

Cisco 300-610 Exam | 300-610 Actual Exam Dumps - Professional Offer of Latest 300-610 Exam Pattern

What's more, part of that ExamsLabs 300-610 dumps now are free: <https://drive.google.com/open?id=1kdID1ig3NWnysrj99yt8xSLsRaRc7Ceo>

The software is designed for use on a Windows computer. This software helps hopefuls improve their performance on subsequent attempts by recording and analyzing Designing Cisco Data Center Infrastructure (300-610) exam results. Like the actual Cisco 300-610 certification exam, Designing Cisco Data Center Infrastructure (300-610) practice exam software has a certain number of questions and allocated time to answer. Any questions or concerns can be directed to the ExamsLabs support team, who are available 24/7. However, the Designing Cisco Data Center Infrastructure (300-610) exam questions software product license must be validated before use.

Cisco 300-610 exam is an important certification exam for individuals who are responsible for designing data center infrastructure using Cisco technologies. 300-610 exam covers a range of topics related to data center infrastructure design and tests an individual's ability to design solutions that meet business and technical requirements. Passing the exam leads to the Cisco Certified Specialist - Data Center Core certification, which is highly regarded in the industry and can lead to enhanced career opportunities and higher salaries.

Cisco 300-610 Exam is intended for IT professionals who are responsible for designing, implementing, and managing data center infrastructure. This includes network architects, systems engineers, and network administrators who want to enhance their knowledge and skills in data center infrastructure design. 300-610 exam covers a wide range of topics, including data center network design, storage network design, compute design, and automation.

High Pass-Rate 300-610 Actual Exam Dumps & Effective Latest 300-610 Exam Pattern & Practical 300-610 Dumps

The Cisco 300-610 certification brings multiple career benefits. Reputed firms happily hire you for good jobs when you earn the Designing Cisco Data Center Infrastructure 300-610 certificate. If you are already an employee of a tech company, you get promotions and salary hikes upon getting the Designing Cisco Data Center Infrastructure 300-610. All these career benefits come when you crack the Designing Cisco Data Center Infrastructure 300-610 Certification examination. To pass the Designing Cisco Data Center Infrastructure 300-610 test, you need to prepare well from updated practice material such as real Cisco 300-610 Dumps. We guarantee that this study material will prove enough to prepare successfully for the 300-610 examination.

Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q209-Q214):

NEW QUESTION # 209

What are two functions of a Network Services Orchestrator in an NFV environment? (Choose two.)

- A. It operates at the resource-facing services layer and provides overall lifecycle management at the network service level.
- B. It provides an API-based northbound interface for transparent integration with systems that operate at the resource-facing services layer.
- C. It provides a standards-based southbound interface for transparent integration with systems that operate at the customer-facing services layer.
- D. It provides a standards-based northbound interface for transparent integration with systems that operate at the customer-facing services layer.
- E. It operates at the customer-facing services layer and provides the management interface for the virtual network devices.

Answer: A,B

NEW QUESTION # 210

When planning to deploy a load-balancing service as a managed node, which ACI configuration must be included?

- A. ITD
- B. Layer 4 to Layer 7 device package
- C. BGP ECMP
- D. inline load-balancing device

Answer: B

Explanation:

Section: Network Design

Explanation

Explanation/Reference: https://www.cisco.com/c/en/us/td/docs/switches/datacenter/aci/apic/sw/1-x/ACI_Best_Practices/b_ACI_Best_Practices/b_ACI_Best_Practices_chapter_0110.html

NEW QUESTION # 211

An engineer designs a Cisco UCS solution that must provide guaranteed and deterministic bandwidth to a specific server in the environment. The solution must apply to network and storage traffic of C-Series and B-Series servers. Which solution should be included to meet these requirements?

- A. Pin the server ports of the service profile to dedicated uplink ports.
- B. Pin the vNICs and the vHBAs of the service profile to dedicated uplink ports.
- C. Pin the IOM ports of the service profile to dedicated server ports.
- D. Pin the vNICs and vHBAs of the service profile to dedicated server ports

Answer: B

Explanation:

https://www.cisco.com/c/en/us/td/docs/unified_computing/ucs/sw/gui/config/guide/2-2/b_UCSM_GUI_Configuration_Guide_2_2/b_UCSM_GUI_Configuration_Guide_2_2_chapter_010.html#concept_7DE33CE2E37A47C6992C012D51CA37D4

Pinning

Pinning in Cisco UCS is only relevant to uplink ports. You can pin Ethernet or FCoE traffic from a given server to a specific uplink Ethernet port or uplink FC port.

When you pin the NIC and HBA of both physical and virtual servers to uplink ports, you give the fabric interconnect greater control over the unified fabric. This control ensures more optimal utilization of uplink port bandwidth.

Cisco UCS uses pin groups to manage which NICs, vNICs, HBAs, and vHBAs are pinned to an uplink port. To configure pinning for a server, you can either assign a pin group directly, or include a pin group in a vNIC policy, and then add that vNIC policy to the service profile assigned to that server. All traffic from the vNIC or vHBA on the server travels through the I/O module to the same uplink port.

- Guidelines for Pinning

Guidelines for Pinning

When you determine the optimal configuration for pin groups and pinning for an uplink port, consider the estimated bandwidth usage for the servers. If you know that some servers in the system will use a lot of bandwidth, ensure that you pin these servers to different uplink ports.

NEW QUESTION # 212

An engineer enables the HSRP feature on a Cisco Nexus 7000 Series Switch. It must be ensured that the switch manages packets that are sent to the local vPC MAC address, remote vPC MAC address, and HSRP virtual MAC address.

Which command accomplishes this goal?

- A. hsrp preempt
- B. peer-switch
- C. peer-gateway
- D. map-server

Answer: C

Explanation:

The peer-gateway command allows each vPC peer to intercept and process packets destined to the MAC address of the other peer (remote vPC MAC) as well as the local and HSRP virtual MAC addresses.

This prevents the need for such packets to traverse the vPC peer link, reducing unnecessary traffic and avoiding packet drops caused by vPC loop avoidance mechanisms.

It effectively enables the Nexus switches in a vPC domain to route packets destined for each other's MAC addresses and for the HSRP virtual MAC, ensuring proper forwarding and load sharing in the presence of HSRP and vPC.

NEW QUESTION # 213

A Cisco engineer is developing a custom application that can run natively in Cisco NX-OS on Nexus 9000 and Nexus 3000 platforms. For the NX-SDK application to run, the engineer enables the NX-SDK feature on the device.

Then the NX-SDK is imported into the application via an `import nx_sdk_py` statement. The engineer creates custom CLI commands and defines custom CLI command syntax within the `sdkThread` function. When CLI commands originate from an NX-SDK application, what class is this?

- A. `nx_sdk_pyValidToInt`
- B. `cliCmdPrintConsole`

- C. postCliCb
- D. pyCmdhandler

Answer: A

NEW QUESTION # 214

.....

A dedicated team is accessible for ExamsLabs customers. One can reach our 24/7 customer support team to resolve their queries. Moreover, our team will also assist users if they face any kind of trouble while using above-mentioned formats of 300-610 practice material. We will offer you a refund guarantee (terms and conditions apply) as saving your money is our priority. Additionally, we offer up to 1 year of free updates and free demo of the 300-610 product. Order 300-610 exam questions now and get excellent these offers.
