Identify two correct statements about the Maintain Project Enterprise Labor Resources process as it relates to process order values. (Choose two.)

- A. For the three conditions that have the same process order value of 10, the records are processed in ascending alphabetic order based on the condition name.
- B. For the three conditions that have the same process order value of 10, the records are processed in ascending numeric order based on the condition name.
- C. The process creates a resource by using the conditions with a process order value of 10 but does not create more than one resource for the same person even if subsequent conditions apply to the person.
- D. The process creates a resource by using the condition with a process order value of 1 but does not create more than one resource for the same person even if subsequent conditions apply to the person.

Answer: A,D

Explanation:

Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapex/define-project-resource-management-configuration.html#OAPEX1449200> Topic - FAQs for Define Project Enterprise Labor Resources What's the processing order of project enterprise labor resource maintenance conditions?

Records are processed by the Maintain Project Enterprise Labor Resources process in ascending order based on the process order value that you specify on the Create Condition page. For example, assume that an HCM person is included in a condition with a process order value of 1. If a resource doesn't already exist for that person, then the process creates a resource for the condition with the process order value of 1. The process doesn't create more than one resource for the same person even if subsequent conditions apply to the person.

If multiple conditions have the same process order value, then records are processed in ascending alphabetic order based on the condition name.
