The benefit of obtaining the Certified Implementation Specialist - Service Mapping (CIS-SM) Exam Certification

You will learn to master ServiceNow skills through training and certification through hands-on, real-world coaching to help you achieve your objectives. You will learn to succeed with the Now Platform, whether you take virtual or in-person courses from ServiceNow or one of our Accredited Training Partners. Companies are searching for proven professionals and companies see faster implementations and better use of ServiceNow using trained professionals. Getting accredited boosts your career and sets you up to bring much more to the success of your company.

You will achieve market recognition, competitive differentiation, higher efficiency and outcomes, improved user group satisfaction, and a concrete indicator of your educational investment once you are ServiceNow accredited. If you are a young consultant

beginning your career or a seasoned professional looking to deepen your experience and distinguish yourself from the competition, the ServiceNow deployment route will teach you to rapidly and efficiently deploy ServiceNow products in customer environments.

Training and certification from ServiceNow allow you to optimize platform capabilities rapidly to further accomplish your goals. If you are on the road to becoming a certified application developer (CAD), by designing application tables, developing and implementing forms, managing access, and incorporating workflows into applications, you can learn how to build applications. You will learn to take full advantage of the Now Platform by specializing in a brand.

Achieving the CIS-SM Certification demonstrates to employers and colleagues that a candidate has the skills and knowledge required to successfully implement and manage Service Mapping in a ServiceNow instance. Certified Implementation Specialist - Service Mapping certification can also help IT professionals advance their careers and increase their earning potential, as it is highly valued by companies that use ServiceNow for IT service management and asset management.

ServiceNow Certified Implementation Specialist - Service Mapping Sample Questions (Q91-Q96):

NEW QUESTION # 91

A customer has recently placed check scanners in some of their branches across Europe. The scanners send the scanned images of the checks to the bank's data center through a web service that goes through an F5 load balancer. The images then go through the bank's Apache web servers and are processed by an application server named ImageSmart. Eventually, the images are stored in a cluster of Oracle databases.

The bank's tellers log into ImageSmart through a Citrix Portal and have the capability to review the checks and approve them.
