Scrum Professional Scrum Master I Sample Questions (Q267-Q272):

NEW QUESTION # 267
How should Product Backlog items be chosen when multiple Scrum Teams work from the same Product Backlog?

- A. The Product Owner should provide each team with its own Product Backlog.
- B. The Product Owner decides.
- C. Each Scrum Team takes an equal numbers of items.
- D. The Scrum Team with the highest velocity pulls Product Backlog items first.
- E. The Development Teams pull in work in agreement with the Product Owner.

Answer: E

NEW QUESTION # 268
User documentation is part of your definition of "Done". However, there aren't enough technical writers for all teams. Your Development Team doesn't have a technical writer. What should you do?

- A. Let the user documentation remain undone and accumulate until after the last development Sprint. It will then be done by any available technical writers.
- B. Your Development Team is still responsible for creating user documentation. In this case, the Development Team members will write it.
- C. Wait until you have a technical writer on your Development Team to take care of this.
- D. Form a separate team of technical writers that will work on an on-demand basis for the various Product Owners. Work order will be first in, first out.

Answer: B

NEW QUESTION # 269
Which are properties of the Daily Scrum? (Choose two.)

- A. Its location and time remain constant.
- B. It is held first thing in the morning.
- C. It is fifteen minutes or less in duration.
- D. It consists of the Scrum Master asking the Team members the three questions.
- E. It is facilitated by the team lead.
- F. It is free from and designed to promote conversation.

Answer: A,C

NEW QUESTION # 270
The Scrum Master observes the Product Owner struggling with ordering the Product Backlog. What is an appropriate action for the Scrum Master to take? (Choose the best answer.)

- A. Offer the Product Owner help in understanding that the goal of ordering the Product Backlog is to maximize value.
- B. Suggest the Product Owner extend the Sprint, so he can have more time to order the Product Backlog.
- C. Suggest that the Development Team does the ordering to be sure that it is a feasible ordering of work.
- D. Encourage the Product Owner to work with the Development Team to see which items technically are fastest to implement.
- E. Present the Product Owner with an ordered Product Backlog to use.

Answer: C

NEW QUESTION # 271

Select two ways in which technical debt impacts transparency. (Choose two.)

- A. It leads to false assumptions about the current state of the system, specifically of an Increment being releasable at the end of a Sprint.
- B. As development progresses and code is added, the system becomes more difficult to stabilize, which results in future work being slowed down in unpredictable ways.
- C. It enhances transparency for the Product Owner as a Development Team is not allowed to do additional feature development in a Sprint as long as there is technical debt.
- D. When calculated and estimated, the total amount of technical debt shows exactly how long until the Product Owner can release the Increment.

Answer: A,B

NEW QUESTION # 272
