AP-209-2
(Rev. 3/05)

**TEXAS APPLICATION FOR TAX EXEMPTION
FOR RELIGIOUS AND RELIGION-BASED ORGANIZATIONS**

- TYPE OR PRINT
- Do NOT write in shaded areas.

Page 1

SECTION A

1. ORGANIZATION NAME
Legal name as provided in Articles of Incorporation, or, if unincorporated, the governing document. For out-of-state corporations, name must match the official corporate name as filed in the home state of charter.

2. ORGANIZATION MAILING ADDRESS
Street number, P.O. Box, or rural route and box number.

City _____ State/Province _____ ZIP code _____ County (if county, if outside the U.S.) _____

3. Texas Taxpayer number (if applicable) _____

4. For TEXAS corporations ONLY, filing information issued by the Secretary of State:
File Number _____ File Date _____ Month _____ Day _____ Year _____

5. For NON-TEXAS corporations ONLY, filing information issued by the Texas Secretary of State:
Certificate of Authority File Number _____ File Date _____ Month _____ Day _____ Year _____
Home State of Incorporation _____ Date of Incorporation _____ Month _____ Day _____ Year _____ Home State Filing or Registration Number _____

6. Federal Employer's Identification Number (EIN) (Required if applying for exemption on the basis of a federal exemption) _____

7. Average attendance at worship service _____ If average attendance is less than 50, indicate the number of families represented in the average attendance: _____

8. Date of first worship service _____ Time _____ Frequency _____

9. Time and frequency of worship services _____

10. Name, address and daytime phone number of the person submitting this application.
Name _____ Title _____
Organization Name _____ Daytime Phone (Area code and number) _____ Extension _____
Address _____ City _____ State _____ Zip _____

If address provided is not the same as the organization's mailing address, indicate to which address our response should be mailed:
☐ To organization mailing address ☐ To mailing address of submitter

SECTION B

Provide the following additional information as it applies to the appropriate option below:

☐ **Option A** (Member of a common denomination or convention of churches):
• If your organization is a church that is a member of a common denomination or convention of churches, and the parent organization either has a 501(c)(3) federal group exemption, or has previously obtained a religious exemption in Texas for the churches under its jurisdiction, your church can obtain exemption based on its affiliation with the parent organization. Attach a letter from the parent organization stating that your church is a recognized subordinate, or provide the web address of the parent organization where your church's affiliation can be verified.

☐ **Option B** (Independent church or nondenominational church that does not meet the requirements under Option A):
• A copy of your organization's governing document (file-stamped Articles of Incorporation, or Bylaws or Constitution or Articles of Association if not incorporated)
• A copy of your group's statement of faith
• Documentation such as a bulletin, brochure, Web address (URL) or written statement that indicates the regular order of what takes place during the worship services.
• A statement containing the physical address (no P.O. Box) and a description of the facility where worship services are regularly conducted, if available, include pictures of the interior and exterior of the facility. If renting or leasing, include a copy of the rental/lease agreement.
• A statement confirming the services are open to the public. The statement must indicate how the services are advertised to the public.

If your church has its own 501(c)(3) federal exemption, provide a copy of the IRS determination letter along with the information in option A or B so that we may update our records.

**APPLICATIONS RECEIVED WITHOUT SUPPORTING DOCUMENTATION REQUIRED
UNDER OPTION A OR OPTION B WILL BE RETURNED.**

不同的方式是可以達到相同的目的的，就看你選擇什麼樣的方式，走什麼樣的路。很多人都想通過Salesforce AP-209 認證考試來使自己的工作和生活有所提升，但是參加過Salesforce AP-209 認證考試的人都知道通過Salesforce AP-209 認證考試不是很簡單。有的人為了能通過Salesforce AP-209 認證考試花費了很多寶貴的時間和精力卻沒有成功。

你買了PDFExamDumps的產品，我們會全力幫助你通過認證考試，而且還有免費的一年更新升級服務。如果官方改變了認證考試的大綱，我們會立即通知客戶。如果有我們的軟體有任何更新版本，都會立即推送給客戶。PDFExamDumps是可以承諾幫你成功通過你的第一次Salesforce AP-209 認證考試。

>> AP-209考題寶典 <<

最新更新AP-209考題寶典擁有模擬真實考試環境與場境的軟件VCE版本 & 有效的Salesforce AP-209

AP-209 認證是 Salesforce 認證體系中增長最快的領域，也是一個國際性的廠商中比較難的認證考試。不過不用擔心，PDFExamDumps 就是一個能使 AP-209 認證考試的通過率提高的一個網站，我們的 Salesforce AP-209 考題指南由我們的專業團隊破解AP-209 考試系統數據包，經過資深IT認證講師和技術專家精心編輯整理。包括了當前 AP-209 考試所有單選題、複選題、實作題、拖拉題等題型。可以幫助考生順利通過考試。

最新的 Accredited Professional AP-209 免費考試真題 (Q36-Q41):

問題 #36

Green Energy Solutions would like to track their vehicles' availability, so that once a Work Order is created, both a Service Resource and a vehicle need to be assigned to the work, to ensure that the resource will use an available vehicle for the job. How would a consultant recommend implementing this requirement?

- A. Set the vehicle as a 'Required Product'. Once the Work Order is created it will inherit the 'Required Product' and notify the resource that this vehicle needs to be used for the job
- B. Set the vehicle as a 'Required Product'. Once a resource is assigned to the work a 'vehicle' product will be consumed via the Field Service mobile App to indicate that this vehicle is being used
- C. Set the vehicle as a Service Resource, create a Work Order and two Service Appointments, one for the mobile worker and one for the vehicle, use 'Complex Work' with a dependency of type 'Immediately Follow'
- **D. Set the vehicle as a Service Resource, create a Work Order and two Service Appointments, one for the mobile worker and one for the vehicle, use 'Complex Work' with a dependency of type 'Same Start'**

答案: D

解題說明:

The requirement is to schedule two distinct resources (a Human and a Vehicle) for the same job at the same time.

* Option C is correct.

* Vehicle as Service Resource: You must model the vehicle as a Service Resource (Type: Asset) to track its availability on the Gantt and prevent double-booking.

* Complex Work (Same Start): To ensure the vehicle and the technician are booked together, you use Complex Work dependencies. "Same Start" ensures that the vehicle appointment and the technician appointment are scheduled to begin simultaneously.

* Options A and B are incorrect because Products are not scheduled. Consuming a product does not check if the vehicle is available at that specific time, potentially leading to double-booking the van.

* Option D is incorrect because "Immediately Follow" implies a sequence (Technician finishes -> Vehicle starts), which is not how a shared ride/equipment scenario works.

問題 #37

Green Energy Solutions has resources in multiple countries and time zones. Each country has different holidays and permitted working hours.

What should the consultant configure to support this?

- A. Service Territories, Resource Capacity and Business Hours
- B. Work Types, Resource Availabilities and Operating Hours
- C. Skills, Operating Hours, Time Slots and Holidays
- **D. Service Territories, Operating Hours and Resource Absences**

答案: D

解題說明:

To model international workforces in Salesforce Field Service, specific objects handle geography, time, and exceptions.

* Option B is correct.

* Service Territories: Used to define the geographical areas (Countries/Regions). Crucially, the Time Zone is defined on the Service Territory record.

* Operating Hours: Used to define the "Permitted Working Hours" (e.g., Mon-Fri, 9-5). These are assigned to the Service Territory or Service Territory Member.

* Resource Absences: Used to model time off, such as public holidays or sick days, where the resource is unavailable. (Note: Holidays can also be linked directly to Operating Hours, but Resource Absences are the distinct records created on the Gantt).

* Option A is incorrect because "Business Hours" is a Service Cloud (Support) object used for Case Entitlements, not Field Service scheduling. "Resource Capacity" is used for contractors (Capacity- Based Scheduling), not for defining standard working hours.

問題 #38

Out of the below options, which three questions should a consultant typically ask during the first day of an initial implementation?

- A. What Service Objectives and what should their corresponding weights be within the different Scheduling Policies?
- **B. What are the different types of services provided to customers? What are the skills required and the estimated duration?**
- C. Which Dynamic Gantt features should be incorporated into the use cases?

- D. How are the different business units set up? Geographical/ functional/ both?
- E. What needs to be synced with Salesforce? What integration is needed with external apps?

答案： B,D,E

解題說明：

During the "Day 1" or Scoping phase of an implementation, the goal is to define the high-level architecture and business model.

* A is correct: Defining Integration points (ERP, HR, Inventory) is a foundational requirement that dictates the project scope and data strategy.

* D is correct: Defining the Work (Work Types, Skills, Durations) is the core of the Field Service data model. You cannot configure the system without knowing what services are being performed.

* E is correct: Defining the Territory Structure (Business Units) sets up the security model, sharing settings, and resource organization.

* Options B and C are incorrect for the first day because they are detailed configuration specifics (Refinement). You cannot define "Service Objective Weights" or "Gantt Features" until you understand the basic business goals, services, and territories.

問題 #39

What should a consultant recommend to help a customer with their initiative to reduce their carbon footprint?

- A. Add the 'Maximum Travel from Home' Work Rule.
- B. Remove the 'Match Location' Work Rule.
- C. Give 'Minimize Travel' Service Objective the highest weight.
- D. Remove the 'ASAP' Service Objective.

答案： C

解題說明：

Reducing a carbon footprint in field service is primarily achieved by reducing the fuel consumption and distance driven by the fleet.

* Option B is correct. The Minimize Travel Service Objective calculates the travel distance/time for each potential appointment slot. By giving this objective the highest weight in the Scheduling Policy, the optimization engine will aggressively prioritize schedules that have the shortest routes, even if it means sacrificing other metrics (like "ASAP" or "Preferred Resource"). Shorter routes directly equate to less driving and lower emissions.

* Option A (Remove ASAP) might help slightly by removing the urgency to book "now" (which can cause inefficient routing), but it doesn't proactively optimize for low mileage like Option B does.

* Option C (Maximum Travel Work Rule) is a hard limit (e.g., "Don't travel more than 50 miles"). While it prevents extreme outliers, it doesn't optimize the routes within that radius.

問題 #40

A customer doesn't want contractors to be considered in optimization runs.

How can a consultant implement this requirement?

- A. Create 'Match Field' Work Rule and include it in the Scheduling Policy
- B. Create 'Count Rule' Work Rule and include it in the Scheduling Policy
- C. Create 'Extended Match' Work Rule and include it in the Scheduling Policy
- D. Create 'Match Boolean' Work Rule and include it in the Scheduling Policy

答案： D

解題說明：

To exclude a specific subset of resources from being scheduled by the optimization engine, you use a Hard Constraint Work Rule.

* Option D is correct. The Match Boolean Work Rule is designed to filter resources based on a checkbox (Boolean) field.

* You would create a custom checkbox on the Service Resource object (e.g., Is_Contractor__c).

* You configure the Match Boolean rule in the Scheduling Policy to enforce that Is_Contractor__c must be False.

* When optimization runs, any resource where Is_Contractor__c = True fails the rule and is completely ignored/excluded from the schedule calculation.

* Option A (Count Rule) limits volume, it doesn't exclude.

* Options B and C (Match Field/Extended Match) match properties between the Job and the Resource (e.g., Skill or Location matching), which is not the same as a blanket exclusion of a resource type.
