NEW QUESTION # 43
IT services has commissioned a new desktop PC replacement project that has been funded and running for three months, with a fully-engaged sponsor and programme manager appointed The head of IT services has not been involved beyond the initial project start-up interviews and has not attended any of the project meetings What position on the power interest and does the head of IT services currently occupy?

- A. Low power and influence but high interest
- B. High power or influence and high interest
- C. High power or influence but low interest
- D. Some power and influence and some interest

Answer: C

Explanation:
To determine the position of the head of IT services on the power-interest grid , we need to evaluate their level of power/influence and interest in the project.
Key Considerations:
Power/Influence: The head of IT services holds a senior leadership role, which implies they have significant authority and influence over IT-related decisions and resources. This places them in the "high power" category.
Interest: Despite their authority, the head of IT services has not been actively involved in the project beyond the initial start-up interviews and has not attended any project meetings. This indicates a lack of ongoing engagement or interest in the project's progress.
Evaluation of Each Option:
A . High power or influence but low interest:
The head of IT services has significant authority (high power) but is disengaged from the project (low interest).
Conclusion: This is the correct answer .
B . Some power and influence and some interest:
This option suggests moderate levels of both power and interest, which does not align with the head of IT services' senior role and lack of involvement.
Conclusion: This is not correct .
C . High power or influence and high interest:
While the head of IT services has high power, their lack of attendance at project meetings indicates low interest.
Conclusion: This is not correct .
D . Low power and influence but high interest:
The head of IT services clearly has high power due to their senior leadership role, so this option is incorrect.
Conclusion: This is not correct .
Final Recommendation:
The head of IT services occupies the position of high power or influence but low interest on the power-interest grid.
