If you don't purchase any course, although you spend a lot of time and effort to review of knowledge to prepare for VMware Certification 2V0-32.24 Exam, it is still risky for you to pass the exam. But selecting ExamPrepAway's products allows you to spend a small amount of money and time and safely pass the exam. I believe that ExamPrepAway is more suitable for your choice in the society where time is so valuable. Moreover, our ExamPrepAway a distinct website which can give you a guarantee among many similar sites. Choosing ExamPrepAway is equivalent to choose success.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 2	<ul style="list-style-type: none">Installing, Configuring, and Setting Up: This section of the exam measures skills of Implementation Specialists and covers the end-to-end setup process for vRealize Suite Lifecycle Manager, vRealize Operations, and Log Insight. It includes prerequisites, installation steps (manual and automated), identity and access configuration, environment settings, data sources, content packs, and system integrations to enable a functional cloud management platform.

Topic 3	<ul style="list-style-type: none"> • Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 4	<ul style="list-style-type: none"> • Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 5	<ul style="list-style-type: none"> • Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.

2V0-32.24 Valid Exam Pass4sure & 2V0-32.24 Exam Prep

Our 2V0-32.24 training materials impressed all our customers by the help as well as our after-sales services. We offer the most considerate after-sales services for you 24/7 with the help of patient staff and employees. They are all patient and enthusiastic to offer help on 2V0-32.24 Study Guide. If you have some questions about our 2V0-32.24 exam braindumps, ask for our after-sales agent, they will solve the problems for you as soon as possible.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q42-Q47):

NEW QUESTION # 42

Which three factors determine the size of vRealize Operations deployment? (Choose three.)

- A. Number of Remote Collectors
- B. Number of Metrics
- C. Number of Agents
- D. Size of monitored vCenter Servers
- E. Size of attached Cloud Proxies
- F. Number of Objects

Answer: B,C,F

Explanation:

Number of Objects

vRealize Operations sizing is fundamentally driven by how many infrastructure and application objects (VMs, hosts, datastores, etc.) are being monitored - each additional object consumes CPU, memory, and storage resources on the cluster.

Number of Agents

When using Application Remote Collectors, the total count of agents (for OS and application#level metrics) per node directly affects capacity planning, as each agent connection incurs processing and storage overhead.

Number of Metrics

The volume of distinct metrics collected (across all adapters and agents) determines database size and I/O load; sizing guidelines specify maximum collected#metric counts per node to ensure performance.

NEW QUESTION # 43

An administrator has been tasked with implementing a solution to meet the following requirements:

Provide monitoring and predictive analytics across enterprise database solutions Provide monitoring and predictive analytics across enterprise networking solutions Provide performance data for common enterprise application solutions Provide performance data for VMware Tanzu Application Service Present all collected data to administrators within a single portal Provide vendor support for the deployed solution Which solution could help the administrator complete this task?

- A. vRealize Operations and vRealize True Visibility Suite
- B. vRealize Operations using the Endpoint Operations Agent
- C. vRealize Operations using a community created management pack
- D. vRealize Log Insight and vRealize Suite Lifecycle Manager

Answer: A

Explanation:

vRealize Operations, combined with the vRealize True Visibility Suite, provides comprehensive monitoring and predictive analytics across various enterprise solutions such as databases, networking, applications, and VMware Tanzu Application Service. The True Visibility Suite includes a wide range of management packs for different technologies, which allows the collection and visualization of performance data for these enterprise solutions in a single portal. Additionally, the suite offers vendor support, ensuring reliable integration and support for the deployed solution.

NEW QUESTION # 44

What three types of authentication sources are valid in vRealize Operations? (Choose three.)

- A. RADIUS
- B. LocalOS
- C. Active Directory
- D. QAuth2
- E. OpenLDAP
- F. VMware Identity Manager

Answer: C,E,F

Explanation:

In vRealize Operations, the following authentication sources are valid:

Active Directory: vRealize Operations can integrate with Active Directory for user authentication.

OpenLDAP: vRealize Operations supports integration with OpenLDAP as an authentication source.

VMware Identity Manager: vRealize Operations can also integrate with VMware Identity Manager to manage user authentication and access.

NEW QUESTION # 45

Which three types of Virtual Machine (VM) action can be scheduled in a vRealize Operations Automation Central job? (Choose three.)

- A. Move VMs
- B. Delete unused snapshots for VMs
- C. Reboot VMs

- D. Delete powered off VMs
- E. Power On VMs
- F. Downsize oversized VMs

Answer: C,E,F

Explanation:

Power On VMs: You can schedule the action to power on specific VMs at a specified time.

Reboot VMs: Scheduling a reboot for VMs can be done to automate maintenance or restart processes.

Downsize oversized VMs: This action allows you to resize VMs based on performance data, ensuring resources are allocated optimally.

NEW QUESTION # 46

An administrator has added Microsoft Azure as a data source in vRealize Operations.

Which is the minimal time interval that is supported for data collection?

- A. 10 minutes
- B. 30 minutes
- C. 1 minute
- D. 5 minutes

Answer: B

Explanation:

When Microsoft Azure is added as a data source in vRealize Operations, the minimal supported time interval for data collection is 30 minutes. This is the smallest interval at which data can be retrieved from Azure, ensuring that performance and resource utilization data is gathered at regular intervals for monitoring and analysis.

NEW QUESTION # 47

.....

If you are still worried about your exam, our exam dumps may be your good choice. Our VMware 2V0-32.24 training dumps cover many real test materials so that if you master our dumps questions and answers you can clear exams successfully. Don't worry over trifles. If you purchase our VMware 2V0-32.24 training dumps you can spend your time on more significant work.
