Mule-101 study materials & Mule-101 practice questions & Mule-101 study guide

Nowadays, everyone lives so busy every day, and we believe that you are no exception. If you want to save your time, it will be the best choice for you to buy our Mule-101 study torrent. Because the greatest advantage of our study materials is the high effectiveness. As a powerful tool for a lot of workers to walk forward a higher self-improvement, ValidDumps continue to pursue our passion for advanced performance and human-centric technology. We aimed to help some candidates who have trouble in pass their Mule-101 Exam and only need few hours can grasp all content of the exam. In recent years, our test torrent has been well received and have reached 99% pass rate with all our dedication.

Salesforce Certified MuleSoft Integration Foundations Sample Questions (Q29-Q34):

NEW QUESTION # 29

An API client makes an HTTP request to an API gateway with an Accept header containing the value "application/json".

- A. `status>healthy</status>`
- B. `{"status": "healthy"}`
- C. `status('healthy')`
- D. `status: healthy`

Answer: B

Explanation:

Content Negotiation: The HTTP Accept header is used by the client to tell the server what media type (format) it expects in the response.

application/json: This MIME type explicitly requests JSON (JavaScript Object Notation).

Analyzing the Options:

(B) `{"status": "healthy"}` is valid JSON format (Key-Value pair wrapped in braces).

(C) `status>healthy</status>` is XML.

(A) is YAML or Plain Text.

NEW QUESTION # 30

An organization's IT team follows an API-led connectivity approach and must use Anypoint Platform to implement a System API that securely accesses customer data. The organization uses Salesforce as the system of record for all customer data, and its most important objective is to reduce the overall development time to release the System API.

- A. Use the Anypoint Connector for Database to connect to a MySQL database to access a copy of the customer data
- B. Use the Anypoint Connector for HTTP to connect to the Salesforce APIs to directly access the customer data
- C. Use the Anypoint Connector for Salesforce to connect to the Salesforce APIs to directly access the customer data
- D. Use the Anypoint Connector for FTP to download a file containing a recent near-real time extract of the customer data

Answer: C

Explanation:

Objective: The key constraint is to "reduce overall development time."

Anypoint Connector for Salesforce: MuleSoft provides pre-built, certified connectors for major systems like Salesforce. These connectors abstract the complexity of the underlying API (SOAP/REST), handle authentication (OAuth), and provide easy-to-use operations (Query, Create, Update) within Anypoint Studio.

Comparison:

Option C (HTTP): While possible, using a generic HTTP connector requires manually building the requests, handling session management, and parsing raw JSON/XML, which takes more time.

Option B (Salesforce Connector): Is the fastest "configuration-over-coding" approach.

NEW QUESTION # 31

According to MuleSoft, which major benefit does a Center for Enablement (C4E) provide for an enterprise and its lines of business?

- A. Centrally managing return on investment (ROI) reporting from lines of business to leadership
- B. Centralizing project management across the lines of business
- C. Accelerating self-service by the lines of business
- D. Enabling Edge security between the lines of business and public devices

Answer: C

Explanation:

Center for Enablement (C4E): Unlike a Center of Excellence (CoE) which centralizes work, a C4E focuses on enablement.

Self-Service: The primary goal is to harvest reusable assets and best practices so that the Lines of Business (LOB) can build their own projects using these assets. This accelerates self-service and removes Central IT as the bottleneck.

Why others are incorrect:

Centralizing Project Management (D): C4E promotes decentralized delivery (federation), not centralized management.

NEW QUESTION # 32

What is a defining characteristic of an Integration-Platform-as-a-Service (IPaaS)?

- A. Code-first
- B. On-premises
- C. No-code
- **D. Cloud-based**

Answer: D

Explanation:

Definition of iPaaS: Gartner and MuleSoft define iPaaS (Integration Platform as a Service) as a suite of cloud services enabling the development, execution, and governance of integration flows connecting any combination of on-premises and cloud-based processes, services, applications, and data within individual or across multiple organizations.

The Key Characteristic: The "as a Service" suffix explicitly denotes a Cloud-based delivery model 111111111.

MuleSoft Context: CloudHub is the iPaaS component of the Anypoint Platform. It is a fully managed, multi-tenant, cloud-based integration platform where you deploy API implementations without managing the underlying hardware.

NEW QUESTION # 33

Refer to the exhibit. What is the type of data format shown in the exhibit?

YAML

text

traits:

error-responses: traits/error-responses.raml

jwt-required:

headers:

x-jwt:

type: string

description: JWT token string

- **A. YAML**
- B. JSON
- C. XML
- D. CSV

Answer: A

Explanation:

YAML (YAML Ain't Markup Language): The snippet provided uses indentation (whitespace) to denote structure and colons to separate keys from values. This is the signature syntax of YAML.

RAML Context: MuleSoft's RAML (RESTful API Modeling Language) is built on top of YAML1. Therefore, any RAML specification is technically a YAML file.

Why others are incorrect:

JSON: Uses curly braces {} and quotes "" strictly.

XML: Uses angle brackets <tag></tag>.

CSV: Uses comma-separated values.

NEW QUESTION # 34

.....

If you are going to purchasing the Mule-101 training materials, and want to get a general idea of what our product about, you can try the free demo of our website. Once you have decide to buy the Mule-101 training materials, if you have some questions, you can contact with our service, and we will give you suggestions and some necessary instruction. You will get the Mule-101 Exam Dumps within ten minutes. And if you didn't receive it, you can notify us through live chat or email, we will settle it for you.
