

FCP_ZCS_AD-7.4 Real Exam Questions - Customizable FCP_ZCS_AD-7.4 Exam Mode

BONUS!!! Download part of Exam4Docs FCP_ZCS_AD-7.4 dumps for free: <https://drive.google.com/open?id=1pg1pn4bYiqE5UxV6O8y4bMJ4NHwvJ2j9>

You can run the FCP - Azure Cloud Security 7.4 Administrator FCP_ZCS_AD-7.4 PDF Questions file on any device laptop, smartphone or tablet, etc. You just need to memorize all FCP_ZCS_AD-7.4 exam questions in the pdf dumps file. Fortinet FCP_ZCS_AD-7.4 practice test software (Web-based and desktop) is specifically useful to attempt the FCP_ZCS_AD-7.4 Practice Exam. It has been a proven strategy to pass professional exams like the Fortinet FCP_ZCS_AD-7.4 exam in the last few years. FCP - Azure Cloud Security 7.4 Administrator FCP_ZCS_AD-7.4 practice test software is an excellent way to engage candidates in practice.

Fortinet FCP_ZCS_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	Azure Route Server Use Cases: This section of the exam measures skills of a Cloud Engineer and explores real-world applications of the Azure Route Server. It includes identifying scenarios where Route Server is used to streamline routing operations, support hybrid connectivity, and improve manageability in complex network topologies.
Topic 2	Azure Public Cloud Concepts: This section of the exam measures skills of a Cloud Engineer and covers foundational knowledge of public cloud computing, with a focus on Azure. Candidates are expected to understand core cloud concepts and how Azure implements them through services such as compute, storage, and networking. It also includes basic elements of Azure networking and built-in security services that support cloud-native operations.
Topic 3	High Availability (HA): This section of the exam measures skills of a Network Security Engineer and focuses on maintaining system resilience within Azure. Candidates are required to demonstrate knowledge of setting up FortiGate-based high availability in Azure, configuring Azure-native load balancing, and implementing autoscaling features to ensure continuous service availability and optimal performance.

Topic 4	• VPN Solutions in Azure: This section of the exam measures skills of a Network Security Engineer and addresses secure connectivity between Azure and on-premises environments. Candidates will review the different site-to-site VPN options available in Azure, configure tunnels between FortiGate devices and Azure VPN gateways, and understand how Azure Virtual WAN enhances global connectivity.

Customizable FCP_ZCS_AD-7.4 Exam Mode, FCP_ZCS_AD-7.4 Practice Online

Opportunities are very important in this society. With the opportunity you can go further. However, it is difficult to seize the opportunity. Is your strength worthy of the opportunity before you? In any case, you really need to make yourself better by using our FCP_ZCS_AD-7.4 training engine. With our FCP_ZCS_AD-7.4 Exam Questions, you can equip yourself with the most specialized knowledge of the subject. What is more, our FCP_ZCS_AD-7.4 study materials can help you get the certification. Imagine you're coming good future maybe you will make a better choice!

Fortinet FCP - Azure Cloud Security 7.4 Administrator Sample Questions (Q65-Q70):

NEW QUESTION # 65

What is a limitation of the Network Security Groups (NSGs) in Azure?

- A. NSGs allow the filtering of inbound traffic only.
- B. NSGs operate at the application layer, limiting their effectiveness in the network layer.
- C. NSGs cannot be applied to individual virtual machines.
- D. NSGs are applied only to vNICs.

Answer: D

Explanation:

A limitation of NSGs is that they are applied only at the subnet level or to network interfaces (vNICs), not directly to other resources like load balancers or application gateways. This means granular application-layer filtering is not supported, and NSGs primarily operate at Layers 3 and 4.

NEW QUESTION # 66

Your organization is planning to deploy FortiWeb in Azure to provide a web application security solution to its web servers. One of the requirements is to have granular control of the number of vCPUs and memory assigned to this resource.

Which cloud model could meet this requirement?

- A. Software-as-a-Service (SaaS)
- B. Function-as-a-Service (FaaS)
- C. Platform-as-a-Service (PaaS)
- D. Infrastructure-as-a-Service (IaaS)

Answer: D

Explanation:

Infrastructure-as-a-Service (IaaS) allows you to deploy FortiWeb as a virtual machine in Azure, giving you granular control over vCPU and memory allocation. This model provides full flexibility over the compute resources and network configuration, which is essential for deploying and scaling security appliances like FortiWeb.

NEW QUESTION # 67

What is the main purpose of FortiWeb in the context of web applications in Azure?

Response:

- A. To provide a secure content delivery network (CDN) for web applications.
- **B. To offer web application firewall (WAF) capabilities for protection against web application attacks**
- C. To automatically optimize network latency within Azure virtual networks
- D. To encrypt data at rest within Azure storage

Answer: B

NEW QUESTION # 68

What critical step is involved when integrating FortiGate with Azure SDN?

Response:

- A. Implementing a VPN gateway
- **B. Configuring security policies**
- C. Setting up direct peering
- D. Configuring VLAN attachments

Answer: B

NEW QUESTION # 69

You are deploying a site-to-site IPsec VPN connection between your on-premise subnet and your Azure VNets.

What is the most important advantage for using FortiGate at both ends of the tunnel?

- A. It reduces the need for troubleshooting due to FortiGate automatic configuration
- B. It allows scaling based on performance and capacity requirements
- C. It minimizes the need for encryption in transit
- **D. It provides consistent security policies and configurations**

Answer: D

Explanation:

Using FortiGate at both ends of a site-to-site IPsec VPN tunnel provides the advantage of applying consistent security policies, configurations, and management tools across both the on-premises and Azure environments. This simplifies policy enforcement, improves operational efficiency, and ensures uniform threat protection.

NEW QUESTION # 70

.....

If you cannot fully believe our FCP_ZCS_AD-7.4 exam prep, you can refer to the real comments from our customers on our official website before making a decision. There are some real feelings after they have bought our study materials. Almost all of our customers have highly praised our FCP_ZCS_AD-7.4 exam guide because they have successfully obtained the certificate. What's more, all contents are designed carefully according to the exam outline. As you can see, the quality of our FCP_ZCS_AD-7.4 Exam Torrent can stand up to the test. Your learning will be a pleasant process.
