Quiz 2026 Newest CompTIA Latest FC0-U71 Exam Notes

Our FC0-U71 guide torrent is compiled by experts and approved by the experienced professionals. They are revised and updated according to the change of the syllabus and the latest development situation in the theory and practice. The language is easy to be understood to make any learners have no learning obstacles and our FC0-U71 study questions are suitable for any learners. Our FC0-U71 study questions are linked tightly with the exam papers in the past and conform to the popular trend in the industry. Our product convey you more important information with less amount of the questions and answers. Thus we can be sure that our FC0-U71 guide torrent are of high quality and can help you pass the exam with high probability.

CompTIA Tech+ Certification Exam Sample Questions (Q128-Q133):

NEW QUESTION # 128

Given the following data sequence:

1, 10, 2, 3, 4, 5, 6, 7, 8, 9

Which of the following data types are these values an example of?

- A. Boolean
- B. String
- C. ASCII
- D. Float

Answer: A

Explanation:

Although the values look like numbers, the ordering (1, 10, 2, 3...) suggests they are being treated as strings, not numerical values. In string sorting, "10" comes after "1" but before "2" due to character-by-character comparison.

Other options:

*Float is for decimal numbers,

*ASCII refers to character encoding,

*Boolean represents true/false values.

NEW QUESTION # 129

Which of the following is the most important consideration when opening a file on an OS GUI?

- A. Data compression
- B. File extension
- C. Backup policy
- D. Default permissions

Answer: B

Explanation:

The file extension determines which application the OS uses to open the file in a GUI environment. It's the key factor the OS checks to associate the file with the appropriate program (e.g., .docx with Word, .jpg with an image viewer). The other options are relevant in broader contexts but not immediately critical when simply opening a file.

NEW QUESTION # 130

Which of the following should be checked to ensure a user is authenticated by a web server?

- A. Permissions
- B. Firewall
- C. Account logs
- D. Browser history

Answer: C

Explanation:

Account logs record authentication attempts and can be checked to verify whether a user has successfully authenticated with a web server.

Other options:

- *Browser history tracks visited sites,
- *Permissions control access after authentication,
- *Firewall manages network traffic, not authentication records.

NEW QUESTION # 131

Which of the following types of AI is used to edit images?

- **A. Generative**
- B. Assistive
- C. Predictive
- D. Chatbot

Answer: A

Explanation:

Generative AI creates or modifies content, such as editing images, generating art, or producing media.

Other options:

- *Assistive AI supports tasks,
- *Predictive AI forecasts outcomes,
- *Chatbots simulate conversation but do not edit images.

NEW QUESTION # 132

A user wants to purchase a portable device that can be used exclusively for viewing books. Which of the following devices would be the best option?

- A. VR system
- **B. E-reader**
- C. Tablet
- D. Laptop

Answer: B

Explanation:

An e-reader is specifically designed for reading digital books using e-ink displays, which are easy on the eyes and readable in bright sunlight. They are lightweight, power-efficient, and ideal for book reading.

"E-readers use electronic ink displays for reading digital books, providing long battery life and excellent visibility in various lighting conditions." - CompTIA ITF+ Correct answer: B

NEW QUESTION # 133

.....
