NEW QUESTION # 261

Drag and Drop Question

In the classroom scenario, the indoor floor height is about 3~5 meters. The figure shows the network planning scheme for ordinary classrooms and stepped classrooms. Please match the recommended antenna type and installation method with the two schemes respectively.

The diagram illustrates two classroom network planning schemes, planA and planB, each showing four single rooms (each <60 square meters). planA shows a single room with a directional antenna, while planB shows a single room with an omnidirectional antenna. Below the diagrams are four options for antenna type and installation method, each with a corresponding solution or plan label.

Antenna Type	Installation Method	Solution/Plan
Directional Antenna	Antenna type used in solution A	Solution A
Omnidirectional antenna	Antenna type used in solution B	Solution B
Wall Mount	Installation method used in solution A	Solution A
Ceiling installation	Installation method used in plan B	Plan B

Answer:

Explanation:

The diagram shows the recommended antenna type and installation method for planA and planB. planA uses a Directional Antenna with Wall Mount, and planB uses an Omnidirectional antenna with Ceiling installation.

Antenna Type	Installation Method	Plan
