Exam Sample 1Z0-1042-25 Online | 1Z0-1042-25 New Guide Files

P.S. Free & New 1Z0-1042-25 dumps are available on Google Drive shared by RealValidExam: https://drive.google.com/open?id=1dSFn3lezY3hL2AJShGedO2JI8CZ-5qwq

The RealValidExam is a leading and reliable platform that has been offering real, valid, and updated Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam practice test questions for many years. Over this long time period thousands of candidates have passed their dream Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) certification exam. And the one thing has come in their success that was the usage of top-notch 1Z0-1042-25 Exam Practice test questions. So you can also get help from RealValidExam practice test questions and make the Oracle 1Z0-1042-25 exam preparation simple, smart and quick.

The passing rate of our 1Z0-1042-25 guide materials is high as 98% to 100% and you don't need to worry that you have spent money but can't pass the test. We can't list all the advantages with several words and please read the introduction of the features and advantages of our 1Z0-1042-25 training quiz in detail on the website. You will find that every button on the page is fast and convenient to use. And we also have the free demos of the 1Z0-1042-25 exam questions for you to download before purchase.

1Z0-1042-25 New Guide Files | Cheap 1Z0-1042-25 Dumps

We check the updating of Oracle exam dumps everyday to make sure customer to pass the exam with latest vce dumps. Once the latest version of 1Z0-1042-25 exam pdf released, our system will send it to your mail immediately. You will be allowed to free update your 1Z0-1042-25 Top Questions one-year after purchased. Please feel free to contact us if you have any questions about our dumps.

Oracle 1Z0-1042-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Testing, Monitoring, and Troubleshooting Integrations: This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.
Topic 2	• Creating Scheduled Integrations: This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.
Topic 3	• Creating Orchestrated Integrations: This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.
Topic 4	• Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.
Topic 5	• Using OIC Connections & Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.

Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q24-Q29):

NEW QUESTION # 24
You can group one or more Oracle Integration Cloud (OIC) integrations into a single structure called a package.
Which statement is NOT true about OIC packages?

- A. You can import packages directly from the Oracle Marketplace.
- B. New packages can be created by clicking the Create button on the Packages page in the OIC console.
- C. Packages cannot be locked to deny other users access to your integrations.
- D. Packages enable you to easily import and export a group of integrations to and from OIC.
- E. Integrations do not need to be part of a package.
- F. All packages must include at least one integration.

Answer: C

Explanation:
Packages cannot be locked to prevent other users from accessing the integrations within them, unlike projects that can be locked.

NEW QUESTION # 25
There are use cases in which you need to perform an advanced XSL task that you cannot perform in Oracle Integration Cloud (OIC) data mapper. To perform advanced mapping tasks, you decide to use an external XSL mapper and then import the .xml back to your integration.
Which is NOT a valid consideration when handling this use case?

- A. The exported archive file can include a map file that is largely complete in content or a map file that is empty of content.
- B. You must export the entire integration that contains one or more .xml files.
- C. The exported archive must be imported into an Oracle Service Bus project in JDeveloper.

Answer: C

Explanation:
Importing the exported archive into an Oracle Service Bus project in JDeveloper is incorrect. The external XSL mapper will be imported back into the Oracle Integration Cloud, not an OSB project in JDeveloper.

NEW QUESTION # 26
You are configuring an ERP Cloud Adapter connection invoke action within an Oracle Integration Cloud (OIC) integration. How many child resources can you select?

- A. Unlimited
- B. 0
- C. 1
- D. 2

Answer: A

Explanation:
Comprehensive and Detailed Explanation:
Child Resources:
A:True-no fixed limit.

NEW QUESTION # 27
You need to create a scheduled orchestration integration that is based on an existing app-driven orchestration using the same display name. Which statement is valid for this use case?

- A. You cannot create another integration that uses the same name.
- B. You can create the new integration as a different major version of the existing one.
- C. You can clone the existing integration and specify it to use the scheduled orchestration pattern.
- D. You can create the new integration by using the same display name but with a different identifier.

Answer: C

Explanation:
Comprehensive and Detailed Explanation:
OIC allows pattern changes:
B:True-cloning an app-driven integration and switching to scheduled pattern is supported, retaining the name.
A:False-versioning doesn't change the pattern.
C:False-same names are allowed with different identifiers.

NEW QUESTION # 28
You are an Oracle Integration Cloud (OIC) specialist working on a project to integrate two systems using OIC. During testing, you notice that the integration instance fails to execute and returns an error message.
Which step would you take first to troubleshoot the issue?

- A. Increase the number of instances to handle the error.
- B. Check the instance logs for specific error messages and details.
- C. Immediately restart the integration instance.
- D. Contact Oracle Support and wait for a response.

Answer: B

Explanation:
Comprehensive and Detailed Explanation:
Troubleshooting in OIC begins with diagnostics:
Option A:Checking instance logs (via the Monitoring or Activity Stream page) provides detailed error messages, stack traces, and context- the first logical step.
Option B:Increasing instances addresses scalability, not root cause identification.
Option C:Restarting might clear transient issues but skips understanding the failure.
Option D:Contacting support is a later step after initial investigation.

Logs are the primary tool for pinpointing issues efficiently.

NEW QUESTION # 29

......

It is browser-based; therefore no need to install it, and you can start practicing for the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam by creating the Oracle 1Z0-1042-25 practice test. You don't need to install any separate software or plugin to use it on your system to practice for your actual Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam. RealValidExam Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) web-based practice software is supported by all well-known browsers like Chrome, Firefox, Opera, Internet Explorer, etc.
