This is a gainful opportunity to choose HPE0-V27 actual exam from our company. They are saleable offerings from our responsible company who dedicated in this line over ten years which helps customers with desirable outcomes with the help of our HPE0-V27 Study Guide. Up to now, there are three versions of HPE0-V27 exam materials for your reference. They are PDF, software and app versions. And we have free demos for you to download before you decide to purchase.

### HPE Edge-to-Cloud Solutions Sample Questions (Q23-Q28):

#### NEW QUESTION # 23

For each option, identify whether it is customizable for HPE GreenLake for Block Storage.

#### Answer:

Explanation:

Explanation:

According to the HPE GreenLake for Block Storage configuration overview, the following options are customizable for HPE GreenLake for Block Storage:

Choice of RAID Level: Customizable. You can choose the RAID level for each virtual pool of storage based on your performance and availability requirements. The supported RAID levels are RAID 1, RAID 5, RAID 6, and RAID 101.

Performance Tier: Customizable. You can choose the performance tier for each virtual pool of storage based on your workload

characteristics and service level objectives. The available performance tiers are Performance, Business Critical, and Mission Critical.

Choice of Disk Size: Customizable. You can choose the disk size for each virtual pool of storage based on your capacity and density needs. The supported disk sizes are 1.92 TB, 3.84 TB, 7.68 TB, and 15.36 TB for SSDs, and 1.6 TB and 3.2 TB for SCM1. Availability SLA: NOT customizable. HPE GreenLake for Block Storage offers a built-in 100% data availability guarantee for mission-critical environments. This means that HPE will ensure that your data is always accessible and protected, and will compensate you for any downtime or data loss that may occur<sup>2</sup>.

Network Interface/Connectivity: Customizable. You can choose the network interface and connectivity for each storage system based on your host and network requirements. The supported network interfaces are Fibre Channel and iSCSI, and the supported connectivity options are direct attach, switch attach, and SAN1.

#### NEW QUESTION # 24

For each option, identify whether it is customizable for HPE GreenLake for Block Storage.

**Answer:**

Explanation:

Explanation:

According to the HPE GreenLake for Block Storage configuration overview , the following options are customizable for HPE GreenLake for Block Storage:

\* Choice of RAID Level: Customizable. You can choose the RAID level for each virtual pool of storage based on your performance and availability requirements. The supported RAID levels are RAID 1, RAID 5, RAID 6, and RAID 10 1 .

\* Performance Tier: Customizable. You can choose the performance tier for each virtual pool of storage based on your workload characteristics and service level objectives. The available performance tiers are Performance, Business Critical, and Mission Critical 1 .

\* Choice of Disk Size: Customizable. You can choose the disk size for each virtual pool of storage based on your capacity and density needs. The supported disk sizes are 1.92 TB, 3.84 TB, 7.68 TB, and 15.36 TB for SSDs, and 1.6 TB and 3.2 TB for SCM 1 .

\* Availability SLA: NOT customizable. HPE GreenLake for Block Storage offers a built-in 100% data availability guarantee for mission-critical environments. This means that HPE will ensure that your data is always accessible and protected, and will compensate you for any downtime or data loss that may occur 2 .

\* Network Interface/Connectivity: Customizable. You can choose the network interface and connectivity for each storage system based on your host and network requirements. The supported network interfaces are Fibre Channel and iSCSI, and the supported connectivity options are direct attach, switch attach, and SAN 1 .

#### NEW QUESTION # 25

You are presenting an HPE Alletra 9000 solution to the customer. They ask for a high level implementation check list to prepare their site ahead of the implementation.

What resource can you share with the customer to aid you in providing this check list?

- A. SPOCK
- B. IData Services Cloud Console
- C. Welcome Center
- D. SmartCID

**Answer: C**

Explanation:

The Welcome Center is a web-based portal that provides customers with a guided and simplified experience for setting up and managing their HPE Alletra 9000 storage systems. The Welcome Center helps customers to plan and prepare for the hardware installation, enable cloud management, discover and initialize the storage system, and access additional resources and support. The Welcome Center also provides a checklist of the tasks and requirements for each step of the implementation process, such as network configuration, site preparation, cabling, and power. By using the Welcome Center, customers can ensure that their site is ready for the implementation and avoid any potential issues or delays.

#### NEW QUESTION # 26

You are presenting an HPE Alletra 9000 solution to the customer. They ask for a high level implementation check list to prepare

their site ahead of the implementation.

What resource can you share with the customer to aid you in providing this check list?

- A. SPOCK
- B. IData Services Cloud Console
- **C. Welcome Center**
- D. SmartCID

**Answer: C**

Explanation:

The Welcome Center is a web-based portal that provides customers with a guided and simplified experience for setting up and managing their HPE Alletra 9000 storage systems. The Welcome Center helps customers to plan and prepare for the hardware installation, enable cloud management, discover and initialize the storage system, and access additional resources and support. The Welcome Center also provides a checklist of the tasks and requirements for each step of the implementation process, such as network configuration, site preparation, cabling, and power. By using the Welcome Center, customers can ensure that their site is ready for the implementation and avoid any potential issues or delays. ### NEW QUESTION # 27

You are presenting an HPE GreenLake for private Cloud Enterprise solution to a CFO. Which financial key performance indicator (KPI) can you show via GreenLake Central?

- A. ROI
- **B. Metered charges**
- C. Net present value
- D. TCO

**Answer: B**

Explanation:

HPE GreenLake for Private Cloud Enterprise is a cloud service that delivers a fully managed private cloud experience for bare metal, containers, and virtual machines in your private environment. It offers a public cloud-like operating model with pay-per-use pricing, self-service provisioning, and consumption analytics.

One of the financial key performance indicators (KPIs) that you can show via GreenLake Central, the online portal for managing and optimizing your HPE GreenLake services, is metered charges.

Metered charges are the actual costs incurred by your usage of the HPE GreenLake for Private Cloud Enterprise service, based on the resources you consume and the service level agreement you choose. Metered charges are calculated and billed monthly, and you can view them in real time via GreenLake Central.

Metered charges are an important financial KPI for a CFO, as they reflect the value and efficiency of the HPE GreenLake for Private Cloud Enterprise service. By showing metered charges via GreenLake Central, you can demonstrate how the service aligns the costs with the outcomes, reduces the upfront capital expenditure, and optimizes the cash flow of the business. You can also compare the metered charges with the budgeted charges, which are the estimated costs based on the initial capacity and service level agreement, to show the variance and savings achieved by the service.

### NEW QUESTION # 28

.....

In compliance with syllabus of the exam, our HPE0-V27 preparation materials are determinant factors giving you assurance of smooth exam. Our HPE0-V27 actual exam comprise of a number of academic questions for your practice, which are interlinked and helpful for your exam. And there are all key points in the HPE0-V27 Exam Questions.
