

Latest 1Z0-1195-25 Exam Price, Customizable 1Z0-1195-25 Exam Mode

P.S. Free & New 1Z0-1195-25 dumps are available on Google Drive shared by It-Tests: <https://drive.google.com/open?id=11Tq1VBkDT5nQBAB22h64pUHZESaktKni>

If you are preparing for the practice exam, we can make sure that the 1Z0-1195-25 test practice files from our company will be the best choice for you, and you cannot find the better study materials than our company'. There are a lot of advantages of our 1Z0-1195-25 preparation materials, and you can free download the demo of our 1Z0-1195-25 training guide to know the special functions of our 1Z0-1195-25 prep guide in detail. And you will know the quality of our 1Z0-1195-25 study prep as well. We are hopeful that you will like our 1Z0-1195-25 exam questions.

Oracle 1Z0-1195-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Autonomous Database and Tools: This section evaluates the expertise of Database Administrators and Cloud Engineers in working with Oracle Autonomous Database (ADB). It includes provisioning ADB instances, scaling CPU and storage, starting and stopping databases, and using tools to load data into ADB effectively.
Topic 2	<ul style="list-style-type: none"> Data Lake, Data Warehouse, and Machine Learning: This section evaluates the expertise of Data Scientists and Big Data Engineers in understanding UCI's Data Lakehouse architecture, Oracle Machine Learning capabilities, and Data Mesh architecture for managing distributed data environments.
Topic 3	<ul style="list-style-type: none"> Exadata and DBCS: This section tests the knowledge of Exadata Specialists and Database Administrators in understanding Exadata deployment options, lifecycle management tasks such as patching and backup, and the features of Oracle Base Database Service (DOracle NoSQL Database ServiceBCS).
Topic 4	<ul style="list-style-type: none"> MySQL and NoSQL: This section measures the skills of Database Developers and Data Engineers in working with Oracle MySQL HeatWave Database Service. It focuses on their features and uses cases for modern application development.

Our Oracle 1Z0-1195-25 practice test software is the most distinguished source for the Oracle 1Z0-1195-25 exam all over the world because it facilitates your practice in the practical form of the Oracle Data Platform 2025 Foundations Associate certification exam. Moreover, you do not need an active internet connection to utilize Oracle 1Z0-1195-25 Practice Exam software. It works without the internet after software installation on Windows computers.

Oracle Data Platform 2025 Foundations Associate Sample Questions (Q28-Q33):

NEW QUESTION # 28

What is the FINAL release supporting the non-CDB architecture?

- A. Oracle Database 23c
- B. Oracle Database 18c
- C. Oracle Database 21c
- **D. Oracle Database 19c**

Answer: D

Explanation:

The final release supporting the "non-CDB (non-Container Database)" architecture is "Oracle Database 19c" (B). Oracle deprecated the non-CDB architecture starting with 20c (never fully released) and mandated the multitenant architecture (CDB with PDBs) from 21c onward. 19c, as a long-term support release, was the last to support non-CDB databases, with Oracle recommending migration to multitenant in subsequent versions like 23c. Oracle's documentation confirms 19c as the end of non-CDB support.

NEW QUESTION # 29

Which Oracle Cloud Infrastructure (OCI) Identity and Access Management (IAM) capability helps you to organize multiple users into teams?

- **A. Groups**
- B. Policies
- C. Users
- D. Roles

Answer: A

Explanation:

In OCI Identity and Access Management (IAM), "Groups" (A) is the capability that helps organize multiple users into teams. Groups allow administrators to assign permissions collectively to a set of users, simplifying access management. "Policies" (B) define permissions but don't organize users, "Users" (C) are individual accounts, and "Roles" (D) are not a distinct IAM construct in OCI (unlike other clouds). Oracle's IAM documentation identifies Groups as the mechanism for team-based organization.

NEW QUESTION # 30

Which statement is not the responsibility of the customer in a simple cloud management model?

- **A. Manage database servers and VM hosts**
- B. Everything inside of the database
- C. Subscribe to database servers
- D. Control access to customer VMs

Answer: A

Explanation:

In a simple cloud management model (e.g., Autonomous Database), "Manage database servers and VM hosts" (A) is not the customer's responsibility; Oracle handles infrastructure management. Customers "Subscribe to database servers" (B), manage "Everything inside of the database" (C) like data and schemas, and "Control access to customer VMs" (D) where applicable. Oracle's shared responsibility model delegates server and host management to the provider.

NEW QUESTION # 31

What are the two main features of APEX's low code platform?

- A. Simplified core-based licensing
- **B. Use graphical user interfaces and configuration**
- C. Limited productivity
- D. Build scalable web apps for MongoDB
- E. Use traditional computer programming paradigms
- **F. Focus on business requirements**

Answer: B,F

Explanation:

Full Detailed In-Depth Explanation: Oracle APEX (Application Express) is a leading low-code platform designed to simplify and accelerate application development, particularly within the Oracle ecosystem. The two main features of APEX's low-code platform are "Use graphical user interfaces and configuration" (D) and "Focus on business requirements" (F). Option D reflects APEX's core strength: it provides a browser-based, declarative development environment with drag-and-drop functionality, wizards, and visual UI tools, allowing developers and business users to build applications with minimal coding. This reduces complexity and speeds up development, aligning with the low-code philosophy. Option F highlights APEX's emphasis on enabling users to address business needs directly, rather than getting bogged down in technical intricacies, by offering prebuilt components and templates tailored to solve real-world problems efficiently. "Limited productivity" (A) is incorrect, as APEX enhances productivity significantly. "Build scalable web apps for MongoDB" (B) is false, as APEX is optimized for Oracle Database, not MongoDB. "Simplified core-based licensing" (C) is a licensing aspect, not a development feature, and "Use traditional computer programming paradigms" (E) contradicts APEX's low-code approach, which minimizes hand-coding. Oracle's official APEX documentation emphasizes its graphical, business-focused design as key differentiators.

NEW QUESTION # 32

What are the three security zones of control?

- A. Solve
- **B. Assess**
- **C. Detect**
- **D. Prevent**

Answer: B,C,D

Explanation:

The three security zones of control in Oracle's security framework are "Assess" (A), for identifying risks and sensitive data, "Detect" (B), for monitoring and identifying threats, and "Prevent" (C), for implementing safeguards. "Solve" (D) is not a standard zone (perhaps intended as "Resolve," but still not part of the trio). Oracle's security model, as seen in Data Safe and OCI, defines these as core zones.

NEW QUESTION # 33

.....

The Oracle 1Z0-1195-25 certification exam offers a great opportunity to advance your career. With the Oracle Data Platform 2025 Foundations Associate certification exam beginners and experienced professionals can demonstrate their expertise and knowledge. After passing the Oracle Data Platform 2025 Foundations Associate (1Z0-1195-25) exam you can stand out in a crowded job market. The Oracle Data Platform 2025 Foundations Associate (1Z0-1195-25) certification exam shows that you have taken the time and effort to learn the necessary skills and have met the standards in the market.
