- A. Known integration requirements
- B. Target customer go-live date
- C. SAP Fiori application extensions
- D. Business role requirements

Answer: A,D

Explanation:

The Digital Discovery Assessment (DDA) is part of the early discovery and scoping process for SAP S/4HANA Cloud projects. It captures the customer's business priorities, scope, and key requirements to support solution design and project planning.

A). Known integration requirements

The assessment records any known or expected integration requirements, helping identify connections to other systems or external applications early in the project.

B). Business role requirements

It also captures business role requirements to define which roles and user responsibilities are needed to support the processes included in the solution scope.

Other options:

* C. SAP Fiori application extensions: These are identified later in the design phase, not during DDA.

* D. Target customer go-live date: This may be noted in project planning but is not part of the formal DDA deliverables.
