SAP인증C_THR84_2505시험에 도전해보려고 없는 시간도 짜내고 거금을 들여 학원을 선택하셨나요? 사실 IT인증 시험은 보다 간단한 공부방식으로 준비하시면 시간도 돈도 정력도 적게 들일수 있습니다. 그 방법은 바로 ExamPassdump의SAP인증C_THR84_2505시험준비덤프자료를 구매하여 공부하는 것입니다. 문항수도 적고 시험에 상문제만 톡톡 집어 정리된 덤프라 시험합격이 한결 쉬워집니다.

SAP C_THR84_2505 시험요강:

주제	소개
주제 1	• Configure Locales: This section of the exam assesses the ability of Implementation Specialists to configure multiple locales on the career site, allowing organizations to deliver multilingual experiences tailored to global audiences.
주제 2	• Implement Advanced Analytics: This section of the exam assesses the skills of SAP Consultants in setting up and utilizing advanced analytics tools that track candidate behavior, site traffic, and performance metrics for actionable insights.
주제 3	• Career Site Builder Global Settings and Global Styles: This section of the exam assesses the configuration skills of SAP Consultants related to the global settings and design styles that govern the overall look and feel of the career site, such as fonts, color schemes, and layout defaults.
주제 4	• Other Career Site Setup: This section of the exam measures skills of SAP Consultants in configuring additional site features like data capture forms, metadata tags, and search engine optimization settings to enhance site performance and engagement.
주제 5	• Career Site Design and Accessibility: This section of the exam measures the ability of Implementation Specialists to design career sites with a focus on user experience and accessibility standards, ensuring compliance and aesthetic consistency across devices.
주제 6	• Move to Production: This section of the exam evaluates the skills of SAP Consultants in finalizing configuration and deploying the completed site from the staging environment to production, ensuring readiness and quality assurance prior to go-live.
주제 7	• Career Site Builder Pages and Components: This section of the exam evaluates the knowledge of Implementation Specialists in creating and managing pages and content blocks using Career Site Builder components, supporting modular design and dynamic content presentation.

C_THR84_2505참고자료 - C_THR84_2505적중을 높은 인증덤프공부

ExamPassdump의SAP C_THR84_2505교육 자료는 고객들에게 높게 평가 되어 왔습니다. 그리고 이미 많은 분들이 구매하셨고SAP C_THR84_2505시험에서 패스하여 검증된 자료임을 확신 합니다. SAP C_THR84_2505시험을 패스하여 자격증을 취득하면IT 직종에 종사하고 계신 고객님의 성공을 위한 중요한 요소들 중의 하나가 될 것이라는 것을 잘 알고 있음으로 더욱 믿음직스러운 덤프로 거듭나기 위해 최선을 다해드리겠습니다.

최신 SAP Certified Associate C_THR84_2505 무료샘플문제 (Q53-Q58):

질문 # 53

Which of the following can you use to explore released APIs?

- A. SAP Business Accelerator Hub
- B. SAP Integration Suite
- C. SAP Application Interface Framework

정답: A

설명:

Comprehensive and Detailed In-Depth Explanation:

Exploring released APIs is essential for integration planning in SAP SuccessFactors. Let's evaluate the options:

* Option B (SAP Business Accelerator Hub): Correct. This is SAP's official platform for discovering APIs across its portfolio, including SuccessFactors.

* SAP Documentation Excerpt: From the SAP SuccessFactors Integration Strategy Guide: "The SAP Business Accelerator Hub (previously API Business Hub) is the recommended tool to explore released APIs for SAP SuccessFactors, providing detailed documentation, endpoints, and sample requests for integration purposes."

* Reasoning: At hub.sap.com, users access APIs like the Recruiting OData API (e.g., /odata/v2

/JobRequisition) with specs, schemas, and sandbox testing. It's designed for developers to review endpoints for CSB integrations.

* Practical Example: For "Best Run," a consultant visits the Hub, searches "SuccessFactors Recruiting," and reviews the OData API, downloading a sample GET

/JobRequisition?\$filter=status eq 'Open' on March 4, 2025.

* Option A (SAP Application Interface Framework): Incorrect. AIF monitors and customizes interfaces in SAP ERP, not for exploring SuccessFactors APIs.

* Option C (SAP Integration Suite): Incorrect. This toolset builds integrations, not a discovery platform for released APIs.

: SAP SuccessFactors - Integration Strategy Guide (API Exploration); SAP Business Accelerator Hub Documentation.

질문 # 54

For sites with multiple brands, what elements can you configure to differentiate them on a Career Site Builder site? Note: There are 2 correct answers to this question.

- A. Content and category pages
- B. Data capture forms and locales
- C. Cookie Consent Manager and JavaScript
- D. Colors and images

정답: B,D

설명:

Comprehensive and Detailed In-Depth Explanation:

Multi-brand CSB sites allow differentiation to reflect distinct brand identities:

* Option A (Colors and images): Correct. CSB's Global Styles and Brand Configuration let you customize colors (e.g., palette) and images (e.g., logos, banners) per brand, ensuring visual distinction.

* Option B (Data capture forms and locales): Correct. You can tailor data capture forms (e.g., fields, branding) and locales (e.g., language, region) per brand, enhancing candidate targeting and compliance.

* Option C (Content and category pages): Incorrect as a primary differentiator. While configurable, these are more about site structure than brand distinction, applying across brands unless explicitly branded.

: SAP SuccessFactors Recruiting: Candidate Experience - Career Site Builder Multi-Brand Guide.

질문 # 55

How is defaulted/system text, such as text on the search bar, translated or changed on a Career Site Builder site? Note: There are 3 correct answers to this question.

- A. System text translations can be changed from Career Site Builder > Tools > Translations.
- B. System text is translated when the locale is enabled.
- C. System text translations are exported from the Stage site and imported to Production separately from other site imports and exports.
- D. System text translations are made from Career Site Builder > Global Settings.
- E. System text translations are only possible for the site's default language.

정답: A,B,C

질문 # 56

For customers who enable the Unified Data Model, how can you define the scope of jobs that appear on category pages? Note: There are 3 correct answers to this question.

- A. Categories can be defined by selecting multiple values for the fields.
- B. Categories can be defined using objects or picklists from the job requisition template.
- C. Categories can be defined using a maximum of one filter field.
- D. Categories can be defined using Keyword or Location.
- E. Categories can be defined after mapping fields from Setup Recruiting Marketing Job Field Mapping.

정답: A,B,D

설명:

Comprehensive and Detailed In-Depth Explanation:

Category pages in CSB with UDM filter jobs based on mapped data:

* Option B (Categories can be defined using objects or picklists from the job requisition template):

Correct. Fields like department or job type (picklists/objects) can define category scope.

* SAP Documentation Excerpt: From the Unified Data Model Configuration Guide: "Category pages can leverage objects or picklists from the job requisition template, such as department or job category, to define the scope of displayed jobs."

* Option D (Categories can be defined by selecting multiple values for the fields): Correct. Multiple values (e.g., "Sales" and "Marketing" for department) can be selected to broaden category scope.

* SAP Documentation Excerpt: From the Career Site Builder Administration Guide:

"Administrators can select multiple values for mapped fields to define category pages, allowing flexible job groupings."

* Option E (Categories can be defined using Keyword or Location): Correct. Keywords (e.g., "engineer") or locations (e.g., "New York") can scope categories dynamically.

* SAP Documentation Excerpt: From the Unified Data Model Configuration Guide: "Keyword and Location fields, when mapped, can be used to define category pages for targeted job displays."

* Option A (Categories can be defined using a maximum of one filter field): Incorrect. Multiple fields can be used, not limited to one.

질문 # 57

Where is the Job Alerts Email Template configured?

- A. E-Mail Notification Templates Settings
- B. Recruiting Email Triggers
- C. Command Center
- D. Career Site Builder

정답: A

설명:

Comprehensive and Detailed In-Depth Explanation:

The Job Alerts Email Template is a candidate-facing notification sent when new jobs matching a candidate's preferences are posted.

In SAP SuccessFactors Recruiting: Candidate Experience:

* Option C (E-Mail Notification Templates Settings): This is the correct location. Job Alerts Email Templates are configured in the
