世界500強企業中，有超過2/3的企業選擇了BCI電子商務軟體產品作為其核心的運用。因此，獲得BCI的認證，即使在強手林立的競爭環境中，你同樣能夠脫穎而出。考生想要通過CBCI考試，最快速的方式是使用BCI的CBCI考題，很多考生都是通過這種方式成功通過考試，可以快速掌握考試的相關資訊。

BCI CBCI 考試大綱：

| 主題 | 簡介 |
|------|--|
| 主題 1 | <ul style="list-style-type: none">Introduction: This section lays the groundwork for newcomers to business continuity by clarifying what business continuity is, why it matters in organizational resilience, and how its fundamental practices interconnect under the Good Practice Guidelines (GPG) framework. |
| 主題 2 | <ul style="list-style-type: none">Analysis: This module dives into the analytical stage, focusing on tools such as Business Impact Analysis (BIA) and risk assessment to identify critical functions and vulnerabilities—essential for understanding what the organization must protect and why. |
| 主題 3 | <ul style="list-style-type: none">Design: Here, learners explore how to translate analysis into strategic plans by developing continuity designs that mitigate identified risks, ensuring critical operations remain functional or can be quickly restored during disruptions. |

| | |
|------|--|
| 主題 4 | <ul style="list-style-type: none"> Validation: This final module emphasizes testing and verifying the effectiveness of implemented plans through exercises and reviews—ensuring that what was designed and implemented actually performs as intended under real-world conditions. |
| 主題 5 | <ul style="list-style-type: none"> Policy and Programme Management and Embedding: This part guides users through establishing a Business Continuity Management System (BCMS), including how to craft governance, define a policy, and embed these elements into the fabric of an organization for long-term sustainability. |

空想可以使人想出很多絕妙的主意，但卻辦不了任何事情。所以當你苦思暮想的如何通過BCI的CBCI認證考試時，還不如打開你的電腦，點擊PDFExamDumps，你就會看到你最想要的東西，價格非常優惠，品質可以保證，而且保證你100%通過考試。

最新的 CBCI 7.0 Certification Course CBCI 免費考試真題 (Q10-Q15):

問題 #10

One of the steps in the risk management process is to establish the risk treatment required. The purpose of risk treatment is to:

- A. Mitigate each risk identified by reducing the likelihood of the risk occurring or by lowering the impact of disruption
- B. Ensure that regular updates on the current status of the risk are presented to top management
- C. Calculate a risk score based on the combination of the likelihood of the risk occurring and the consequences of this happening
- D. Ensure that a named person within the organization takes responsibility for the monitoring and management of the risk

答案：A

解題說明：

Risk treatment is a fundamental phase within the risk management process, focusing on how identified risks will be managed to reduce their potential impact or likelihood. The CBCI 7.0 course clarifies that risk treatment involves selecting and implementing measures to either prevent risks from occurring or to minimize their adverse effects on the organization. This step is critical to building resilience, as it directly influences the mitigation of unacceptable risks that could disrupt key business activities. While assigning responsibility, scoring risks, and reporting are important supporting actions, the core purpose of risk treatment is to apply controls and strategies that reduce risk exposure effectively, thereby enhancing continuity readiness.

問題 #11

Which of the following statements about the methods used to collect information following an exercise is correct?

- A. Surveys are especially effective if an exercise and its participants are spread out over multiple locations
- B. Only senior level exercise participants should provide opinions during the debrief
- C. A hot debrief should be conducted within one month after the conclusion of an exercise
- D. One-on-one interviews with all exercise participants should be conducted within one month following the exercise

答案：A

解題說明：

Surveys are a practical and efficient way to collect feedback from participants who may be geographically dispersed or involved in staggered exercise sessions. The CBCI 7.0 course emphasizes that surveys enable broad participation and timely input collection, which can be crucial when participants cannot all meet in person or at the same time. Hot debriefs are typically immediate post-exercise discussions, not extended over a month. One-on-one interviews and limiting input to senior personnel restrict breadth and may delay feedback.

問題 #12

For a strategic response team to be effective, its members should have:

- A. A detailed understanding of each requirement set out in Business Continuity plans
- B. Ability to identify commercial opportunities in adverse situations
- **C. Decisiveness and the ability to make decisions quickly**
- D. Skill in coordinating resources, operations and suppliers

答案: C

解題說明:

Strategic response teams play a crucial role in managing crises by making timely, high-level decisions that guide the organization's overall continuity response. The CBCI 7.0 course emphasizes that decisiveness and rapid decision-making are essential qualities for such teams, as delays can exacerbate disruptions and increase impacts. While coordination skills and understanding of Business Continuity plans are important, the strategic team must prioritize swift, confident decisions to steer operational teams and allocate resources effectively during dynamic and stressful situations. Identifying commercial opportunities is beneficial but secondary to ensuring continuity and stability.

Reference: CBCI 7.0 Study Guide, Module 2: Response Structures and Roles, pages 80-83.

問題 #13

Within the context of risk assessment, the identification of solutions is influenced by a variety of business relevant considerations, including:

- A. Ensuring that communication protocols are observed
- **B. Compliance with regulatory requirements**
- C. Timely production of quality assurance audit trails
- D. Delivering performance targets

答案: B

解題說明:

The CBCI 7.0 course highlights that compliance with regulatory requirements is a critical consideration when identifying risk treatment solutions. Regulatory frameworks often impose mandatory controls or guidelines that shape the selection and design of Business Continuity solutions to ensure legal adherence and avoid penalties. While performance targets, audit trails, and communication protocols are important operational elements, they are subordinate to regulatory compliance, which acts as a baseline constraint and influence on continuity planning. Effective risk solutions balance operational effectiveness with mandatory compliance, supporting sustainable and defensible Business Continuity strategies.

Reference: CBCI 7.0 Study Guide, Module 3: Risk Assessment and Treatment, pages 51-54.

問題 #14

In relation to validation, what is meant by review?

- A. The ability of an organization to develop business continuity solutions and to train personnel to implement them effectively
- B. The process to identify an event that could lead to disruption
- **C. The process for assessing the suitability, adequacy, and effectiveness of the Business Continuity Management System (BCMS) and identifying opportunities for improvement**
- D. The process to ensure that personnel have embraced business continuity and are complying with requirements

答案: C

解題說明:

The CBCI 7.0 course explains that review refers to the systematic process of evaluating the BCMS to assess whether it remains suitable, adequate, and effective in meeting organizational needs and objectives. Reviews identify areas for improvement, ensuring continual enhancement of Business Continuity capabilities. This encompasses analysis of internal and external factors, performance data, audit results, and feedback from exercises and incidents. It differs from compliance checks or personnel engagement assessments by focusing on the overall system's fitness for purpose, promoting proactive adaptation to changing risks and environments.
