a penalty as stated in the Cyber Claims Act
- B. The contract value plus a penalty as stated in the False Claims Act
- C. Three times the contract value plus a penalty as stated in the False Claims Act
- D. The contract value plus a penalty as stated in the Cyber Claims Act

**Answer: C**

Explanation:

The False Claims Act (31 U.S.C. §§ 3729-3733) imposes liability on companies that knowingly misrepresent compliance in order to receive or retain federal contracts. Penalties include treble damages (three times the government's losses) plus additional penalties per claim.

Supporting Extracts from Official Content:

\* False Claims Act: "Any person who knowingly submits false claims to the Government is liable for three times the Government's damages plus a penalty."

\* DOJ Cyber-Fraud Initiative (2021): confirms the FCA is applied to cases of misrepresenting compliance with cybersecurity requirements.

Why Option D is Correct:

\* The applicable law is the False Claims Act, not a "Cyber Claims Act" (which does not exist).

\* The FCA specifies treble damages plus penalties, which exactly matches Option D.

References (Official CMMC v2.0 Governance and Source Documents):

\* False Claims Act (31 U.S.C. §§ 3729-3733).

\* DOJ Cyber-Fraud Initiative (2021), applied to CMMC-related compliance misrepresentation.

### NEW QUESTION # 134

Which standard of assessment do all C3PAO organizations execute an assessment methodology based on?

- A. NISTSP800-53A
- B. ISO 27001
- C. CMMC Assessment Process
- D. Government Accountability Office Yellow Book

**Answer: C**

Explanation:

Understanding the C3PAO Assessment MethodologyA Certified Third-Party Assessment Organization (C3PAO) is an entity authorized by the CMMC Accreditation Body (CMMC-AB) to conduct official CMMC Level 2 assessments for organizations seeking certification.

C3PAOs must follow the CMMC Assessment Process (CAP), which outlines the assessment methodology for evaluating

compliance. #Evidence collection procedures (interviews, artifacts, testing). #Assessment scoring and reporting requirements. #Guidance for assessors on executing standardized assessments.

ISO 27001 (Option A) is an international standard for information security management but is not the basis for CMMC assessments.

NIST SP 800-53A (Option B) provides security control assessments for federal systems, but CMMC assessments are based on NIST SP 800-171.

GAO Yellow Book (Option D) is a government auditing standard used for financial and performance audits, not cybersecurity assessments.

CMMC Assessment Process (CAP) (Option C) is the correct answer because it defines how C3PAOs conduct CMMC assessments.

CMMC Assessment Process Guide (CAP)- Governs C3PAO assessment execution.

CMMC 2.0 Model Documentation- Requires C3PAOs to follow CAP procedures for assessments.

Key Requirement: CMMC Assessment Process (CAP) Why "CMMC Assessment Process" is Correct? Official References from CMMC 2.0 Documentation Final Verification and Conclusion The correct answer is C.

CMMC Assessment Process, as it is the official methodology all C3PAOs must follow when conducting CMMC assessments.

### NEW QUESTION # 135

A Lead Assessor has been assigned to a CMMC Assessment. During the assessment, one of the assessors approaches with a signed policy. There is one signatory, and that person has since left the company. Subsequently, another person was hired into that position but has not signed the document. Is this document valid?

- A. More research on the company policy of creating, implementing, and enforcing policies is needed. If the company has a policy identifying the authority as with the position or person, then the policy is valid.
- B. The signatory does not validate or invalidate the policy. For the purpose of this assessment, ensuring that the policy is current and is being implemented by the individuals who are performing the work is sufficient.
- C. The authority to implement and enforce lies with the position, not the person. As long as that position's authority and responsibilities have not been removed from implementing that domain, it is still a valid policy.
- D. The signatory is the authority to implement and enforce the policy, and since that person is no longer with the company, the policy is not valid.

**Answer: A**

Explanation:

Understanding Policy Validation in CMMC Assessments During a CMMC assessment, policies must be evaluated based on:

- \* Who has the authority to approve and enforce them
- \* Whether they are current and implemented effectively

The validity of a policy does not solely depend on the signatory but rather on how the organization assigns authority for policy creation, approval, and enforcement.

- \* Some organizations assign authority to a specific person, meaning a new signatory may be required when leadership changes.
- \* Others assign authority to a position/title (e.g., CISO, IT Director), in which case a new signature may not be required as long as the role remains responsible for policy enforcement.
- \* The assessment team must review the organization's policy management process to determine if the policy remains valid despite leadership turnover.

Key Considerations in Policy Validation: Thus, the correct answer is B, as additional research is needed to confirm whether the organization's policy is tied to the individual or the position.

- \* A. The signatory is the authority to implement and enforce the policy, and since that person is no longer with the company, the policy is not valid. #Incorrect. This assumes that authority is always tied to a person, which is not always the case. Some organizations delegate authority to a position, not an individual.
- \* C. The signatory does not validate or invalidate the policy. For the purpose of this assessment, ensuring that the policy is current and is being implemented by the individuals who are performing the work is sufficient. #Incorrect. While implementation is crucial, the authority behind the policy must also be validated per CMMC documentation requirements.
- \* D. The authority to implement and enforce lies with the position, not the person. As long as that position's authority and responsibilities have not been removed from implementing that domain, it is still a valid policy. #Incorrect. This assumes that authority is always assigned to a position, which is not universally true. More research is required to confirm this.

Why the Other Answers Are Incorrect

- \* CMMC Assessment Process (CAP) Document- Outlines the importance of verifying the authority and enforcement of policies.
- \* NIST SP 800-171 (3.12.1 - Security Policies and Procedures)- Requires that policies be maintained and enforced by appropriate personnel.

CMMC Official References Thus, option B (More research on the company policy is needed) is the correct answer, as per official CMMC policy validation guidance.

### NEW QUESTION # 136

A CCP is providing consulting services to a company who is an OSC. The CCP is preparing the OSC for a CMMC Level 2 assessment. The company has asked the CCP who is responsible for determining the CMMC Assessment Scope and who validates its CMMC Assessment Scope. How should the CCP respond?

- A. "The CMMC Lead Assessor determines the CMMC Assessment Scope, and the OSC validates the CMMC Assessment Scope."
- B. "The CMMC C3PAO determines the CMMC Assessment Scope, and the Lead Assessor validates the CMMC Assessment Scope."
- C. "The OSC determines the CMMC Assessment Scope, and the CCP validates the CMMC Assessment Scope."
- D. "The OSC determines the CMMC Assessment Scope, and the C3PAO validates the CMMC Assessment Scope."

**Answer: D**

### NEW QUESTION # 137

.....

Our CMMC-CCP real study guide materials can help you get better and better reviews. This is a very intuitive standard, but sometimes it is not enough comprehensive, therefore, we need to know the importance of getting the test CMMC-CCP certification, qualification certificate for our future job and development is an important role. Only when we have enough qualifications to prove our ability can we defeat our opponents in the harsh reality. We believe our CMMC-CCP actual question will help you pass the CMMC-CCP qualification examination and get your qualification faster and more efficiently.
