Universal Containers (UC) is building a new self-service site for its large global customer base. Customers will be posting questions,

viewing Knowledge articles, downloading warranties, opening tickets, and registering their recent purchases. Purchases are stored in a custom object. UC is considering using the Customer Service template for the site and External Apps license for the customers. Which limitation could cause a potential issue for UC?

- B. External Apps license does NOT allow self-registration.
- C. External Apps license does NOT allow access to cases.
- **D. External Apps license does NOT allow access to custom objects.**

Answer: D

Explanation:

This license type allows users to access standard objects, such as accounts, contacts, and cases, in a self-service site. However, it does not allow users to access custom objects, such as purchases.
