Reliable NCP-MCI-6.10 Braindumps Book | Interactive NCP-MCI-6.10 Questions

The computer is widely used in all phases of society. If you get a Nutanix certification you will have wide development for business, education, medicine and nearly all walks of life. NCP-MCI-6.10 test dumps materials play an important role if you are willing to get a certificate. If you can show your computer skills and talents, it will be your outstanding advantage over others. ExamsTorrent Valid NCP-MCI-6.10 Test Dumps materials may be your first step to success as an IT worker.

Nutanix Certified Professional - Multicloud Infrastructure (NCP-MCI v6.10) Sample Questions (Q163-Q168):

NEW QUESTION # 163

An administrator needs to perform an LCM upgrade on an AHV host with GPUs. What additional step is required before upgrading the host?

- A. Update NCC to the latest version and re-run Inventory.
- B. Create an agent VM on each host that has GPU drivers installed.
- C. Run LCM in dark site mode so it can update AHV independently.
- **D. Use Direct Uploads to upload appropriate driver bundles.**

Answer: D

Explanation:

Upgrading an AHV host with GPUs requires that the correct GPU drivers be manually uploaded to LCM, as GPU firmware is not updated automatically.

- * Option C (Use Direct Uploads to upload appropriate driver bundles) is correct:
- * LCM does not automatically fetch GPU drivers.
- * The administrator must download and manually upload the appropriate firmware bundle before upgrading.
- * Option A is incorrect:
- * Agent VMs are not required for GPU updates.
- * Option B is incorrect:
- * Running LCM in dark site mode does not impact GPU firmware updates.
- * Option D is incorrect:
- * Updating NCC is a best practice but does not resolve GPU driver issues.

- * Nutanix KB#Updating AHV Hosts with GPUs

NEW QUESTION # 164

An administrator is planning for an upcoming maintenance window. The administrator would like to minimize the chance of an upgrade failure during the maintenance window to ensure the updates will complete without issue.

What action should the administrator take to reduce the risk of any potential failures during an upgrade?

- **A. Run an Upgrade Precheck from LCM.**
- B. Reboot each CVM one-at-a-time to ensure the reboots are successful.
- C. Reboot each host one-at-a-time to ensure the reboots are successful.
- D. Upgrade AOS to the latest version from LCM.

Answer: A

NEW QUESTION # 165

An administrator has been asked to calculate baseline Capacity Runway on a newly registered AHV cluster.

The cluster has been running for 16 days, but no runway projections are displayed.

Why are no Capacity Runway projections being displayed?

- A. Capacity Planning requires at least 3 months of data.
- **B. Capacity Planning requires at least 30 days of data.**
- C. Capacity Planning requires at least 6 months of data.
- D. Capacity Planning requires at least 21 days of data.

Answer: B

NEW QUESTION # 166

An administrator has been tasked with performing firmware upgrades for all Nutanix sites.

When attempting to perform firmware upgrades via Life Cycle Manager (LCM) at a remote site with a single-node cluster, no firmware updates are listed as available. The administrator confirmed that the currently installed firmware is several revisions behind.

Why are no firmware upgrades listed in LCM for this cluster?

- A. LCM cannot perform firmware upgrades on single-node clusters.
- B. LCM does not have connectivity to the internet.
- C. Single-node clusters only support one-disk firmware upgrades.
- **D. LCM is not supported on single-node clusters.**

Answer: D

Explanation:

LCM (Life Cycle Manager) does not support automatic firmware upgrades for single-node clusters because firmware updates require cluster-wide operations, which are not possible with only one node.

- * Option B (LCM is not supported on single-node clusters) is correct:
- * Single-node clusters lack failover capability, making firmware upgrades unsafe without manual intervention.
- * Option A (Single-node clusters only support one-disk firmware upgrades) is incorrect:
- * This limitation does not apply to LCM as a whole.

- * Option C (LCM cannot perform firmware upgrades) is incorrect:
 - * LCM can perform manual firmware upgrades, but automatic updates are not supported.
 - * Option D (LCM lacks internet connectivity) is incorrect:
 - * Even if the cluster is in a dark site (no internet), LCM can use local update bundles.

 - * Nutanix KB #Why LCM Updates Are Not Available for Single-Node Deployments

NEW QUESTION # 167

What Nutanix feature helps improve performance by ensuring that VM data remains on the same node where the VM is running?

- A. Replication Factor
- B. Data Tiering
- C. Prism Insights
- **D. Data Locality**

Answer: D

NEW QUESTION # 168

.....

Our NCP-MCI-6.10 training guide is not difficult for you. We have simplified all difficult knowledge. So you will enjoy learning our NCP-MCI-6.10 study quiz. During your practice of our NCP-MCI-6.10 exam materials, you will find that it is easy to make changes. In addition, our study materials will boost your confidence. You will be glad to witness your growth. Do not hesitate. Good opportunities will slip away if you stand still.

Reliable NCP-MCI-6.10 Braindumps Book: <https://www.examstorrent.com/NCP-MCI-6.10-exam-dumps-torrent.html>

Nutanix Braindumps NCP-MCI-6.10 Downloads Our service is excellent; our products remain valid for one year, You will pass the NCP-MCI-6.10 exam after 20 to 30 hours' learning with our NCP-MCI-6.10 study material, Now I am going to introduce you the PDF version of NCP-MCI-6.10 test braindumps, You may think 100% guarantee pass rate is hard to achieve; however, we can assure you that our NCP-MCI-6.10 exam study material is definitely a reliable choice and we will take responsibility for your passing the NCP-MCI-6.10 exam, Nutanix Braindumps NCP-MCI-6.10 Downloads Please trust us and pose your question if you are curious, we can help you stand out from the competition in this knowledge economy society.

The Bad Guys from Outside: Malware, As expected, with enhanced NCP-MCI-6.10 flexibility, you also get greater complexity, Our service is excellent; our products remain valid for one year.

You will pass the NCP-MCI-6.10 exam after 20 to 30 hours' learning with our NCP-MCI-6.10 study material, Now I am going to introduce you the PDF version of NCP-MCI-6.10 test braindumps.

Nutanix NCP-MCI-6.10 Dumps- Accessible On Any Device

You may think 100% guarantee pass rate is hard to achieve; however, we can assure you that our NCP-MCI-6.10 exam study material is definitely a reliable choice and we will take responsibility for your passing the NCP-MCI-6.10 exam

Please trust us and pose your question if you are Latest NCP-MCI-6.10 Dumps Questions curious, we can help you stand out from the competition in this knowledge economy society.
