300-540 Test Review - Interactive 300-540 Testing Engine

Managing Supply Chain Risk

2

- A. lack of predictable customer demand
- B. government policy changes
- C. necessary factory scale-down
- D. exchange rate fluctuations

Answer: A

Explanation:

Lack of demand is an internal risk, the others are external risks. Internal and external risks are known facts for the exam to see p 116-117 for more information

NEW QUESTION # 95

Joan is a Spanish telecom owner who imports laptops from Japan. Joan's business operates in Euros and the price that it pays from Japan can often take a long time to arrive, this means that the price of the laptop increases due to the exchange rate. Which of the following would be the best option for Joan?

- A. Keep the laptop at cost in their own currency
- B. have the supplier make geographical orders of customer sales with supplier purchases
- C. have the supplier quote in Joan's currency
- D. terminate the contract with the foreign supplier

Answer: C

Explanation:

Joan's business operates in Euros and the price that it pays from Japan can often take a long time to arrive, this means that the price of the laptop increases due to the exchange rate. Having the supplier quote in Joan's currency would reduce the risk to Joan. The rest of currency exchange rate fluctuations would then sit with the supplier. See p 23 for more information on currency risk.

NEW QUESTION # 96

Which of the following statements are true about risk management? Select TWO.

- A. risk management is a continuous process
- B. risk management is an activity that is conducted by a business once a year
- C. risk management is a process by which assets are either created or transferred
- D. the goal of risk management is to reduce risk to 0
- E. risk management can only completely ensure the smooth and successful running of purchase and supply operations

Answer: A,E

Explanation:

The correct responses are A and E. Risk management is a continuous process and a high company ensure the smooth and successful running of P+S. These are direct quotes from p 3 of the study guide. The other answers are wrong. Risk management is a continuous process not something that is done once a year. In this option is automatically discounted. Option D is also wrong as you cannot reduce risk to 0, risk option 5 is also wrong, risk can be reduced and mitigated, but cannot be eliminated.

300-540 Test Review - Interactive 300-540 Testing Engine

If you want a relevant and precise content that imparts you the most updated, relevant and practical knowledge on all the key topics of the Cisco Certification exam, no other study material meets these demands so perfectly as does Dumps4PDF's study guides. The 300-540 questions and answers in these guides have been prepared by the best professionals who have deep exposure of the certification exams and the exam takers needs. The result is that 300-540 Study Guides are liked by so many ambitious professionals who give them first priority for their exams. The astonishing success rate of 300-540 clients is enough to prove the quality and benefit of the study questions of 300-540.

There are three different kinds of our 300-540 exam questions: the PDF, Software and APP online. And i love the Software for the best for no matter how many software you have installed on your computers, our 300-540 learning materials will never be influenced. Also, our 300-540 Study Guide just need to be opened with internet service for the first time. Later, you can freely take it everywhere as long as you use it in the Windows system.
