

New CompTIA N10-009 Dumps - Get Ready With N10-009 Exam Questions

EXAMFORSURE

N10-009 Dumps Demo Questions:

Demo Question: 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You need to assign User2 the required roles to meet the security requirements.
Solution: From the Office 365 admin center, you assign User2 the Security Reader role.
From the Exchange admin center, you assign User2 the Help Desk role.
Does this meet the goal?

- A. Yes
- B. NO

Answer: B

Nowadays the competition in the job market is fiercer than any time in the past. If you want to find a good job, you must own good competences and skillful major knowledge. So owning the N10-009 certification is necessary for you because we will provide the best study materials to you. Our N10-009 exam torrent is of high quality and efficient, and it can help you pass the test successfully. The product we provide with you is compiled by professionals elaborately and boosts varied versions which aimed to help you learn the N10-009 Study Materials by the method which is convenient for you. They check the update every day, and we can guarantee that you can get a free update service from the date of purchase.

CompTIA N10-009 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• OSI reference model concepts, Comparison of networking appliances, applications, and functions
Topic 2	<ul style="list-style-type: none">• Network Security: This section of the exam for cybersecurity specialists and network security administrators covers the importance of basic network security concepts, Various types of attacks and their impact on the network, application of network security features, defense techniques, and solutions. Network Troubleshooting: For help desk technicians and network support specialists, this section covers troubleshooting methodology, troubleshooting common cabling and physical interface issues, troubleshooting common issues with network services, and use of appropriate tools or protocols to solve networking issues.
Topic 3	<ul style="list-style-type: none">• Selection and configuration of wireless devices.

Topic 4	<ul style="list-style-type: none"> • Network Implementation: For network technicians and junior network engineers, this section covers Characteristics of routing technologies, Configuration of switching technologies and features, and
Topic 5	<ul style="list-style-type: none"> • Cloud concepts and connectivity options, and Common networking ports.

Practice N10-009 Exam Online, Exam N10-009 Reference

Never say you can not do it. This is my advice to everyone. Even if you think that you can not pass the demanding CompTIA N10-009 exam. You can find a quick and convenient training tool to help you. Fast2test's CompTIA N10-009 exam training materials is a very good training materials. It can help you to pass the exam successfully. And its price is very reasonable, you will benefit from it. So do not say you can't. If you do not give up, the next second is hope. Quickly grab your hope, it's in the Fast2test's CompTIA N10-009 Exam Training materials.

CompTIA Network+ Certification Exam Sample Questions (Q479-Q484):

NEW QUESTION # 479

Which of the following routing protocols uses an autonomous system number?

- A. EIGRP
- B. OSPF
- C. IS-IS
- D. BGP

Answer: D

Explanation:

BGP (Border Gateway Protocol) uses an Autonomous System (AS) number for its operations. An AS is a collection of IP networks and routers under the control of a single organization that presents a common routing policy to the Internet. BGP is used to exchange routing information between different ASes on the Internet, making it the only protocol among the listed options that uses an AS number.

Reference: CompTIA Network+ study materials and RFC 4271.

NEW QUESTION # 480

A network engineer is troubleshooting connectivity for a newly installed server on an existing VLAN. The engineer reviews the following output:

```
C:\> ipconfig
IP Address: 192.168.100.225
Mask: 255.255.255.224
Gateway: 192.168.100.254
Router# show ip route
C 192.168.100.0/24 is directly connected, GigabitEthernet0/0
```

Which of the following describes the issue?

- A. The DHCP address pool is exhausted
- B. There is a duplicate IP address on the network
- C. The server has an incorrect subnet mask
- D. The router is missing a default route

Answer: C

Explanation:

The server's subnet mask is 255.255.255.224 (/27), which covers IPs from 192.168.100.224 to 192.168.100.255. However, the router only recognizes 192.168.100.0/24, indicating a mismatch between the server's subnet and

the router's network.

Correct mask for the /24 network is 255.255.255.0, allowing 256 IPs from 192.168.100.0 to 192.168.100.255.

This mismatch would result in routing issues, especially with the gateway outside of the subnet range.

CompTIA Network+ N10-009 Official Objectives: 5.2 - Given a scenario, troubleshoot common wired connectivity issues.

NEW QUESTION # 481

Which of the following does a full-tunnel VPN provide?

- A. The ability to reset local computer passwords
- B. Access to blocked sites
- C. Corporate Inspection of all network traffic
- D. Lower bandwidth requirements

Answer: C

Explanation:

A full-tunnel VPN routes all of a user's network traffic through the corporate network. This means that the organization can inspect all network traffic for security and compliance purposes, as all data is tunneled through the VPN, allowing for comprehensive monitoring and inspection. Reference: CompTIA Network+ study materials.

NEW QUESTION # 482

A network technician needs to resolve some issues with a customer's SOHO network. The customer reports that some of the PCs are not connecting to the network, while others appear to be working as intended.

INSTRUCTIONS

Troubleshoot all the network components.

Review the cable test results first, then diagnose by clicking on the appropriate PC, server, and Layer 2 switch.

Identify any components with a problem and recommend a solution to correct each problem.

If at any time you would like to bring back

the initial state of the simulation, please

click the Reset All button.

Cable Test Results

Switch 1	Length : 16M	Port : GigabitEthernet0/5
Switch 2	VLAN : VLAN 10	Speed : 1000 FDX
Server	Connected to Switch 2

NEW QUESTION # 483

A network administrator needs to change where the outside DNS records are hosted. Which of the following records should the administrator change the registrar to accomplish this task?

- A. CNAME
- B. PTR
- C. SOA
- D. NS

Answer: D

Explanation:

To change where the outside DNS records are hosted, the network administrator needs to update the NS (Name Server) records at the domain registrar. NS records specify the authoritative name servers for a domain, directing where DNS queries should be sent.

NS (Name Server) Records: These records indicate the servers that are authoritative for a domain. Changing the NS records at the registrar points DNS resolution to the new hosting provider.

SOA (Start of Authority): Contains administrative information about the domain, including the primary name server.

PTR (Pointer) Records: Used for reverse DNS lookups, mapping IP addresses to domain names.

CNAME (Canonical Name) Records: Used to alias one domain name to another, not relevant for changing DNS hosting.

NEW QUESTION # 484

.....

Although at this moment, the pass rate of our CompTIA N10-009 exam braindumps can be said to be the best compared with that of other exam tests, our experts all are never satisfied with the current results because they know the truth that only through steady progress can our CompTIA N10-009 Preparation materials win a place in the field of exam question making forever.
