

最真實的100-160認證考試資料

P.S. Testpdf在Google Drive上分享了免費的2026 Cisco 100-160考試題庫：https://drive.google.com/open?id=1VqsF8f9-cEVrIMqaXiSiZy--Wwmp_eRD

很多新人剛進入公司就聽說，每個月都會有 Cisco 證照考試，如果過了，年底有獎金的發放，根據你完成證照的情況，才完成獎金的分配。然而對於沒有參加過任何證照考試的新人來說，是一次不錯挑戰。Testpdf剛剛更新的 Cisco 100-160 擬真試題剛好可以幫助很多新人，如果你正在準備 Cisco 100-160 考試的話，可以利用我們最新的擬真試題仔細地複習備考了。因為最新的 100-160 擬真試題可以為你的複習和看書減輕很多的煩惱。

Testpdf Cisco的100-160考試培訓資料是個性價很高的培訓資料，與眾多培訓資料相比，Testpdf Cisco的100-160考試培訓資料是最好的，如果你需要IT認證培訓資料，不選擇Testpdf Cisco的100-160考試培訓資料，你將後悔一輩子，選擇了Testpdf Cisco的100-160考試培訓資料，你將終身受益。

選擇100-160考題 - 跟Cisco Certified Support Technician (CCST) Cybersecurity考試難題說再見

你是其中之一嗎，你是否還在擔心和困惑的各種材料和花哨的培訓課程考試嗎？Testpdf是你正確的選擇，因為我們為你提供全面的考試資料，包括問題及答案，也是最精確的解釋，所有這些將幫助你掌握更好的知識，我們有信心你將通過Testpdf的Cisco的100-160考試認證，這也是我們對所有客戶提供的保障。

Cisco 100-160 考試大綱：

主題	簡介
主題 1	Incident Handling: This section of the exam measures the skills of an Incident Responder and centers on recognizing security incidents, responding appropriately, and containing threats—forming the essential foundation of incident response procedures.
主題 2	- Basic Network Security Concepts: This section of the exam measures the skills of a Network Defender and focuses on understanding network-level protections, including firewalls, VPNs, and intrusion detection - prevention systems, providing insight into how threats are mitigated within network environments.
主題 3	Essential Security Principles: This section of the exam measures the skills of a Cybersecurity Technician and covers foundational cybersecurity concepts such as the CIA triad (confidentiality, integrity, availability), along with basic threat types and vulnerabilities, laying the conceptual groundwork for understanding how to protect information systems.
主題 4	Vulnerability Assessment and Risk Management: This section of the exam measures the skills of a Risk Management Analyst and entails identifying and assessing vulnerabilities, understanding risk priorities, and applying mitigation strategies that help manage threats proactively within an organization's systems

- Endpoint Security Concepts: This section of the exam measures the skills of an Endpoint Security Specialist and includes securing individual devices, understanding protections such as antivirus, patching, and access control at the endpoint level, essential for maintaining device integrity.

最新的 Cisco CCST 100-160 免費考試真題 (Q358-Q363):

問題 #358

Which security measure can prevent unauthorized devices from automatically connecting to a corporate network through unused switch ports?

- A. Port security
- B. NAT
- C. VPN
- D. VLAN trunking

答案: A

解題說明:

The CCST Cybersecurity Study Guide explains that port security on switches can be configured to limit the number of MAC addresses allowed on a port, or to restrict it to specific devices.

"Port security can prevent unauthorized access by limiting or specifying the MAC addresses allowed to connect through a given switch port. This mitigates risks from rogue devices connecting to the network." (CCST Cybersecurity, Basic Network Security Concepts, Switch Security section, Cisco Networking Academy)

問題 #359

When should a firewall rule triggering block external access to a network resource be escalated?

- A. Never, as it is a normal security function of a firewall.
- B. Only if the access was authorized.
- C. Always, regardless of authorization.
- D. Only if the access attempt is from a known malicious IP address.

答案: A

解題說明:

Blocking external access to a network resource is a normal security function of a firewall and does not necessarily require escalation. Firewalls are designed to monitor and control incoming and outgoing network traffic based on predetermined rules and configurations. However, if the rule is triggered unexpectedly or causes disruption to critical services, it may be appropriate to escalate the issue for further investigation or adjustment of the firewall rule.

問題 #360

What is the purpose of encryption in network security?

- A. To protect the confidentiality and integrity of data during transmission
- B. To authenticate and authorize users
- C. To monitor and detect network attacks
- D. To prevent unauthorized physical access to network devices

答案: A

解題說明:

Encryption is the process of transforming data into an unintelligible form (ciphertext) to protect its confidentiality and integrity during transmission. It ensures that even if the data is intercepted, it cannot be understood or modified without the encryption key.

Encryption helps in safeguarding sensitive information from unauthorized access and tampering.

問題 #361

Which of the following is NOT a component of an incident response policy?

- A. Backup and recovery processes
- B. Roles and responsibilities
- C. Incident handling procedures
- D. Escalation procedures

答案： A

解題說明：

Backup and recovery processes are typically part of an organization's data backup and disaster recovery plan, which is separate from the incident response policy. The incident response policy focuses on defining roles, responsibilities, escalation procedures, and incident handling procedures for responding to cybersecurity incidents.

問題 #362

Why is updating documentation regularly important in the context of cybersecurity?

- A. To ensure compliance with industry regulations
- B. To facilitate effective incident response and investigation
- C. To maintain accurate records of security incidents
- D. All of the above

答案： D

解題說明：

Updating documentation regularly is crucial in cybersecurity for multiple reasons. Firstly, it helps maintain accurate records of security incidents, which is essential for future reference and analysis. Secondly, updating documentation ensures compliance with industry regulations and standards, helping organizations avoid potential penalties and legal issues. Lastly, up-to-date documentation facilitates effective incident response and investigation, enabling swift action and minimizing the impact of cybersecurity incidents.

問題 #363

.....

“如果放棄了，那比賽同時也就結束了。”這是來自安西教練的一句大家都熟知的名言。比賽是這樣，同樣考試也是這樣的。有很多人因為沒有充分的時間準備考試從而放棄了參加100-160認證考試。但是，如果使用了好的資料，即使只有很短的時間來準備，你也完全可以以高分通過100-160考試。不相信嗎？Testpdf的考古題就是這樣的資料。趕快試一下吧。
