So we can predict the real test precisely. Almost all questions and answers of the real exam occur on our EMEA-Advanced-Support Guide braindumps. That means if you study our study guide, your passing rate is much higher than other candidates. Preparing the exam has shortcut.

Fortinet EMEA Advanced Support Exam Sample Questions (Q18-Q23):

NEW QUESTION # 18

In Active FTP who sends the PORT command?

- A. Both
- **B. The FTP Client**
- C. The FTP Server
- D. There is no PORT command in Active FTP

Answer: B

Explanation:

In Active FTP, the client sends the PORT command to the server, specifying an ephemeral port for the server to initiate the data connection back to the client. This distinguishes Active FTP from Passive FTP, where the server provides the port. The server does not send PORT, and the command is a key part of Active FTP. Exact extract: "In Active FTP, the client sends a PORT command to the server, specifying the IP address and port number for the data connection... The server then initiates the data connection to the client's specified port."

NEW QUESTION # 19

Which of the following are classful addresses? (Select all that apply below)

- **A. 10.225.30.0/8**
- B. 172.16.0.0/24
- **C. 172.16.0.0/16**
- D. 10.225.30.0/16

Answer: A,C

Explanation:

Classful addressing follows the original IP address classes: Class A (/8), Class B (/16), and Class C (/24).

Option A (10.225.30.0/8) is a Class A address, and C (172.16.0.0/16) is a Class B address. Option B (10.225.30.0/16) and D (172.16.0.0/24) use non-standard masks for their respective ranges, making them classless (CIDR). The original document incorrectly lists only A. Fortinet routing supports both classful and classless addressing. Exact extract: "Classful addressing uses fixed subnet masks: Class A (/8), Class B (/16), and Class C (/24)... Addresses like 10.0.0.0/8 and 172.16.0.0/16 are classful, while non-standard masks indicate classless addressing."

NEW QUESTION # 20

In Active FTP who sends the PORT command?

- A. Both
- **B. The FTP Client**
- C. The FTP Server
- D. There is no PORT command in Active FTP

Answer: B

Explanation:

In Active FTP, the client sends the PORT command to the server, specifying an ephemeral port for the server to initiate the data connection back to the client. This distinguishes Active FTP from Passive FTP, where the server provides the port. The server does not send PORT, and the command is a key part of Active FTP. Exact extract: "In Active FTP, the client sends a PORT command to the server, specifying the IP address and port number for the data connection... The server then initiates the data connection to the client's specified port."

NEW QUESTION # 21

Which FortiGate feature allows for policy-based routing?

- A. Static Routes

- **B. Policy Routes**
- C. SD-WAN Rules
- D. Dynamic Routes

Answer: B

Explanation:

Policy Routes in FortiGate allow routing decisions based on criteria like source, destination, or service, overriding the default routing table. SD-WAN Rules (A) are for WAN optimization, Static Routes (C) are fixed, and Dynamic Routes (D) are protocol-based, not policy-based. Exact extract: "Policy Routes allow FortiGate to make routing decisions based on user-defined criteria, such as source/destination IPs or services, overriding standard routing."

NEW QUESTION # 22

Which protocol does FortiGate use for secure management access by default?

- A. Telnet
- B. HTTP
- C. SNMP
- **D. SSH**

Answer: D

Explanation:

FortiGate uses SSH (Secure Shell) by default for secure management access, providing encrypted command-line access. Telnet (A) and HTTP (C) are insecure, and SNMP (D) is for monitoring, not management. Exact extract: "FortiGate enables SSH by default for secure management access, providing encrypted CLI access to administrators."

NEW QUESTION # 23

.....

One of the key factors for passing the exam is practice. Candidates must use EMEA-Advanced-Support practice test material to be able to perform at their best on the real exam. This is why ExamPrepAway has developed three formats to assist candidates in their EMEA-Advanced-Support Preparation.
