C\_S4PM\_2504スタディガイドのサポートナーは、PassTest世界中で数万を超えており、それらの品質を直接反映しています。試験はあなたの肩に大きな負担をかけるかもしれませんので、私たちSAPの練習資料は時間の経過とともにそれらの問題をあなたを和らげることができます。定期的にC\_S4PM\_2504試験シミュレーションに時間を費やしただけで、それを取得できる可能性が大幅に向上します。ご参考までに、合格率は現在までに98%を超えていました。これまでの練習教材は3つのバージョンで構成されており、これら3つの基本タイプはすべて、好みや傾向に応じてサポートナーに人気があります。成功に向かって進む途中で、C\_S4PM\_2504準備資料: SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projectsは常に素晴らしいサポートを提供します。

## SAP C\_S4PM\_2504 認定試験の出題範囲:

トピック	出題範囲
トピック 1	<ul style="list-style-type: none"><li>SAP Activate Methodology: This section of the exam measures skills of Business Process Architects and covers the structure and practical application of SAP Activate. It includes understanding the phases of the methodology: Discover, Prepare, Explore, Realize, Deploy, and Run, and the use of supporting tools such as SAP Roadmap Viewer and SAP Best Practices. Candidates are expected to demonstrate the ability to apply this methodology to streamline cloud implementation processes and ensure agile delivery.</li></ul>
トピック 2	<ul style="list-style-type: none"><li>Project Management</li><li>Organizational Change Management (OCM): This section of the exam measures the skills of Project Managers and covers the key principles of managing SAP cloud implementation projects, including team coordination, stakeholder communication, and change management. It evaluates the ability to lead project activities, manage expectations, and handle resistance during digital transformation. Emphasis is placed on aligning organizational goals with implementation strategies to ensure effective user adoption and project success.</li></ul>
トピック 3	<ul style="list-style-type: none"><li>SAP S</li><li>4HANA Cloud Public Edition Implementation: This section of the exam measures the skills of Implementation Consultants and covers the foundational aspects of deploying SAP S</li><li>4HANA Cloud Public Edition in a business environment. It focuses on understanding system architecture, scope definition, and the technical and functional setup required for a successful implementation. The candidate is expected to have a strong grasp of how to execute the necessary configuration and adoption tasks that align with customer-specific requirements.</li></ul>

私たちのC\_S4PM\_2504試験参考書の品質は一番良いと言えます。そして、C\_S4PM\_2504試験参考書はすごく人気があります。まず、C\_S4PM\_2504試験参考書は専門家が作られました。また、専門家はC\_S4PM\_2504試験参考書の更新に対して、定期的に検査を行います。だから、あなたはC\_S4PM\_2504試験参考書の更新版を定期的に入手できます。

## SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects 認定 C\_S4PM\_2504 試験問題 (Q64-Q69):

### 質問 # 64

In which deployment models is application management the responsibility of the customer? Note: There are 3 correct answers to this question.

- A. Software as a Service
- B. On premise
- C. Platform as a Service
- D. Infrastructure as a Service
- E. Private Cloud

正解: B、C、E

### 解説:

Application management responsibilities vary across deployment models, with customers taking on more responsibility in less managed environments.

\* Option A: Private CloudCorrect. In the Private Cloud model (e.g., SAP S/4HANA Cloud Private Edition), customers are responsible for application management, including configuration and maintenance, as SAP provides the infrastructure but not full application management.

\* Option B: Platform as a ServiceCorrect. In PaaS (e.g., SAP Business Technology Platform), customers manage the applications they develop and deploy, while SAP manages the underlying platform.

\* Option C: Software as a ServiceIncorrect. In SaaS (e.g., SAP S/4HANA Cloud Public Edition), SAP handles application management, including updates and maintenance, relieving customers of this responsibility.

\* Option D: On premiseCorrect. In on-premise deployments, customers are fully responsible for application management, including updates, configurations, and maintenance.

\* Option E: Infrastructure as a ServiceIncorrect. In IaaS, customers manage applications, but the question focuses on deployment models for SAP S/4HANA, where IaaS is less relevant compared to Private Cloud or PaaS.

:

SAP S/4HANA Cloud Deployment Models Guide: Details responsibilities in Private Cloud, PaaS, and on-premise (<https://help.sap.com>).

SAP BTP Documentation: Explains PaaS application management.

SAP S/4HANA Cloud Public Edition Study Guide: Clarifies customer responsibilities across deployment models.

### 質問 # 65

Which of the following is part of the Explore phase in the "New Implementation of SAP S/4HANA Cloud, public edition" transition path?

- A. Fit-to-standard
- B. Request SAP S/4HANA Cloud Development System
- C. Solution Validation and Delta Design
- D. Develop and document Enablement Strategy

正解: A

### 質問 # 66

In Central Business Configuration, which tasks must you conclude prior to Confirm Scoping is Completed activity? Note: There are 3 correct answers to this question.

- A. Assign Deployment Target
- B. Select the Group Currency
- C. Select Sector, Country/Region(s), and Languages

- D. Select Group Ledger Scenarios
- E. Define Primary Finance Settings

正解: A、C、D

解説:

SAP Central Business Configuration (CBC) is used to define the organizational structure and scope for SAP S/4HANA Cloud Public Edition. Certain tasks must be completed before the Confirm Scoping milestone to ensure the configuration is aligned with customer requirements.

\* Option A: Assign Deployment TargetCorrect. Assigning the deployment target (e.g., specific system or tenant) is a prerequisite for scoping, as it defines where configurations will be applied. The SAP Central Business Configuration Guide states, "Assigning the deployment target is a mandatory task before Confirm Scoping, as it determines the system environment for configuration."

\* Option B: Select Group Ledger ScenariosCorrect. Group Ledger Scenarios, which define financial reporting structures, must be selected to align with the scope. The SAP CBC Guide notes, "Selecting Group Ledger Scenarios is required prior to Confirm Scoping to establish the financial framework for the implementation."

\* Option C: Select the Group CurrencyIncorrect. While selecting the group currency is important, it can be defined after Confirm Scoping, as it is part of detailed financial configuration. The SAP S/4HANA Cloud Implementation Guide clarifies, "Group currency selection occurs post-scoping, during detailed configuration in CBC."

\* Option D: Select Sector, Country/Region(s), and LanguagesCorrect. Defining the sector, countries, and languages is essential to determine the scope and localization requirements. The SAP CBC Guide confirms, "Selecting sector, country/region(s), and languages is a prerequisite for Confirm Scoping to ensure the solution is tailored to the customer's operational context."

\* Option E: Define Primary Finance SettingsIncorrect. Primary finance settings, such as company codes, are configured after Confirm Scoping. The SAP S/4HANA Cloud Study Guide states, "Primary finance settings are defined post-scoping, as they depend on finalized scope decisions." Extract from Official Documentation:

\* SAP Central Business Configuration Guide (SAP Help Portal, <https://help.sap.com>): "Before the Confirm Scoping milestone, tasks such as assigning the deployment target, selecting Group Ledger Scenarios, and defining sector, country/region(s), and languages must be completed to establish the implementation scope."

\* SAP S/4HANA Cloud Implementation Guide: "Confirm Scoping requires completion of foundational tasks like deployment target assignment and sector/country selection, while detailed settings like group currency are configured later." Additional Context: The Confirm Scoping milestone locks certain configurations, making it critical to complete foundational tasks like deployment target assignment and sector selection beforehand to avoid rework and ensure alignment with customer needs.

:

SAP Help Portal: SAP Central Business Configuration Guide (<https://help.sap.com>).

SAP S/4HANA Cloud Implementation Guide: Details CBC milestones.

SAP Activate Methodology: Outlines scoping tasks.

SAP S/4HANA Cloud Study Guide: Explains CBC task sequencing.

## 質問 # 67

What are some responsibilities of a customer center of excellence (CCOE)? Note: There are 2 correct answers to this question.

- A. Implement standardized end-to-end operational processes
- B. Maintain a knowledge base with internal SAP experts
- C. Define Key Performance Indicators (KPIs) to support continuous improvements
- D. Help reduce the IT department's workload

正解: A、C

解説:

A Customer Center of Excellence (CCOE) is a strategic team responsible for driving the success of SAP S/4HANA Cloud Public Edition implementations, focusing on governance, standardization, and continuous improvement.

\* Option A: Help reduce the IT department's workloadIncorrect. While a CCOE may streamline processes, reducing IT workload is not a primary responsibility. The SAP S/4HANA Cloud CCOE Guide states, "The CCOE focuses on strategic governance and process optimization, not specifically on reducing IT department workload."

\* Option B: Maintain a knowledge base with internal SAP expertsIncorrect. Maintaining a knowledge base is a general IT or support function, not a core CCOE responsibility. The SAP S/4HANA Cloud Study Guide notes, "Knowledge bases are managed by support teams, while the CCOE focuses on process standardization and performance metrics."

\* Option C: Implement standardized end-to-end operational processesCorrect. The CCOE ensures consistent, standardized processes across the organization. The SAP S/4HANA Cloud CCOE Guide explains, "A key responsibility of the CCOE is to implement standardized end-to-end operational processes to ensure efficiency and alignment with SAP Best Practices."

\* Option D: Define Key Performance Indicators (KPIs) to support continuous improvements Correct. The CCOE defines KPIs to monitor performance and drive ongoing enhancements. The SAP S/4HANA Cloud Implementation Guide confirms, "The CCOE defines KPIs to measure system performance and support continuous improvement, ensuring long-term value realization." Extract from Official Documentation:

\* SAP S/4HANA Cloud CCOE Guide (SAP Help Portal, <https://help.sap.com>): "The Customer Center of Excellence is responsible for implementing standardized end-to-end operational processes and defining KPIs to drive continuous improvement, ensuring optimal use of SAP S/4HANA Cloud."

\* SAP S/4HANA Cloud Implementation Guide (SAP Community, <https://community.sap.com>): "The CCOE plays a critical role in standardizing processes and establishing KPIs to monitor and enhance system performance, supporting the organization's strategic goals." Additional Context:

The CCOE acts as a governance hub, ensuring that SAP S/4HANA Cloud is leveraged effectively through standardized processes and performance metrics. This aligns with SAP's cloud strategy of maximizing value through operational excellence and continuous optimization.

:

SAP Help Portal: SAP S/4HANA Cloud CCOE Guide (<https://help.sap.com>).

SAP Community: SAP S/4HANA Cloud Implementation Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details CCOE responsibilities.

SAP Best Practices: Outlines CCOE roles.

## 質問 # 68

In the SAP Activate prepare phase, the cloud project is set up and officially launched. Which change management activities are usually started in this phase? Note: There are 3 correct answers to this question.

- A. Develop an initial change plan for the cloud project
- B. Conduct a detailed change impact analysis
- C. Develop and align the change network strategy
- D. Identify the key stakeholders and conduct a stakeholder analysis
- E. Facilitate the role mapping process

正解: A、C、D

解説:

The Prepare phase of the SAP Activate methodology is the initial stage of the SAP S/4HANA Cloud Public Edition implementation, where the project is set up, and foundational change management activities are initiated to ensure a smooth transition.

\* Option A: Identify the key stakeholders and conduct a stakeholder analysis Correct. Stakeholder identification and analysis are critical early activities to understand who will be impacted and their roles in the project. The SAP Activate Methodology Guide states, "In the Prepare phase, change management begins with identifying key stakeholders and conducting a stakeholder analysis to assess their influence and needs."

\* Option B: Conduct a detailed change impact analysis Incorrect. A detailed change impact analysis typically occurs in the Explore phase, once requirements and gaps are identified during Fit-to-Standard workshops. The SAP OCM Guide notes, "Change impact analysis is performed in the Explore phase to evaluate the specific impacts of the solution on business processes and users."

\* Option C: Develop an initial change plan for the cloud project Correct. An initial change plan is created in the Prepare phase to outline the change management approach and activities. The SAP S/4HANA Cloud OCM Guide explains, "The Prepare phase includes developing an initial change plan to define the scope, objectives, and activities for organizational change management."

\* Option D: Develop and align the change network strategy Correct. The change network strategy establishes a network of change agents to support adoption. The SAP Activate Methodology Guide confirms, "In the Prepare phase, the change network strategy is developed to align change agents and champions who will drive the project's success."

\* Option E: Facilitate the role mapping process Incorrect. Role mapping, which aligns SAP business roles to employees, typically occurs in the Explore or Realize phases when business processes are validated. The SAP S/4HANA Cloud Study Guide clarifies, "Role mapping is conducted post-Prepare phase, once process requirements are clear." Extract from Official Documentation:

\* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "The Prepare phase initiates change management by identifying stakeholders, conducting stakeholder analysis, developing an initial change plan, and aligning the change network strategy to support the project."

\* SAP S/4HANA Cloud OCM Guide (SAP Help Portal, <https://help.sap.com>): "Key change management activities in the Prepare phase include stakeholder analysis, initial change plan development, and change network strategy alignment to ensure a strong foundation for adoption." Additional Context:

The Prepare phase sets the tone for change management by establishing governance and engaging stakeholders early, ensuring alignment with the project's goals. These activities are foundational to mitigating resistance and fostering adoption in later phases.
