Perhaps now you are one of the candidates of the Apple DEP-2025 exam, perhaps now you are worried about not passing the exam smoothly. Now we have good news for you: our DEP-2025 study materials will solve all your worries and help you successfully pass it. With the high pass rate as 98% to 100%, you will find that we have the best Apple Deployment and Management Exam DEP-2025 learning braindumps which contain the most accurate real exam questions.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 2	• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.

Topic 3	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.
Topic 4	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 5	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 6	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 7	• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 8	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 9	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 10	• Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 11	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 12	• Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 13	• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.

Apple DEP-2025 Latest Test Testking: Apple Deployment and Management Exam - BraindumpsIT Accurate New Exam Review for your Studying

Pass the Apple Deployment and Management Exam DEP-2025 certification exam which is a challenging task. To make DEP-2025 exam success journey simple, quick, and smart, you have to prepare well and show a firm commitment to passing this exam. The real, updated, and error-free Apple Deployment and Management Exam DEP-2025 Exam Dumps are available over the BraindumpsIT.

Apple Deployment and Management Exam Sample Questions (Q268-Q273):

NEW QUESTION # 268

Which is true when you transfer licenses to another location in Apple Business Manager?

- A. Apple Business Manager installs the latest available version of macOS.
- B. You can transfer licenses even if they are currently assigned to devices.
- C. The total number of licenses available remains unchanged after a transfer.
- D. License transfers require approval for both the sending and receiving locations.

Answer: C

Explanation:

Apple'sApps and Bookssection in ABM allows organizations to purchase licenses and assign them to locations. Apple Learning confirms that when licenses are transferred from one location to another, thetotal license count remains unchanged. The licenses are simply reallocated within the organization. They cannot be transferred if already assigned to devices or users - those must first be unassigned. Apple does not require approval for transfers between internal locations, as the entire pool remains within the same ABM account.

Additionally, macOS installation has no relation to license transfers. The primary purpose of this feature is organizational flexibility, enabling licenses to be moved between campuses, schools, or departments as needs change, without altering the overall purchased quantity.

NEW QUESTION # 269

How are Custom Apps added to Apple Business Manager?

- A. The app developer assigns the app to the organization.
- B. The app developer asks AppleCare to assign the app.
- C. The app developer submits the app to AppleCare for review.
- D. The app must be signed by a valid organization certificate.

Answer: A

Explanation:

Apple Business Manager (ABM) and Apple School Manager (ASM) supportCustom Apps, which are distributed privately through the App Store. According to Apple's learning materials, Custom Apps are developed using standard App Store guidelines but are assigned specifically to organizations. Thedeveloper must explicitly assign the appto a particular ABM or ASM account by using the organization's ID. Once assigned, the app appears in the Apps and Books section, where licenses can be purchased or redeemed. IT admins do not submit apps through AppleCare; this is handled solely by the developer. This ensures apps are securely distributed only to intended organizations.

NEW QUESTION # 270

You try to start in macOS Recovery. You're asked to choose a user and enter a password. Why are you asked to choose a user and enter a password?

- A. Recovery Lock is enabled
- B. Lockdown Mode is turned on
- C. FileVault is turned on
- D. Startup Security Utility is set to Full Security

Answer: C

Explanation:

FileVault encryption requires authentication. ThemacOS Security Overviewstates, "When FileVault is enabled, macOS Recovery requires a FileVault-enabled user account and password to decrypt the disk." Option D (Recovery Lock) uses a separate password, not user selection.

References:

macOS Security Overview, "FileVault in Recovery" section.

Apple Platform Security Guide, "Recovery Access" section.

NEW QUESTION # 271

How can organizations enable and manage access to beta releases of Apple operating systems through MDM?

- A. Configure MDM to restrict Mac Evaluation Utility.
- B. Configure MDM to access Feedback Assistant.
- C. Enroll devices in Mac Evaluation Utility using MDM.
- D. Enroll devices in the Apple Beta Software Program using MDM.

Answer: D

Explanation:
MDM manages beta enrollment. The Mobile Device Management Protocol Reference states, "MDM can enroll devices in the Apple Beta Software Program by pushing a profile with beta update settings." References:
Mobile Device Management Protocol Reference, "Software Updates" section.
Apple Platform Deployment Guide, "Beta Management" section.

NEW QUESTION # 272

Which type of device can use Shared iPad?

- A. iPhone with iOS 13 or later
- B. Apple Watch with watchOS 6 or later
- C. Mac with macOS Catalina or later
- D. iPad with iPadOS 13.4 or later

Answer: D

Explanation:
Shared iPad is a feature introduced for educational and business environments, allowing multiple users to share an iPad with separate user sessions, each tied to a Managed Apple ID. It requires iPadOS 13.4 or later and is supported only on compatible iPad models (e.g., iPad Pro, iPad Air 2 or later). iPhones (option B), Macs (option C), and Apple Watches (option D) don't support Shared iPad, as it's an iPad-specific feature. The Apple Platform Deployment Guide specifies the system requirements for Shared iPad.

NEW QUESTION # 273

......

If you want to be an excellent elites in this line, you need to get the DEP-2025 certification, thus it can be seen through the importance of qualification examination.
