

# 2V0-16.25 Reliable Test Simulator, Reliable 2V0-16.25 Exam Test

P.S. Free & New 2V0-16.25 dumps are available on Google Drive shared by LatestCram: <https://drive.google.com/open?id=1Rta3ulgOILrSAIXyCpMFM3dPNzrHELt5>

The 2V0-16.25 exam questions are the perfect form of a complete set of teaching material, teaching outline will outline all the knowledge points covered, comprehensive and no dead angle for the 2V0-16.25 candidates presents the proposition scope and trend of each year, truly enemy and know yourself, and fight. Only know the outline of the 2V0-16.25 Exam, can better comprehensive review, in the encounter with the new and novel examination questions will not be confused, interrupt the thinking of users.

According to the survey, the average pass rate of our candidates has reached 99%. High passing rate must be the key factor for choosing, which is also one of the advantages of our 2V0-16.25 real study dumps. In order to get more chances, more and more people tend to add shining points, for example a certification to their resumes. What you need to do first is to choose a right 2V0-16.25 Exam Material, which will save your time and money in the preparation of the 2V0-16.25 exam. Our 2V0-16.25 latest questions is one of the most wonderful reviewing VMware vSphere Foundation 9.0 Administrator study training dumps in our industry, so choose us, and together we will make a brighter future.

## Quiz VMware - 2V0-16.25 Pass-Sure Reliable Test Simulator

There are a lot of students that bought LatestCram's VMware 2V0-16.25 dumps and are satisfied with our services because they passed their 2V0-16.25 on the very first try. We assure you that if you study with our provided VMware vSphere Foundation 9.0 Administrator (2V0-16.25) practice questions, you can pass VMware certifications Exam test in a single attempt, and if you fail to do it, you can claim your money back from us according to terms and conditions.

## VMware vSphere Foundation 9.0 Administrator Sample Questions (Q24-Q29):

NEW QUESTION # 24

The operations team is tasked with the preparation of a weekly health status overview of a VMware vSphere Foundation (VVF) environment to senior management with the following requirements:

- \* It should be sent every Monday morning.
- \* It must include KPIs related to cluster health, storage usage, and virtual machine (VM) growth trends.
- \* Operational overhead should be minimized.

Which two actions must the administrator perform to satisfy these requirements? (Choose two.)

- A. Export the desired metrics from the Metrics Explorer to CSV.
- B. Export the built-in Cluster Summary report via FTP.
- C. Create a custom dashboard with the required KPIs.
- **D. Create a custom View with the KPIs and add it to a new Report Template.**
- **E. Configure the scheduler to send the report via e-mail weekly.**

**Answer: D,E**

Explanation:

VMware vSphere Foundation (VVF) integrates VMware Aria Operations (vRealize Operations) for intelligent operations management, enabling automated reporting to minimize operational overhead. To meet the requirements for a weekly health status overview including cluster health, storage usage, and VM growth trends, an administrator must first create a custom View in Aria Operations to define the specific KPIs (e.g., cluster availability, datastore capacity, and VM count trends over time). This View is then added to a new Report Template, which compiles the data into a structured report format like PDF or CSV. Next, the scheduler in Aria Operations is configured to generate and email the report every Monday morning, ensuring delivery without manual intervention. This approach leverages built-in automation for recurring tasks, reducing effort compared to ad-hoc exports or manual configurations.

Other options do not fully satisfy the requirements: Option A creates a dashboard for interactive visualization but not a scheduled report; Option C uses a built-in report with limited customization and no direct FTP export or scheduling; Option E involves manual CSV exports from Metrics Explorer, increasing overhead and lacking automation.

#### NEW QUESTION # 25

During a recent audit, it was determined that a group of users may have been compromised. These users should not have access to any VMware vCenter resources while an investigation is underway. All the affected users have been placed into a SUSPECT\_USERS group.

Which step is required to ensure that the suspect users will never have access to resources in vCenter?

- A. Assign the SUSPECT\_USERS group the Administrator role to the vCenter Object and uncheck propagate.
- B. Disconnect the vCenter from Active Directory.
- C. Assign the SUSPECT\_USERS group the Read-only role to the vCenter Object and check propagate.
- **D. Assign the SUSPECT\_USERS group the No access role to the vCenter Object and check propagate.**

**Answer: D**

Explanation:

To ensure compromised users cannot access vCenter resources:

- \* Assign the No Access role at the vCenter level.
- \* Enable propagation so this restriction applies to all child objects.
- \* This guarantees zero permissions for SUSPECT\_USERS.

Other options:

- \* B. Administrator with uncheck propagate# Still gives dangerous access at root level.
- \* C. Disconnect Active Directory# Disrupts all AD users, not just suspect ones.
- \* D. Read-only role# Still grants access, not acceptable during investigation.

#### NEW QUESTION # 26

An administrator is tasked with enabling a Supervisor in a VMware vSphere Foundation (VVF) environment using vSphere networking and the Foundation Load Balancer. The vSAN-backed cluster has been configured with a vSphere Distributed Switch.

Which two actions must the administrator perform when enabling a Supervisor using vSphere networking? (Choose two.)

- A. Configure a Tier-0 Gateway with BGP or static routing.
- **B. Provide a static IP address range for the Supervisor control plane VMs.**
- **C. Assign a vSphere Distributed Switch and a corresponding port group.**
- D. Enable the VM Service before deploying the Supervisor.
- E. Select a vSphere namespace template to define initial namespace limits.

**Answer: B,C**

Explanation:

When enabling a Supervisor Cluster in vSphere with Tanzu using vSphere networking and the Foundation Load Balancer:

- \* You must provide a static IP range for the Supervisor control plane VMs so they can be deployed with dedicated addresses. (B)
- \* You must assign a vSphere Distributed Switch (VDS) with an appropriate port group for Supervisor networking. (E) Other options:
- \* A. Namespace template# Optional after Supervisor is enabled, not required at setup.
- \* C. Tier-0 Gateway# Applies to NSX networking, not vSphere networking.
- \* D. VM Service# Enabled after Supervisor, not a prerequisite.

### NEW QUESTION # 27

In VMware Cloud Foundation (VCF) Operations, which node type is responsible for providing fault tolerance for administrative functions within the VCF Operations cluster?

- **A. Replica Node**
- B. Witness Node
- C. Data Node
- D. Primary Node

**Answer: A**

Explanation:

In VCF Operations (vRealize Operations) cluster architecture:

- \* The Primary Node handles administration and management.
- \* The Replica Node provides fault tolerance for the Primary Node, ensuring that administrative functions remain available in case of failure.
- \* Data Nodes handle data collection and analytics.
- \* Witness Node# Not a role in VCF Operations; relevant to vSAN clusters.

Thus, the node type providing fault tolerance for administrative functions is the Replica Node.

### NEW QUESTION # 28

Which scenario demonstrates the benefit of server consolidation using VMware server virtualization?

- A. Automating the deployment of application clusters.
- **B. Running multiple independent machines on a single physical host.**
- C. Performing load balancing between web servers.
- D. Providing protection against ransomware attacks.

**Answer: B**

Explanation:

The core benefit of server consolidation using VMware server virtualization is the ability to run multiple independent virtual machines (VMs) on a single physical host.

- \* This increases hardware utilization, reduces physical server sprawl, and cuts operational costs.
- \* A. Load balancing# Achieved through features like DRS, not basic server consolidation.
- \* C. Ransomware protection# Achieved through security features and backups, not consolidation.
- \* D. Automating application clusters# A benefit of orchestration tools, not consolidation.

### NEW QUESTION # 29

.....

Nowadays, using computer-aided software to pass the 2V0-16.25 exam has become a new trend. Because the new technology enjoys a distinct advantage, that is convenient and comprehensive. In order to follow this trend, our company product such a 2V0-16.25 exam questions that can bring you the combination of traditional and novel ways of studying. The passing rate of our study material is up to 99%. If you are not fortune enough to acquire the 2V0-16.25 Certification at once, you can unlimitedly use our product at different discounts until you reach your goal and let your dream comes true.

**Reliable 2V0-16.25 Exam Test:** <https://www.latestcram.com/2V0-16.25-exam-cram-questions.html>

We believe that it must be very useful for you to take your exam, and it is necessary for you to use our 2V0-16.25 test questions, The web-based VMware 2V0-16.25 practice exam is compatible with all browsers like Chrome, Mozilla Firefox, MS Edge, Internet Explorer, Safari, Opera, and more, VMware 2V0-16.25 Reliable Test Simulator Each of them is eager to have a strong proof to highlight their abilities, so they have the opportunity to change their current status, VMware 2V0-16.25 Reliable Test Simulator Hence, a certified voice admin can be very vital in the functioning of the organization.

Here's an easy method that will help guarantee completion of both Certification 2V0-16.25 Dumps personal and professional pursuits by helping you to define goals in a way that will keep you motivated throughout the project.

### 100% Pass Quiz 2026 2V0-16.25: Latest VMware vSphere Foundation 9.0 Administrator Reliable Test Simulator

The key lies with remembering that business rules represent business logic—not programming logic, We believe that it must be very useful for you to take your exam, and it is necessary for you to use our 2V0-16.25 Test Questions.

The web-based VMware 2V0-16.25 practice exam is compatible with all browsers like Chrome, Mozilla Firefox, MS Edge, Internet Explorer, Safari, Opera, and more.

Each of them is eager to have a strong proof to highlight their abilities, 2V0-16.25 so they have the opportunity to change their current status, Hence, a certified voice admin can be very vital in the functioning of the organization.
