

# 2026 FCP\_FSM\_AN-7.2-100% Free Pdf Free | Accurate Valid FCP - FortiSIEM 7.2 Analyst Exam Labs

BTW, DOWNLOAD part of TestPDF FCP\_FSM\_AN-7.2 dumps from Cloud Storage: [https://drive.google.com/open?id=1hds\\_TUVW80o6FazaiucTMfg91DvgtknD](https://drive.google.com/open?id=1hds_TUVW80o6FazaiucTMfg91DvgtknD)

If you are curious or doubtful about the proficiency of our FCP\_FSM\_AN-7.2 practice materials, we can explain the painstakingly word we did behind the light. By abstracting most useful content into the FCP\_FSM\_AN-7.2 practice materials, they have help former customers gain success easily and smoothly. The most important part is that all contents were being sifted with diligent attention. No errors or mistakes will be found within our FCP\_FSM\_AN-7.2 practice materials. We stress the primacy of customers' interests, and make all the preoccupation based on your needs.

## Fortinet FCP\_FSM\_AN-7.2 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Incidents, notifications, and remediation: This section of the exam measures the skills of Incident Responders and encompasses the entire incident management lifecycle. This includes the skills required to manage and prioritize security incidents, configure policies for alert notifications, and set up automated remediation actions to contain and resolve threats.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Machine learning, UEBA, and ZTNA: This section of the exam measures the skills of Advanced Security Architects and covers the integration of modern security technologies. It involves performing configuration tasks for machine learning models, incorporating UEBA (User and Entity Behavior Analytics) data into rules and dashboards for enhanced threat detection, and understanding how to integrate ZTNA (Zero Trust Network Access) principles into security operations.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Analytics: This section of the exam measures the skills of Security Analysts and covers the foundational techniques for building and refining queries. It focuses on creating searches from events, applying grouping and aggregation methods, and performing various lookup operations, including CMDB and nested queries to effectively analyze and correlate data.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>Rules and subpatterns: This section of the exam measures the skills of SOC Engineers and focuses on the construction and implementation of analytics rules. It involves identifying the different components that make up a rule, utilizing advanced features like subpatterns and aggregation, and practically configuring these rules within the FortiSIEM platform to detect security events.</li> </ul>

## Valid FCP\_FSM\_AN-7.2 Exam Labs | FCP\_FSM\_AN-7.2 Exam Sample

The passing rate of our FCP\_FSM\_AN-7.2 study materials is the issue the client mostly care about and we can promise to the client that the passing rate of our product is 99% and the hit rate is also high. Our study materials are selected strictly based on the real FCP\_FSM\_AN-7.2 exam and refer to the exam papers in the past years. Our expert team devotes a lot of efforts on them. We also update frequently to guarantee that the client can get more learning FCP\_FSM\_AN-7.2 resources and follow the trend of the times. So if you use our FCP\_FSM\_AN-7.2 study materials you will pass the FCP\_FSM\_AN-7.2 test with high success probability.

### Fortinet FCP - FortiSIEM 7.2 Analyst Sample Questions (Q26-Q31):

#### NEW QUESTION # 26

Which running mode takes the most time to perform machine learning tasks?

- A. Regression
- **B. Local**
- C. Forecasting
- D. Local auto

**Answer: B**

Explanation:

In Local mode, FortiSIEM performs machine learning tasks using the full dataset without optimization shortcuts, making it the most time-consuming mode compared to Local Auto, Forecasting, or Regression.

#### NEW QUESTION # 27

Refer to the exhibit.

The screenshot shows the 'Rule Subpattern' configuration window in FortiSIEM. The window title is 'Edit SubPattern'. The 'Name' field is set to 'DomainAcctLockout'. The configuration is divided into 'Filters' and 'Aggregate' sections. The 'Filters' section contains one rule: 'Event Type' with the operator 'IN' and the value 'EventTypes: Domain Account Lox'. The 'Aggregate' section contains one rule: 'COUNT(Matched Events)' with the operator '>=' and the value '1'. At the bottom of the window, there are four buttons: 'Run as Query', 'Save as Report', 'Save', and 'Cancel'. A large watermark 'FORTINET testpdf.com' is overlaid on the image.

Which section contains the subpattern configuration that determines how many matching events are needed to trigger the rule?

- A. Filters
- B. Group By
- C. Actions
- D. Aggregate

**Answer: D**

Explanation:

The Aggregate section contains the condition COUNT(Matched Events) >= 1, which defines how many events must match the filter criteria for the rule to trigger. This is the subpattern configuration that determines the event threshold.

### NEW QUESTION # 28

How does FortiSIEM update the incident table if a performance rule triggers repeatedly?

- A. FortiSIEM updates the Incident Count value and Last Seen timestamp.
- B. FortiSIEM generates a new incident based on the Rule Frequency value, and updates the First Seen and Last Seen timestamps.
- C. FortiSIEM changes the incident status to Repeated, and updates the Last Seen timestamp.
- D. FortiSIEM generates a new incident each time the rule triggers, and updates the First Seen and Last Seen timestamps.

**Answer: A**

Explanation:

When a performance rule triggers repeatedly, FortiSIEM updates the existing incident by incrementing the Incident Count and refreshing the Last Seen timestamp. This avoids flooding the incident table with duplicates while still tracking repeated occurrences.

### NEW QUESTION # 29

Refer to the exhibit.

The screenshot shows the 'Automation Policy' configuration interface. The 'Name' field is 'Automation'. Under 'Severity', 'Low', 'Medium', and 'High' are all checked. The 'Rules' dropdown is set to 'GROUP:Security'. 'Time Range' is 'ANY'. 'Affected Items' is 'ANY'. 'Affected Orgs' is 'Rule:Banking'. Under the 'Action' section, the following actions are checked: 'Send Email/SMS/Webhook to the target users.', 'Run Remediation/Script.', 'Invoke an Integration Policy. Run: no policy', and 'Create Case when an incident is created.'. The remaining actions are unchecked: 'Send SNMP message to the destination set in Admin > Settings > Analytics.', 'Send XML file over HTTP(S) to the destination set in Admin > Settings > Analytics.', 'Open Remedy ticket using the configuration set in Admin > Settings > Analytics.', and 'Invoke FortiAI and update Comments'.

According to the automation policy configuration shown in the exhibit, what happens if an associated rule triggers?

- A. FortiSIEM fails to the integration policy, because no policy is defined.
- B. FortiSIEM performs all selected actions.
- C. FortiSIEM sends an email, because that is first on the list.
- D. FortiSIEM runs the remediation script, because that takes precedence over all other options.

**Answer: B**

Explanation:

When an associated rule triggers, FortiSIEM performs all selected actions in the automation policy. In this case, it will send an email/SMS/webhook, run the remediation script, invoke the integration policy (even if none is currently defined), and create a case. All checked actions are executed.

### NEW QUESTION # 30

Refer to the exhibit.

Source IP	Reporting Device	Reporting IP	Event Type	User	Application Category
15.2.3.4	FW01	10.1.1.1	Logon	Mike	DB
21.3.4.5	FW02	10.1.1.2	Logon	Bob	WebApp
14.12.3.1	FW01	10.1.1.1	Logon	Alice	SSH
192.168.1.5	FW03	10.1.1.3	Logon	Alice	DB
10.1.1.1	FW01	10.1.1.1	Logon	Bob	DB
123.123.1.1	FW04	10.1.1.4	Logon	Mike	SSH

If you group the events by Reporting Device, Reporting IP, and Application Category, how many results will FortiSIEM display?

- A. Five
- B. Four
- C. Six
- D. One
- E. Two

**Answer: A**

Explanation:

Grouping by Reporting Device, Reporting IP, and Application Category yields five unique tuples: (FW01, 10.1.1.1, DB), (FW02, 10.1.1.2, WebApp), (FW01, 10.1.1.1, SSH), (FW03, 10.1.1.3, DB), and (FW04, 10.1.1.4, SSH).

### NEW QUESTION # 31

.....

To meet the needs of users, and to keep up with the trend of the examination outline, our FCP\_FSM\_AN-7.2 exam questions will provide customers with latest version of our products. Our company's experts are daily testing our FCP\_FSM\_AN-7.2 study guide for timely updates. So we solemnly promise the users, our products make every effort to provide our users with the Latest FCP\_FSM\_AN-7.2 Learning Materials. As long as the users choose to purchase our FCP\_FSM\_AN-7.2 exam preparation materials, there is no doubt that he will enjoy the advantages of the most powerful update.
