

Free PDF 2026 C_BW4H_2505: Trustable SAP Certified Associate - Data Engineer - SAP BW/4HANA Valid Practice Questions

BTW, DOWNLOAD part of Exams4sures C_BW4H_2505 dumps from Cloud Storage: https://drive.google.com/open?id=1sy76JXpPhH_qXm8N4nTEPZrRt6FgAGxw

If you can get the certification for the exam, it not only can prove the ability of you but also can improve your competitive force in the job hunting market. C_BW4H_2505 exam braindumps are high quality and accuracy, and we can help you pass the exam in your first attempt, otherwise we will give you refund. Moreover, C_BW4H_2505 test materials contain most of the knowledge points for the exam, and you can pass the exam as well as improve your ability in the process of learning. C_BW4H_2505 exam materials offer you free update for 365 days after payment, and the update version will be sent to your email automatically.

SAP C_BW4H_2505 Exam Syllabus Topics:

| Topic | Details |
|---------|---|
| Topic 1 | <ul style="list-style-type: none">SAP Analytics Tools and SAP Analytics Cloud: This section evaluates the skills of SAP Consultants in using tools like SAP Analytics Cloud, Lumira, and Analysis for Office to visualize and interpret data. It focuses on the consultant's ability to apply business intelligence tools within the SAP ecosystem. |
| Topic 2 | <ul style="list-style-type: none">Native SAP HANA Modeling: This section evaluates the ability of SAP Consultants to describe and apply native modeling options in SAP HANA. It emphasizes understanding how to build optimized data structures directly within the HANA platform. |
| Topic 3 | <ul style="list-style-type: none">SAP BW Query Design: This section of the exam assesses the ability of Data Engineers to create and run queries using SAP BW4HANA: It evaluates how well candidates can work with query components to retrieve and structure data effectively for reporting and analysis. |

| | |
|---------|---|
| Topic 4 | <ul style="list-style-type: none"> • Data Acquisition into SAP BW • 4HANA: This section tests how Data Engineers manage data integration into SAP BW • 4HANA from multiple sources. It covers essential knowledge of tools and processes used for data extraction, transformation, and loading into the SAP environment. |
| Topic 5 | <ul style="list-style-type: none"> • SAP BW • 4HANA Data Flow: This section of the exam measures the practical ability of SAP Consultants to load data within the SAP BW • 4HANA environment. It assesses familiarity with data movement and transformation processes across different layers of the system |

C_BW4H_2505 study materials: SAP Certified Associate - Data Engineer - SAP BW/4HANA & C_BW4H_2505 test simulate material

In fact, many candidates have the willing and ambition to pass the C_BW4H_2505 exam and achieve the certification for they want to challenge themselves to become better. The efficiency of going it alone is very low, and it is easy to go to a dead end. You really need a helper. Take a look at the development of C_BW4H_2505 Guide quiz and you will certainly be attracted to it. The advantages of C_BW4H_2505 study materials are numerous and they are all you need!

SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q38-Q43):

NEW QUESTION # 38

You are allowed to run a BW query, but the data selection is only partially covered by your authorizations. What happens related to the BW query in this scenario?

- A. The BW query starts and the unauthorized values are 0.
- B. The BW query starts and only the authorized data is displayed.
- C. The BW query does not start running.
- D. The BW query starts and shows an error message.

Answer: B

NEW QUESTION # 39

You are involved in an SAP BW/4HANA project focusing on General Ledger reporting want to use the SAP ERP standard DataSource OFI_GL_14 (New GL Items) which is not active in your SAP ERP system. Which transactions can be used to activate this DataSource? Note: There are 2 correct answers to this question.

- A. Transaction RSA2 (DataSource Repository) in the SAP ERP system
- B. Transaction RSA5 (Installation of DataSource from Business Content) in the SAP ERP system
- C. Transaction RSORBCT (Data Warehousing Workbench: BI Content) in the SAP BW/4HANA system
- D. Transaction RSDS (DataSource Repository) in the SAP BW/4HANA system

Answer: A,B

NEW QUESTION # 40

Which SAP BW/4HANA objects can be used as sources of a data transfer process (DTP)? Note: There are 2 correct answers to this question.

- A. Open ODS view
- B. DataStore Object (advanced)
- C. CompositeProvider

- D. InfoSource

Answer: B,C

NEW QUESTION # 41

Which layer of the layered scalable architecture (LSA++) of SAP BW/4HANA is designed as the main storage for harmonized consistent data?

- A. Open Operational Data Store layer
- B. **Flexible Enterprise Data Warehouse Core layer**
- C. Virtual Data Mart layer
- D. Data Acquisition layer

Answer: B

Explanation:

The Layered Scalable Architecture (LSA++) of SAP BW/4HANA is a modern data warehousing architecture designed to simplify and optimize the data modeling process. It provides a structured approach to organizing data layers, ensuring scalability, flexibility, and consistency in data management. Each layer in the LSA++ architecture serves a specific purpose, and understanding these layers is critical for designing an efficient SAP BW/4HANA system.

* LSA++ Overview: The LSA++ architecture replaces the traditional Layered Scalable Architecture (LSA) with a more streamlined and flexible design. It reduces complexity by eliminating unnecessary layers and focusing on core functionalities. The main layers in LSA++ include:

- * Data Acquisition Layer: Handles raw data extraction and staging.
- * Open Operational Data Store (ODS) Layer: Provides operational reporting and real-time analytics.
- * Flexible Enterprise Data Warehouse (EDW) Core Layer: Acts as the central storage for harmonized and consistent data.
- * Virtual Data Mart Layer: Enables virtual access to external data sources without physically storing the data.
- * Flexible EDW Core Layer: The Flexible EDW Core layer is the heart of the LSA++ architecture. It is designed to store harmonized, consistent, and reusable data that serves as the foundation for reporting, analytics, and downstream data marts. This layer ensures data quality, consistency, and alignment with business rules, making it the primary storage for enterprise-wide data.
- * Other Layers:
 - * Data Acquisition Layer: Focuses on extracting and loading raw data from source systems into the staging area. It does not store harmonized or consistent data.
 - * Open ODS Layer: Provides operational reporting capabilities and supports real-time analytics. However, it is not the main storage for harmonized data.
 - * Virtual Data Mart Layer: Enables virtual access to external data sources, such as SAP HANA views or third-party systems. It does not store data physically.
- * Option A: Open Operational Data Store layer This option is incorrect because the Open ODS layer is primarily used for operational reporting and real-time analytics. While it stores data, it is not the main storage for harmonized and consistent data.
- * Option B: Data Acquisition layer This option is incorrect because the Data Acquisition layer is responsible for extracting and staging raw data from source systems. It does not store harmonized or consistent data.
- * Option C: Flexible Enterprise Data Warehouse Core layer This option is correct because the Flexible EDW Core layer is specifically designed as the main storage for harmonized, consistent, and reusable data. It ensures data quality and alignment with business rules, making it the central repository for enterprise-wide analytics.
- * Option D: Virtual Data Mart layer This option is incorrect because the Virtual Data Mart layer provides virtual access to external data sources. It does not store data physically and is not the main storage for harmonized data.

* SAP BW/4HANA Modeling Guide: The official documentation highlights the role of the Flexible EDW Core layer as the central storage for harmonized and consistent data. It emphasizes the importance of this layer in ensuring data quality and reusability.

* SAP Note 2700850: This note explains the LSA++ architecture and its layers, providing detailed insights into the purpose and functionality of each layer.

* SAP Best Practices for BW/4HANA: SAP recommends using the Flexible EDW Core layer as the foundation for building enterprise-wide data models. It ensures scalability, flexibility, and consistency in data management.

Key Concepts: Verified Answer Explanation: SAP Documentation and References: Practical Implications:

When designing an SAP BW/4HANA system, it is essential to:

* Use the Flexible EDW Core layer as the central repository for harmonized and consistent data.

* Leverage the Open ODS layer for operational reporting and real-time analytics.

* Utilize the Virtual Data Mart layer for accessing external data sources without physical storage.

By adhering to these principles, you can ensure that your data architecture is aligned with best practices and optimized for performance and scalability.

NEW QUESTION # 42

You create a report with SAP Crystal Reports for Enterprise and need an analysis view as a data source. Which tool can you use to create this analysis view?

- A. SAP Lumira, designer edition
- B. SAP Crystal Reports for Enterprise
- **C. SAP Analysis for Microsoft Office**
- D. SAP BusinessObjects Web Intelligence

Answer: C

NEW QUESTION # 43

.....

Nowadays the competition in the job market is fiercer than any time in the past. If you want to find a good job, you must own good competences and skillful major knowledge. So owning the SAP certification is necessary for you because we will provide the best study materials to you. Our SAP exam torrent is of high quality and efficient, and it can help you pass the test successfully. Our company is responsible for our study materials. Every product Exams4sures have sold to customer will enjoy considerate after-sales service. If you have problems about our C_BW4H_2505 Study Materials such as installation, operation and so on, we will quickly reply to you after our online workers have received your emails. We are not afraid of troubles. We warmly welcome to your questions and suggestions. We sincerely hope we can help you solve your problem.
