All Salesforce-Slack-Administrator Test Questions are created based on the real test and followed by valid test answers and explanations. We guarantee you get high passing score with our Salesforce-Slack-Administrator exam prep.

Salesforce Certified Slack Administrator Sample Questions (Q31-Q36):

NEW QUESTION # 31

You're the Org Admin for a company's Slack Enterprise Grid organization. Currently, Workspace Admins can decide how guest invitations are managed within their workspace. You want to lock this policy so that guest invitations can only be approved by Org Owners and Admins.
What action should you take to make this change?
(Select the best answer)

- A. Notify users that guest invitations must be submitted at the org level in the announcements channel.
- B. Lock guest invitations from each workspace's setting page.
- C. Lock guest invitations from the org admin dashboard.
- D. Ask the Org Owner to make this change because only Org Owners can change org-level policies and settings.

Answer: C

Explanation:
According to Slack's Enterprise Grid admin settings:
"Org Admins and Org Owners can lock the guest invitation setting at the organization level from the Org Admin dashboard to prevent Workspace Admins from controlling it independently." Option A only applies to workspace-level settings (not sufficient). Option B is unnecessary because Org Admins also have permission. Option C is just communication without any enforcement.
(Reference: Slack Administration Study Guide - Managing Guest Access in Enterprise Grid)
-

NEW QUESTION # 32

You're an Org Owner on your organization's Slack Enterprise Grid instance. An employee recently quit, and there's concern that the employee exported sensitive information prior to leaving. The security team wants to know what this former employee may have accessed.
What should you do? (Select the best answer.)

- A. Access your security information and event management (SIEM) tool to view actions logged by the former employee.
- B. Use the member analytics dashboard to confirm the former employee's account activity.
- C. Revoke the encryption key with the Enterprise Key Management (EKM) feature so that the data from the former employee's account is protected.
- D. Export the former employee's access logs from the admin dashboard.

Answer: A

Explanation:
Slack recommends for Enterprise Grid:
"Use your SIEM (Security Information and Event Management) tool integrated with Slack to review detailed logs of user activity and detect any suspicious behavior." The SIEM integration provides deeper, real-time, and historical access tracking, compared to basic admin dashboards or member analytics.
(Reference: Slack Administration Study Guide - Monitoring Security Events and Activity Logs)

NEW QUESTION # 33

You're an Org Admin for a global organization operating in multiple time zones. in your org-wide #help-slack channel, members are reporting that they are receiving notifications outside of their working hours from other members operating in different time zones. In addition to recommending Do Not Disturb (DND) preferences, how can you help promote a digital HQ at your organization and ensure that members are receiving notifications only during working hours? (Select the best answer.)

- A. Enable members to view a recipient's local time within their profile before sending a message.
- B. Enable members to set reminders for themselves to send the message during shared working hours
- C. Enable members to set their profile status to Away whenever they are not online.

- D. Enable members to use the Scheduled Send feature so that messages can be sent during shared working hours,

Answer: D

NEW QUESTION # 34

You're the Grid Owner for your sales company's Slack Enterprise Grid instance. Currently, departments are spread across multiple workspaces and collaborate with their customers through Slack Connect. Your company is growing quickly, and you want have more control with external collaboration. You decide to set up an external workspace dedicated to Slack Connect channels. This workspace should include all current users, plus any future users.

What is the easiest and most efficient way to go about adding users to the new workspace?

(Select the best answer.)

- A. Sync all current and future users to the workspace using identity provider (IdP) groups.
- B. Use the workspace's admin dashboard to add all users within your organization.
- C. Make the workspace a default workspace for all current and future users.
- D. Use an org-wide default channel to introduce the new workspace and it's purpose. Ask all users who are currently using Slack Connect to join the workspace.

Answer: A

NEW QUESTION # 35

Brian, an Org Owner on Enterprise Grid, needs to ensure that all Slack data is archived and stored outside of Slack.
What does Brian need to do?

- A. Contact Slack to set message and file retention policies at the Organization level to "Keep all messages".
- B. Enable DLP and quarantine all messages and files that need to be archived.
- C. Turn on Corporate exports to retrieve private data and store it elsewhere.
- D. Use a third-party eDiscovery app to retrieve and store data in a data warehouse.

Answer: B

NEW QUESTION # 36
......
