Hot Cisco 350-701 Test Preparation & Trustable ExamDumpsVCE - Leading Offer in Qualification Exams

Our 350-701 training materials are professional practice material under warranty. Accompanied with acceptable prices for your reference, all our 350-701 exam quiz with three versions are compiled by professional experts in this area more than ten years long. Moreover, there are a series of benefits for you. If you place your order right now, we will send you the free renewals lasting for one year. All those supplements are also valuable for your 350-701 practice materials.

Cisco Implementing and Operating Cisco Security Core Technologies Sample Questions (Q471-Q476):

NEW QUESTION # 471

Which endpoint solution protects a user from a phishing attack?

- A. Cisco AnyConnect with Network Access Manager module
- B. Cisco AnyConnect with Umbrella Roaming Security module
- C. Cisco AnyConnect with ISE Posture module
- D. Cisco Identity Services Engine

Answer: B

NEW QUESTION # 472

Which process is used to obtain a certificate from a CA?

- A. Approval
- **B. Enrollment**
- C. Signing
- D. Registration

Answer: B

NEW QUESTION # 473

Which method is used to deploy certificates and configure the supplicant on mobile devices to gain access to network resources?

- **A. BYOD on boarding**
- B. MAC authentication bypass
- C. Simple Certificate Enrollment Protocol
- D. Client provisioning

Answer: A

Explanation:

Explanation:

When supporting personal devices on a corporate network, you must protect network services and enterprise data by authenticating and authorizing users (employees, contractors, and guests) and their devices. Cisco ISE provides the tools you need to allow employees to securely use personal devices on a corporate network.

Guests can add their personal devices to the network by running the native supplicant provisioning (Network Setup Assistant), or by adding their devices to the My Devices portal.

Because native supplicant profiles are not available for all devices, users can use the My Devices portal to add these devices manually; or you can configure Bring Your Own Device (BYOD) rules to register these devices.

Reference: https://www.cisco.com/c/en/us/td/docs/security/ise/2-4/admin_guide/b_ISE_admin_guide_24/m_ise_devices_byod.html

NEW QUESTION # 474

Client workstations are experiencing extremely poor response time. An engineer suspects that an attacker is eavesdropping and making independent connections while relaying messages between victims to make them think they are talking to each other over a private connection. Which feature must be enabled and configured to provide relief from this type of attack?

- A. Reverse ARP
- B. private VLANs
- **C. Dynamic ARP Inspection**
- D. Link Aggregation

Answer: C

NEW QUESTION # 475

A network administrator needs to find out what assets currently exist on the network. Third-party systems need to be able to feed host data into Cisco Firepower. What must be configured to accomplish this?

- **A. a Network Discovery policy to receive data from the host**
- B. a Network Analysis policy to receive NetFlow data from the host
- C. a File Analysis policy to send file data into Cisco Firepower
- D. a Threat Intelligence policy to download the data from the host

Answer: A

Explanation:

Explanation You can configure discovery rules to tailor the discovery of host and application data to your needs. The Firepower System can use data from NetFlow exporters to generate connection and discovery events, and to add host and application data to the network map. A network analysis policy governs how traffic is decoded and preprocessed so it can be further evaluated, especially for anomalous traffic that might signal an intrusion attempt -> Answer D is not correct.

NEW QUESTION # 476

.....

Just like the old saying goes: "Practice is the only standard to testify truth", which means learning of theory ultimately serves practical application, in the same way, it is a matter of common sense that pass rate of a kind of 350-701 exam torrent is the only standard to testify whether it is effective and useful. I believe that you already have a general idea about the advantages of our Implementing and Operating Cisco Security Core Technologies exam question, but now I would like to show you the greatest strength of our 350-701 Guide Torrent --the highest pass rate. According to the statistics, the pass rate among our customers who prepared the exam under the guidance of our 350-701 guide torrent has reached as high as 98% to 100% with only practicing our 350-701 exam torrent for 20 to 30 hours.
