

Free PDF Quiz 2026 EXIN CDCP: Certified Data Centre Professional (CDCP) Pass-Sure Certificate Exam

What's more, part of that Itcertkey CDCP dumps now are free: <https://drive.google.com/open?id=186kQCyqtBBZWIXvYYDXMvqOkqvOWh3cV>

We provide CDCP exam torrent which are of high quality and can boost high passing rate and hit rate. Our passing rate of CDCP training guide is 99% and thus you can reassure yourself to buy our product and enjoy the benefits brought by our CDCP exam materials. Our CDCP Learning Engine is efficient and can help you master the CDCP guide torrent in a short time and save your energy. The CDCP exam material we provide is compiled by experts and approved by the professionals who boost profound experiences.

Our company has successfully created ourselves famous brands in the past years, and all of the CDCP valid study guide materials from our company have been authenticated by the international authoritative institutes and cater for the demands of all customers at the same time. We are attested that the quality of the CDCP Test Prep from our company have won great faith and favor of customers. We persist in keeping creating the best helpful and most suitable CDCP study practice question for all customers.

EXIN CDCP Exam Objectives | New CDCP Exam Fee

The customers can immediately start using the Certified Data Centre Professional (CDCP) (CDCP) exam dumps of Itcertkey after buying it. In this way, one can save time and instantly embark on the journey of Certified Data Centre Professional (CDCP) (CDCP) test preparation. 24/7 customer service is also available at Itcertkey. Feel free to reach our customer support team if you have any questions about our CDCP Exam Preparation material.

EXIN CDCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Equipment Racks: It discusses power rail strip options, security considerations, and rack standards, properties and selection criteria.
Topic 2	<ul style="list-style-type: none"> Fire Safety Protection: This topic gives an understanding of standards for fire suppression, detection systems, total flooding fire suppression techniques, and handheld extinguishers. Additionally, it covers Signage and safety.
Topic 3	<ul style="list-style-type: none"> Cooling Infrastructure: The topic focuses on liquid immersion cooling, supplemental cooling options, sensible and latent heat definitions, and temperature and humidity recommendations.

Topic 4	<ul style="list-style-type: none"> • Data Centre Location, Building and Construction: It focuses on appropriate sites and components of an effective data centre and supporting facilities setup.
Topic 5	<ul style="list-style-type: none"> • Physical Security and Safety: Sub-topics are about physical security considerations and physical safety considerations.
Topic 6	<ul style="list-style-type: none"> • Light: This topic covers light fixture types and placement, emergency lighting, and emergency Power Supply (EPS).
Topic 7	<ul style="list-style-type: none"> • Raised Floor • Suspended Ceiling: The topic discusses applicable standards, signal reference grid, and disability act and regulations.
Topic 8	<ul style="list-style-type: none"> • Auxiliary Systems: The topic covers water leak detection systems, data centre monitoring requirements, EMS, BMS and DCIM.
Topic 9	<ul style="list-style-type: none"> • Water Supply: This topic is all about water supply techniques and application areas.
Topic 10	<ul style="list-style-type: none"> • Power Infrastructure: It focuses ATS and STS systems, redundancy levels and techniques, static and dynamic UPS systems, battery types, thermo-graphics, and renewable energy factor (REF).
Topic 11	<ul style="list-style-type: none"> • Designing a Scalable Network Infrastructure: It covers ANSI • TIA-942 cabling hierarchy, network redundancy, structured Cabling System, and planning considerations.

EXIN Certified Data Centre Professional (CDCP) Sample Questions (Q26-Q31):

NEW QUESTION # 26

Which source is used in fiber cable to transmit data?

- A. Signals
- B. Pulse
- C. Electric
- D. Light

Answer: D

Explanation:

Fiber-optic cables use light as the source to transmit data. Light pulses are modulated to carry information through an optical fiber. The light is confined in the core of the fiber by total internal reflection at the core-cladding interface. The light travels along the fiber with minimal loss or interference, making it suitable for long-distance and high-bandwidth applications.

NEW QUESTION # 27

is the degree to which a system or component is operational and accessibility when required for use.

- A. Scalability
- B. Reliability
- C. Agility
- D. Availability

Answer: D

Explanation:

Availability is the degree to which a system, product or component is operational and accessible when required for use. It is one of the attributes of reliability, which is the ability of a system or component to perform its required functions under stated conditions for

a specified period of time. Availability can be calculated as the ratio of the expected value of the uptime (the time when the system is functional) to the total time (uptime plus downtime) of a system or component. Availability can also be influenced by factors such as maintainability, fault tolerance, redundancy, diagnostics, and logistics.

NEW QUESTION # 28

Which Class of Fires involves cooking appliances?

- A. Class C
- B. Class B
- C. Class K
- D. Class A

Answer: C

Explanation:

According to the EPI Data Centre Professional (CDCP®) Preparation Guide, Class K fires involve cooking appliances that use combustible cooking media such as vegetable or animal oils and fats (page 28). Class K fires require special extinguishing agents that can suppress the high-temperature flames and prevent re-ignition. Class K fires are different from Class B fires, which involve flammable liquids such as gasoline, oil, or paint.

NEW QUESTION # 29

Which one of the following is an example of Direct Cost?

- A. Reduced customer satisfaction
- B. Damaged brand perception
- C. Legal fees
- D. Negative public relations

Answer: C

Explanation:

Legal fees are an example of direct cost because they can be directly attributed to a specific project, product, or service. Legal fees are incurred for the purpose of obtaining legal advice, drafting contracts, resolving disputes, or complying with regulations related to the core business activity. Legal fees are not general overhead expenses that are shared by multiple cost objects.

NEW QUESTION # 30

Which formula is correct?

- A. Volt-Ampere = Watt * Power Factor
- B. Watt = Volt-Ampere / Power Factor
- C. Watt = Volt-Ampere * Power Factor
- D. Power Factor = Volt Ampere ' Watt

Answer: C

NEW QUESTION # 31

.....

Taking practice tests is particularly helpful for those who have exam anxiety. Our practice tests are user-friendly and customizable. Windows support the desktop practice test software. Our web-based practice test is compatible with all browsers and operating systems. The web-based Certified Data Centre Professional (CDCP) (CDCP) practice test is similar to the desktop-based exam
